Production and Transport of Oil and Gas: Gathering and transportation CRC Press

The natural gas business consists of two major aspects, sourcing and transportation, and distribution has been a growing area of interest to industry, government and academia. With the emphasis on promoting natural gas sector, there

is an increasing need to have a well documented book that deals with the business issues, particularly the transportation and distribution of this sector, specifically aimed at petroleum engineers and professionals. This book fills this gap to provide structured material that deals with managerial and regulatory aspects with an applied technical perspective

wherever needed. Natural Gas Transmission and Distribution Business Elsevier Considers. S. 1853, to exempt independent producers of natural gas from regulation. S. 1248, to require that rates and charges of all natural gas companies be determined on basis of actual legitimate cost of company's property, less depreciation. S. 1880, S. 1926, and S. 2001, to

extend FPC jurisdiction to direct sales of industrial producers of natural gas. S. 712, to permit holders of certificates of convenience and necessity to exercise right of eminent domain to acquire property for storage of gas. Proceedings "The purpose of this Regulator Handbook is to provide for both the engineer and the practical regulator man a complete description of gas pressure

regulation. Sufficient theory has been included to provide a complete understanding of the principles involved. There is also detailed information concerning the installation, maintenance and repair of Rockwell regulators."--
