The late antique and early medieval Mediterranean was characterized by wide-ranging cultural and linguistic diversity. Yet, under the influence of Christianity, communities in the Mediterranean world were bound together by common concepts of good rulership, which were also shaped by Greco-Roman, Persian, Caucasian, and other traditions. This collection of essays examines ideas of good Christian rulership and the debates surrounding them in diverse cultures and linguistic communities. It grants special attention to communities on the periphery, such as the Caucasus and Nubia,

and some essays examine non-Christian concepts of good rulership to offer a comparative perspective. As a whole, the studies in this volume reveal not only the entanglement and affinity of communities around the Mediterranean but also areas of conflict among Christians and between Christians and other cultural traditions. By gathering various specialized studies on the overarching question of good rulership, this volume highlights the possibilities of placing research on classical antiquity and early medieval Europe into conversation with the study of eastern Christianity.

rebels gathering in the West outnumber the royal army and the magic they wield can strike into the heart of the palace itself, but far greater dangers lie behind those. On the far fringes of the Isles, ancient powers ready themselves for a titanic struggle in which human beings are mere pawns--or fodder! Reptilian and insect monsters from out of the ages march on the kingdom, commanded by wizards no longer human or never human at all. If unchecked, their ravaging slaughter will sweep over the Isles as destructively as a flood of lava. Garric, ripped from his time and body, must make new allies if he and his kingdom are to survive.  Winner of the Mythopoeic Scholarship Award for Myth and Fantasy Studies (2016) Fantasy worlds are never mere backdrops. They are an integral part of the work, and refuse to remain separate from other elements. These worlds combine landscape with narrative logic by incorporating alternative rules about cause and effect or physical transformation. They

become actors in the drama—interacting with the characters, offering assistance or hindrance, and making ethical demands. In *Here Be Dragons*, Stefan Ekman provides a wide-ranging survey of the ubiquitous fantasy map as the point of departure for an in-depth discussion of what such maps can tell us about what is important in the fictional worlds and the stories that take place there. With particular focus on J. R. R. Tolkien's *The Lord of the Rings*, Ekman shows how fantasy settings deserve serious attention from both readers and critics. Includes insightful readings of works by Steven Brust, Garth Nix, Robert Holdstock, Terry Pratchett, Charles de

Lint, China Miéville, Patricia McKillip, Tim Powers, Lisa Goldstein, Steven R. Donaldson, Robert Jordan, and Neil Gaiman and Charles Vess.

Who wrote the Gospel of John? The author identifies himself only as "the disciple whom Jesus loved," and Christian tradition tells us that this disciple was the apostle John. However, during the past century, scholars have increasingly come to doubt that attribution. In 1902, Rudolf Steiner wrote that the author of the Gospel of John was in fact Lazarus. Steiner's position stemmed from his insight that Lazarus's encounter with death involved far more than people realized--an initiation

into higher spiritual realities that uniquely qualified him to write this gospel. Edward Smith takes up this argument and shows that subsequent research has tended to favor Lazarus for reasons grounded in John's Gospel itself. More important, Smith shows that subsequent discoveries at Nag Hammadi and Mar Saba corroborate Steiner's reasoning about the nature of the raising of Lazarus, pointing to Lazarus as "the rich young ruler" of Mark's Gospel.
