The Heroin Diaries: Ten Year Anniversary Edition Gollancz

The Global Study on Homicide 2013 is based on comprehensive data from more than 200 countries/territories, and examines and analyses patterns and trends in homicide at the global, regional, national and sub-national levels. Such analysis is fundamental to understanding the various factors and dynamics that drive homicide, so that measures can be developed to reduce violent crime. The Study provides a typology of homicide, including homicide related to crime, coexistence-related homicide, and socio-political homicide. The nature of crime in several countries emerging from conflict, the role of various mechanisms in killing, and the response of the criminal justice system to homicide are also analyzed. A further chapter examines homicide at the sub-national level, and includes analysis at the city-level for selected global cities.

NEW YORK TIMES BESTSELLER • The award-winning book that inspired an Apple Original series from Apple TV+ • A landmark investigation of patient deaths at a New Orleans hospital ravaged by Hurricane Katrina—and the suspenseful portrayal of the quest for truth and justice—from a Pulitzer Prize-winning physician and reporter “An amazing tale, as inexorable as a Greek tragedy and as gripping as a whodunit.”—Dallas Morning News After Hurricane Katrina struck and power failed, amid rising floodwaters and heat, exhausted staff at Memorial Medical Center designated certain patients last for rescue. Months later, a doctor and two nurses were arrested and accused of injecting some of those patients with life-ending drugs. Five Days at Memorial, the culmination of six years of reporting by Pulitzer Prize winner Sheri Fink, unspools the mystery, bringing us inside a hospital fighting for its life and into the most charged questions in health care: which patients should be prioritized, and can health care professionals ever be excused for hastening death? Transforming our understanding of human nature in crisis, Five Days at Memorial exposes the hidden dilemmas of end-of-life care and reveals how ill-prepared we are for large-scale disasters—and how we can do better. ONE OF THE TEN BEST BOOKS OF THE YEAR: The New York Times Book Review • ONE OF THE BEST BOOKS OF THE YEAR: Chicago Tribune, Seattle Times, Entertainment Weekly, Christian Science Monitor, Kansas City Star WINNER: National Book Critics Circle Award, J. Anthony Lukas Book Prize, PEN/John Kenneth Galbraith Award, Los Angeles Times Book Prize, Ridenhour Book Prize, American

Notorious. Illegal. Avoid if you can. These are words most commonly used to describe what some mistakenly call 'The Deep Web'. Yet, the Deep Web is where your banking information sits. Your shopping profile, your saved searches, and your passwords. What they're really referring to is THE DARK WEB, and I'll take you there--with the proper preparation and knowledge of its history. Learn who created the Dark Web and how long it's been in existence. Discover the people who dedicated their lives to the technology that runs the Dark Web, and why they made such sacrifices. You'll read about those who rose to dizzying heights plumbing riches in the darknet, and who fell because of their vanity and overconfidence. In The Dark Web Dive, you'll unbury the facts about: The secret origin of Tor and the Tor Project The uncensored history of the Dark Web, Arpanet and its dark siblings Who provides funding for the Dark Web? (You'll be surprised.) The stories behind the Silk Road, Hansa, and other infamous Dark Web marketplaces. The truth about the Surface Web and why Google is not to be trusted with your information, and what you can do about it? The technology you need to keep your internet identity safe on a daily basis. The chilling tales of the Dark Web. Are the urban legends coming from the darknets based in truth? Who are the heroes, and who are the villains of hidden service sites? And how to tell one from another? A step-by-step guide to suit up before you embark on your own Dark Web Dive. The answers you've always wanted to the questions you were perhaps too afraid to ask are here, along with a wealth of knowledge to open your eyes as to what's really happening below the surface of the Internet every day. Be one of the ones who know the truth and has the facts to arm themselves against identity theft and data farming. Dare to take The Dark Web Dive today!

