Stories Behind the Images HarperCollins

From his early days working out of his dorm room and shooting on film to becoming a Nikon ambassador and official photographer of the historic Dawn Wall ascent, Corey Rich has been capturing iconic shots of adventure superstars for more than two decades. Now Corey tells how he got some of his favorite images of climbers, adventurers, skiers, performance artists, and more. He shares insights into the business of photography, photography tips, outdoor lessons, and what he has learned about human nature along the way. Featured outdoor athletes include: Tommy Caldwell Project Bandaloop Beth Rodden Lynn Hill Ashima Shiraishi Kelly Slater Bear Grylls Alex Honnold Fred Beckey and many more

Mathematical Circus American Mathematical Soc.

From a master of professional photography, a book that explores the exciting possibilities of artificial light. This guide to on- and off-camera flash picks up where Peterson's previous title, Understanding Exposure, left off--helping free photographers from the limitations of auto to get the images they want when natural light isn't enough. For the many amateur photographers afraid to venture past natural lighting, here is the book that will finally help them master artificial light. In his trademark easy-to-understand style, Bryan Peterson explains not only how flash works, but how to go beyond TTL automatic flash exposure to master manual flash, allowing readers to control the quality, shape and direction of light for a perfect exposure, every time.

The Art of Photography, 2nd Edition John Wiley & Sons

On the windswept front of Morecambe Bay, Cy Parks spends his childhood years first in a guest house for consumptives run by his mother and then as apprentice to alcoholic tattoo-artist Eliot Riley. Thirsty for new experiences, he departs for America and finds himself in the riotous world of the Coney Island boardwalk, where he sets up his own business as 'The Electric Michelangelo'. In this carnival environment of roller-coasters and freak-shows, Cy becomes enamoured with Grace, a mysterious immigrant and circus performer who commissions him to cover her entire body in tattooed eyes.

Hugely atmospheric, exotic and familiar, The Electric Michelangelo is a love story and an exquisitely rendered portrait of seaside resorts on opposite sides of the Atlantic by one of the most uniquely talented novelists of her generation.

Making Harper Collins

Hawaii has been billed as the American tropical paradise since the 1950s. The beauty of the trails, verdant wilderness, and cliffs of Kauai, the oldest and arguably most majestic island is unrivalled. Compiled by students, this guide provides insider tips and information for the socially conscious traveller.

How to Paint a Dead Man Rocky Nook, Inc.

The majority of citizens in the world today do not trust their political representatives, the mainstream political parties, the established political institutions or their governments. This widespread crisis of legitimacy underlies a series of dramatic changes that have taken place in recent times in the global political landscape, such as the unexpected election of Donald Trump, Brexit, the demise of traditional political parties and the election of a political outsider in France, the transformation of the political system in Spain (including the secessionist movement in Catalonia), the rise of the extreme right in Europe and the nationalist challenges that threaten the European Union. In this short but wide-ranging book Manuel Castells analyses each of these processes and examines some of the potential causes of people’s disaffection towards the institutions of liberal democracy, including the effects of globalization, the impact of media politics and the internet, the increasing corruption of politicians, the insulation of a professional political class from civil society and the critique of the existing order by new social movements. He also examines the impact of global terrorism and war on the xenophobia and racism that are fuelling the surge of extremism among a growing proportion of the population. The fact that many of these trends are present in very different contexts suggests that we are witnessing a deep-seated crisis of the model of democracy that has been the cornerstone of stability and civility in the last half century.

Bryan Peterson Photography School National Geographic Books

By the winner of the 2015 Spanish National Prize for Children's and Young Adult Literature, "Heart of Jupiter" is the story of a teenage girl, Isla, who moves home and has to start over at a new school in Region. Here she makes friends with Mar, who helps her adjust to her new circumstances, but she also comes across Oak, who is determined to make her life miserable and seems to bear a grudge. She spends her nights chatting online with Jupiter. They share a common passion for the stars. Isla finds solace in their relationship, but Mar remains unconvinced and would prefer to see Isla in a relationship with Anxo, a boy from their school, someone she has actually seen. Isla is insistent, however: Jupiter and she have arranged to meet on Midsummer's Eve, when they will finally discover whether their online relationship is for real... Other titles in the series Galician Wave include: "Winter Letters" by Agustin Fernandez Paz, "I Love You Leo A. Destination Somewhere" by Rosa Aneiros, "Dragal I: The Dragon's Inheritance" by Elena Gallego Abad, "The Painter with the Hat of Mallows" by Marcos Calveiro and "Dove and Cut Throat" by Fina Casalderrey."

Road to Seeing Yearling

"Hall's writing manages to combine acute sensitivity and daring. ... Visceral and engaging. ... The emotional lives of her characters are skillfully realized in this bright weave of disparate voices—for whom art is at once a way of seeing and a way of life." —The Times (London) The lives of four

individuals—a dying painter, a blind girl, a landscape artist, and an art curator—intertwine across nearly five decades in this luminous and searching novel of extraordinary power. With How to Paint a Dead Man, , Sarah Hall, "one of the most significant and exciting of Britain's young novelists" (The Guardian), delivers "a maddeningly enticing read...an amazing feat of literary engineering" (The Independent on Sunday).

