been divided into five chapters namely An Introduction of Letter Writing, Informal Letters, Formal Letters, Reference/ Recommendation Letters and Email. This book contains various types of letters - Personal, Business Letters, Applications, Official Letters, Application Writing, Apology, Condolence, etc. The book also contains the E-mailing, Report Writing

and Press Release sections. A simple and easy language with the latest pattern has been used in this book. This book will also help you in developing the research and writing skills.

The Elements of STATISTICS & DYNAMICS  
Part-I Statics

Arihant Publications India limited The Classic Text Series is the only of its kind selection of classic pieces of work that started off as bestseller and continues to

be the bestseller even today. These classic texts have been designed so as to work as elementary textbooks which play a crucial role in building the concepts from scratch as in-depth knowledge of concepts is necessary for students preparing for various entrance examinations. This book on Elements of Statics and Dynamics Part 1 (Statics) deals with graphically represented

concepts of Statics. The present book has been divided into 18 chapters namely Introduction, Composition & Resolution of Forces, Parallel Forces, Moments, Couples, Equilibrium of a Rigid Body Acted on by Three Forces in a Plane, General Conditions of Equilibrium of a Body Acted on by Forces in One Plane, Centre of Gravity, Work, Machines, Friction, Miscellaneous, Some

Additional Propositions and Vectors. Each chapter in the book contains relevant theoretical content for comprehensive understanding of the concepts along with number of solved examples with detailed explanations. At the end of each chapter, unsolved practice exercises have been provided to help aspirants revise the concepts discussed in the

chapter. Answers and solutions to the practice exercises have been covered at the end of the book along with attachment containing terms used in the chapters. As the book covers all the elements of Statics (Part 1), hope this book covering Elements of Statics from the Classic Text Series will help the readers get in-depth insight into the various elements of Statics.

Arihant Publications India limited IIT JEE Main and Advanced test the conceptual knowledge of aspirants by asking real-life application based problems on Physics, Chemistry, and Mathematics. Keeping this in mind, we have been publishing our best-selling series of books exclusively on different topics of all three subjects to enable aspirants for

advanced ability to tackle any type of questions asked from them. "Understanding Physics" is one of those best-selling series written by renowned author, D.C. Pandey which carries five fully comprehensive textbooks presenting 36 essential chapters of Physics. The third book on Waves and Thermodynamics has been revised thoroughly to reinforce the foundation of Waves and

Thermodynamics simply and coherently with 6 scoring chapters promoting in-depth discussions on each theory. The focused study material for concept building along with applications for solidifying the problem-solving skills given in this book are highly advantageous. It also provides the last 6 years' questions of JEE Main and Advanced to know the trend and patterns of questions.

Enclosed with well-organized and premier set of study material to develop the substantial knowledge of Physics required for acing IIT JEE Main and Advanced, this book is the absolute best in terms of both quality and quantity.

Keeping in mind this immense importance and significance of the NCERT Textbooks in mind, Arihant has come up with a unique book containing Questions-Answers of NCERT Textbook based questions. This book containing solutions to NCERT Textbook questions has been designed for the students studying in Class XI

following the NCERT Textbook for Physics. The present book has been divided into 15 Chapters namely Physical World, Motion in a Plane, Laws of Motion, Work, Energy & Power, Gravitation, Thermodynamics, Kinetic Theory, Oscillations, Waves, Motion in a Straight Line, Thermal Properties of Matter, Mechanical Properties of Solids, etc covering the syllabi of Physics for Class XI. This book has been worked out with an aim of overall development of the students in such a way that it will help students define the way how to write the answers of the Physics textbook based questions. The book covers selected NCERT Exemplar Problems which will help the students understand the type of questions and answers to be expected in the Class XI Physics Examination. Also each chapter in the book begins with a summary of the chapter which will help in effective understanding of the theme of the chapter and to make sure that the students will be able to answer all popular questions concerned to a particular chapter whether it is Long Answer Type or Short Answer Type Question. For the overall benefit of students the book has been designed in

such a way that it not only gives solutions to all the exercises but also gives detailed explanations which will help the students in learning the concepts and will enhance their thinking and learning abilities. As the book has been designed strictly according to the NCERT Textbook of Physics for Class XI and contains simplified text material in the form of class room notes and answers to all the questions in lucid language, it for sure will help the Class XI students in an effective way for Physics. *Chemistry* Arihant Publications India limited 1. General Knowledge 2021 is a compact version of all current events of the whole year. 2. Divided into 5 Key Sections; History, Geography, Indian Polity, Indian Economy, General Science and General Knowledge. 3. A separate section has been provided for Current Affairs 4. Provides accurate, perfect and complete coverage of facts. 5. It is useful for the preparation of SSC, Bank, Railway, Police, NDA/CDS and various other competitive exams. General knowledge carries an important section in many competitive examinations. Keeping an updated knowledge of the current events helps

not only in exams but also in the everyday life. The New Edition of General Knowledge 2022 provides you the current events of the whole year. It is prepared for the students who are going to appear for the various upcoming examinations. It covers the key subjects like History, Geography, Polity, Finance, Economics and General Science and General Knowledge, supported

with the latest facts and figures. A separate section is allotted to current affairs giving total summary of the events happening around the globe. With the use of latest figure, graphics and table, it serves as an accurate, perfect and coverage compact version of General Knowledge. This book is highly useful for the SSC, Banks, Railways, Police, NDA/CDS

other examinations.