The Darkest Corners Atlantic Monthly Press

An exploration of the Dark Web—websites accessible only with special routing software—that examines the history of three anonymizing networks, Freenet, Tor, and I2P. The term “Dark Web” conjures up drug markets, unregulated gun sales, stolen credit cards. But, as Robert Gehl points out in Weaving the Dark Web, for each of these illegitimate uses, there are other, legitimate ones: the New York Times's anonymous whistleblowing system, for example, and the use of encryption by political dissidents. Defining the Dark Web straightforwardly as websites that can be accessed only with special routing software, and noting the frequent use of “legitimate” and its variations by users,

journalists, and law enforcement to describe Dark Web practices (judging them “legit” or “sh!t”), Gehl uses the concept of legitimacy as a window into the Dark Web. He does so by examining the history of three Dark Web systems: Freenet, Tor, and I2P. Gehl presents three distinct meanings of legitimate: legitimate force, or the state's claim to a monopoly on violence; organizational propriety; and authenticity. He explores how Freenet, Tor, and I2P grappled with these different meanings, and then discusses each form of legitimacy in detail by examining Dark Web markets, search engines, and social networking sites. Finally, taking a broader view of the Dark Web, Gehl argues for the value of anonymous political speech in a time of ubiquitous surveillance. If we shut down the Dark Web, he argues, we lose a valuable channel for dissent.

Gods of the Dark Web Harper Collins

It was the 'eBay of drugs', a billion dollar empire. Behind it was the FBI's Most Wanted Man, a mysterious crime czar dubbed 'Dread Pirate Roberts'. SILK ROAD lay at the heart of the 'Dark Web' - a parallel internet of porn, guns, assassins and drugs. Lots of drugs. With the click of a button LSD, heroin, meth, coke, any illegal drug imaginable, would wing its way by regular post from any dealer to any user in the world. How was this online drug cartel even possible? And who was the mastermind all its low roads led to? This is the incredible true story of Silk Road's rise and fall, told with unparalleled insight into the main players - including alleged founder and kingpin Dread Pirate Roberts himself - by lawyer and investigative journalist Eileen Ormsby. A stunning crime story with a truth that explodes off the page.

Dark Horse Deadite Press

"Get it straight right now: these aren't kids playing games of war. They mean business. They are junior-grade killers and public enemies one through five thousand..." In Rusty Santoro's neighborhood, the kids carry knives, chains, bricks. Broken glass. And when they fight, they fight dirty, leaving the streets littered with the bodies of the injured and the dead. Rusty wants out - but you can't just walk away from a New York street gang. And his decision may leave his family to pay a terrible price. First published more than half a century ago and inspired by the author's real-life experience going undercover inside a street gang, *Web of the City* was Harlan Ellison's first novel and marked the long-form debut of one of the most electrifying, unforgettable, and controversial voices of 20th century letters. Appearing here for the first time together with three thematically related short stories Ellison wrote for the pulp magazines of the 1950s, *Web of the City* offers both a snapshot of a lost era and a portrait of violence and grief as timely as today's most brutal headlines.

John Dies at the End One World

"Gripping from start to finish . . . with twists that left me shocked."—Victoria Aveyard, #1 New York Times bestselling author of *Red Queen* For fans of Gillian Flynn and *Pretty Little Liars*, *The Darkest Corners* is a psychological thriller about the lies little girls tell, and the deadly truths those lies become. There are secrets around every corner in Fayette, Pennsylvania. Tessa left when she was nine and has been trying ever since not to think about what happened there that last summer. She and her childhood best friend Callie never talked about what they saw. Not before the trial. And certainly not after. But ever since she left, Tessa has had questions. Things have never quite added up. And now she has to go back to Fayette—to Wyatt Stokes, sitting on death row; to Lori Cawley, Callie's dead cousin; and to the one other person who may be hiding the truth. Only the closer Tessa

gets to what really happened, the closer she gets to a killer—and this time, it won't be so easy to run away. And don't miss Kara's next "eerie and masterly psychological thriller" *Little Monsters*—on sale now (SLJ)!