Birds of the Philippines Polity

This is an updated and newly revised edition of the classic book The Art of Photography: An Approach to Personal Expression. Originally published in 1994 and first revised in 2010, The Art of Photography has sold well over 100,000 copies and has firmly established itself as the most readable, understandable, and complete textbook on photography. Featuring nearly 200 beautiful photographs in both black-and-white and color, as well as numerous charts, graphs, and tables, this book presents the world of photography to beginner, intermediate, and advanced photographers who seek to make a personal statement through the medium of photography. Without talking down to anyone or talking over anyone's head, renowned photographer, teacher, and author Bruce Barnbaum presents how-to techniques for both traditional and digital approaches. In this newest edition of the book, Barnbaum has included many new images and has completely revised the text, with particular focus on two crucial chapters covering digital photography: he revised a chapter covering the digital zone system, and includes a brand-new chapter on image adjustments using digital tools. There is also a new chapter discussing the concepts of “art versus technique” and “traditional versus digital” approaches to photography. Throughout the book, Barnbaum goes well beyond the technical, as he delves deeply into the philosophical, expressive, and creative aspects of photography so often avoided in other books. Barnbaum is recognized as one of the world's finest landscape and architectural photographers, and for decades has been considered one of the best instructors in the field of photography. This latest incarnation of his textbook—which has evolved, grown, and been refined over the past 45 years—will prove to be an ongoing, invaluable photographic reference for years to come. It is truly the resource of choice for the thinking photographer. Topics include: • Elements of Composition • Visualization • Light and Color • Filters • Black-and-White • The Digital Zone System • The Zone System for Film • Printing and Presentation • Exploding Photographic Myths • Artistic Integrity • Realism, Abstraction, and Art • Creativity and Intuition • A Personal Philosophy • And much, much more...

Tony Northrup's DSLR Book: How to Create Stunning Digital Photography Mulholland Books

You’ll even get creative techniques, like making "rain" and capturing "ghosts," and practical advice on gear, equipment, and postprocessing software. Filled with Bryan’s inspirational photographs, this is the one essential guide for every camera bag.

Understanding Flash Photography Faber & Faber

Now a Netflix animated film starring Will Forte, Maya Rudolph, Alessia Cara, Terry Crews, Martin Short, Jane Krakowski, Séan Cullen, and Ricky Gervais! From the Newbery Medal-winning author of The Giver and Number the Stars, comes a "hilarious" (Booklist, starred review) and wonderfully old-fashioned story about a mother and father who are all too eager to be rid of their four children . . . and four children who are all too happy to be rid of their parents. The Willoughby’s—Timothy; his twin brothers, Barnaby A and Barnaby B; and their little sister, Jane—are old-fashioned children who adore old-fashioned adventures. Unfortunately, the Willoughby parents are not very fond of their children, and the truth is that the siblings are not too keen on their parents either. Little do the Willoughby kids know that their neglectful mother and father are hatching an evil plan to get rid of them! Not to worry—these resourceful adventurers have a few plans of their own. But they have no idea what lies ahead in their quest to rid themselves of their ghastly parents and live happily ever after.

Nikon Harvard University Press

The author explains his path to photography, including key career moments and his philosophy of the art, complemented by the portrait, scenic, and artistic photographs that have made him famous.

The Electric Michelangelo Course Technology

It takes enviable skill and dedication to achieve mastery in the arts. Yet even more remarkable is the artist who widens his scope to venture beyond his already widely acclaimed signature style. Few would dare to even consider such a risk... However, in "Senza Parole," Marc Lagrange is audacious enough to make that thrilling leap as he boldly showcases a broad array of distinctive approaches--everything from starkly straight nude studies--in the honorable tradition of Helmut Newton--to Lagrange's more typically intricate and exotic compositions. The photographer's devoted followers will still find the dream-like eroticism he is known for, yet, in this work, each photograph is one of a kind, with Lagrange's hallmark of technical perfection. As one would expect from Lagrange, each tableau is carefully configured with not a single detail left to chance.

Haweswater Quirk Books

The top-rated and top-selling photography ebook since 2012 and the first ever Gold Honoree of the Benjamin Franklin Digital Award, gives you five

innovations no other book offers: Free video training. 9+ HOURS of video training integrated into the book's content (requires Internet access). Madame Zero Watson-Guption

Marco Santagata illuminates one of the world's supreme poets from many angles—philosopher, father, courtier, political partisan. He brings together a vast body of Italian scholarship on Dante's medieval world, untangles a complex web of family relationships for English readers, and shows the influence of local and regional politics on his writing.

Heart of Jupiter Silvana Editoriale

Martin Gardner's Mathematical Games columns in Scientific American inspired and entertained several generations of mathematicians and scientists. Gardner in his crystal-clear prose illuminated corners of mathematics, especially recreational mathematics, that most people had no idea existed. His playful spirit and inquisitive nature invite the reader into an exploration of beautiful mathematical ideas along with him. These columns were both a revelation and a gift when he wrote them; no one--before Gardner--had written about mathematics like this. They continue to be a marvel. This volume, first published in 1979, contains columns published in the magazine from 1968-1971. This 1992 MAA edition contains a foreword by Donald Knuth and a postscript and extended bibliography added by Gardner for this edition.

Dante Rocky Nook, Inc.

From one of the most accomplished British writers working today, the Man Booker Prize-shortlisted author of *The Wolf Border*, comes a unique and arresting collection of short fiction that is both disturbing and dazzling. Sarah Hall has been hailed as "one of the most significant and exciting of Britain's young novelists" (*The Guardian*), a writer whose "intelligence and ambition are thrilling to behold" (*BookForum*). Her work has been acclaimed as "amazing . . . terrific and original" (*Washington Post*). In this collection of nine works of short fiction, she uses her piercing insight to plumb the depth of the female experience and the human soul. A husband's wife transforms into a vulpine in "Mrs. Fox," winner of the BBC Short Story Prize. In "Case Study 2," a social worker struggles with a foster child raised in a commune. A new mother runs into an old lover in "Luxury Hour." In incandescent prose, full of rich observations and striking clarity, Hall has composed nine wholly original pieces—works of fiction that will resonate long after the final page is turned.
