Scott F. Crider addresses the intelligent university student with respect and humor. A short but serious book of rhetoric, it is informed by both the ancient rhetorical tradition and recent discoveries concerning the writing process. Though practical, it is not simply a how-to manual; though philosophical, it never loses sight of writing itself. Crider combines practical guidance about how to improve an academic essay with reflection on the purpose - educational, political, and philosophical - of such improvement.

Love it or hate it, the five-paragraph essay is perhaps the most frequently taught form of writing in classrooms of yesterday and today. But have you ever actually seen five-paragraph essays outside of school walls? Have you ever found it in business writing, journalism, nonfiction, or any other genres that exist in the real world? Kimberly Hill Campbell and Kristi Latimer reviewed the research

on the effectiveness of the form as a teaching tool and discovered that the research does not support the five-paragraph formula. In fact, research shows that the formula restricts creativity, emphasizes structure rather than content, does not improve standardized test scores, inadequately prepares students for college writing, and results in vapid writing. In *Beyond the Five-Paragraph Essay*, Kimberly and Kristi show you how to reclaim the literary essay and create a program that encourages thoughtful writing in response to literature. They provide numerous strategies that stimulate student thinking, value unique insight, and encourage lively, personal writing, including the following: Close reading (which is the basis for writing about literature) Low-stakes writing options that support students' thinking as they read Collaboration in support of discussion, debate, and organizational structures that support writing as exploration A focus on students' writing process as foundational to content development and structure The use of model texts to write in the form of the literature students are reading and analyzing The goal of reading and writing about literature is to push and challenge our students' thinking. We want students to know that their writing can convey something important: a unique view to share, defend, prove, delight, discover, and inspire. If we want our students to be more engaged, skilled writers, we need to move beyond the five-paragraph essay.

*Writing Rhetorically: Fostering Responsive Thinkers and Communicators*, author Jennifer Fletcher aims to cultivate independent learners through rhetorical thinking. She provides teachers with strategies and frameworks for writing instruction that can be applied across multiple subjects and lesson plans. Students learn to discover their own questions, design their own inquiry process, develop their own positions and purposes, make their own choices about content and form, and contribute to conversations that matter to them. Inside this book, Fletcher helps remove some of the scaffolding and explains how to put in practice some methods which can successfully foster: Inquiry, Invention, and Rhetorical Thinking Writing for Transfer Paraphrasing, Summary, Synthesis, and Citation Skills Research Skills and Processes Evidence-Based Reasoning Rhetorical Decision Making' Rhetorical decision making helps students develop the skills, knowledge, and mindsets needed for transfer of learning: the ability to adapt and apply learning in new settings. The more choices students make as writers, the better prepared they are to analyze and respond to diverse rhetorical situations.' *Writing Rhetorically* shows teachers what it looks like to dig into real texts with students and novice writers and how it develops them for lifelong learning.

*Read-i-cide n*: The systematic killing of the love of reading, often exacerbated by the inane, mind-numbing practices found in schools. Reading is dying in our schools. Educators are familiar with many of the factors that have contributed to the decline--poverty, second-language issues, and the ever-expanding choices of electronic entertainment. In this provocative new book, Kelly Gallagher suggests, however, that it is time to recognize a new and significant contributor to the death of reading: our schools. In *Readicide*, Kelly argues that American schools are actively (though unwittingly) furthering the decline of reading. Specifically, he contends that the standard instructional practices used in most schools are killing reading by: - valuing the development of test-takers over the development of lifelong readers; - mandating breadth over depth in instruction; -

requiring students to read difficult texts without proper instructional support; - insisting that students focus solely on academic texts; - drowning great books with sticky notes, double-entry journals, and marginalia; - ignoring the importance of developing recreational reading; and - losing sight of authentic instruction in the shadow of political pressures. Kelly doesn't settle for only identifying the problems. *Readicide* provides teachers, literacy coaches, and administrators with specific steps to reverse the downward spiral in reading--steps that will help prevent the loss of another generation of readers.

In this contemporary retelling of *The Canterbury Tales*, a group of teens on a bus ride to Washington, DC, each tell a story—some fantastical, some realistic, some downright scandalous—in

pursuit of the ultimate prize: a perfect score. Jeff boards the bus for the Civics class trip to Washington, DC, with a few things on his mind: -Six hours trapped with his classmates sounds like a disaster waiting to happen. -He somehow ended up sitting next to his ex-best friend, who he hasn't spoken to in years. -He still feels guilty for the major part he played in pranking his teacher, and the trip's chaperone, Mr. Bailey. -And his best friend Cannon, never one to be trusted and banned from the trip, has something "big" planned for DC. But Mr. Bailey has an idea to keep everyone in line: each person on the bus is going to have the chance to tell a story. It can be fact or fiction, realistic or fantastical, dark or funny or sad. It doesn't matter. Each person gets a story, and whoever tells

the best one will get an automatic A in the class. But in the middle of all the storytelling, with secrets and confessions coming out, Jeff only has one thing on his mind—can he live up to the super successful story published in the school newspaper weeks ago that convinced everyone that he was someone smart, someone special, and someone with something to say. In her debut novel, Kim Zarins breathes new life into Chaucer's *The Canterbury Tales* in a fresh and contemporary retelling that explores the dark realities of high school, and the subtle moments that bring us all together.