The Manchurian Candidate Quirk Books

From the award-winning author of *Sandworm* comes the propulsive story of a new breed of investigators who have cracked the Bitcoin blockchain, exposing once-anonymous realms of money, drugs, and violence. "I love the book... It reads like a thriller... These stories are amazing." (Michael Lewis) Over the last decade, a single innovation has massively fueled digital black markets: cryptocurrency. Crime lords inhabiting lawless corners of the internet have operated more freely—whether in drug dealing, money laundering, or human trafficking—than their analog counterparts could have ever dreamed of. By transacting not in dollars or pounds but in currencies with anonymous ledgers, overseen by no government, beholden to no bankers, these black marketeers have sought to rob law enforcement of their chief method of cracking down on illicit finance: following the money. But what if the centerpiece of this dark economy held a secret, fatal flaw? What if their currency wasn't so cryptic after all? An investigator using the right mixture of technical wizardry, financial forensics, and old-fashioned persistence could uncover an entire world of wrongdoing. *Tracers in the Dark* is a story of crime and pursuit unlike any other. With unprecedented access to the major players in federal law enforcement and private industry, veteran cybersecurity reporter Andy Greenberg tells an astonishing saga of criminal empires built and destroyed. He introduces an IRS agent with a defiant streak, a Bitcoin-tracing Danish entrepreneur, and a colorful ensemble of hardboiled agents and prosecutors as they delve deep into the crypto-underworld. The result is a thrilling, globe-spanning story of dirty cops, drug bazaars, trafficking rings, and the biggest takedown of an online narcotics market in the history of the Internet. Utterly of our time, *Tracers in the Dark* is a cat-and-mouse story and a tale of a technological one-upmanship. Filled with canny maneuvering and shocking twists, it answers a provocative question: How would some of the world's most brazen criminals behave if they were sure they could never get caught?

The Dark Web Dive Island Press

Dark... A kingpin willing to murder to protect his dark web drug empire. A corrupt government official determined to avoid exposure. The death of a dark web drugs czar in mysterious circumstances in a Bangkok jail cell, just as the author arrives there. Who is Variety Jones and why have darknet markets ballooned tenfold since authorities shut down the original dark web drugs bazaar, Silk Road? Who are the kingpins willing to sell poisons and weapons, identities and bank accounts, malware and life-ruining services online to anyone with a wallet full of Bitcoin? Darker... A death in Minnesota leads detectives into the world of dark web murder-for-hire where hundreds of thousands of dollars in Bitcoin is paid to arrange killings, beatings and rapes. Meanwhile, the owner of the most successful hitman website in history is threatening the journalists who investigate his business with a visit from his operatives - and the author is at the top of his list. Darkest... People with the most depraved perversions gather to share their obscene materials in an almost inaccessible corner of the dark web. A video circulates and the pursuit of the monsters responsible for 'Daisy's Destruction' lead detectives into the unimaginable horror of the world of hurtcore.

There's the world wide web - the internet we all know that connects us via news, email, forums, shopping and social media. Then there's the dark web - the parallel internet accessed by only a select few. Usually, those it connects wish to remain anonymous and for good reason. Eileen Ormsby has spent the past five years exploring every corner of the Dark Web. She has shopped on darknet markets, contributed to forums, waited in red rooms and been threatened by hitmen on murder-for-hire sites. On occasions, her dark web activities have poured out into the real world and she has attended trials, met with criminals and the law enforcement who tracked them down, interviewed dark web identities and visited them in prison. This book will take you into the murkiest depths of the web's dark underbelly: a place of hitmen for hire, red rooms, hurtcore sites and markets that will sell anything a person is willing to pay for - including another person. *The Darkest Web*

The Darkest Web Delacorte Press

After a five year sabbatical following the tragic death of his wife and fellow agent Alysha, Keona Rause returns to the distant colony world of Magenta to resume service with the Magentan Intelligence Service. With him he brings an artificial recreation of his wife's personality, a simulacrum built from every digital trace she left behind. She has been constructed with one purpose - to discover the truth behind her own death - but Keona's relationship with her has grown into something more, something frighteningly dependent, something that verges on love. Cashing in old favours, Keona uses his return to the Service to take on a series of cases that allow him and the artificial Alysha to piece together his wife's last days. His investigations lead him inexorably along the same paths Alysha followed five years earlier, to a sinister and deadly group with an unhealthy fascination for the unknowable alien Masters; but as the wider world of Magenta is threatened with an imminent crisis, Keona finds himself in a dilemma: do his duty and stand with his team to expose a villainous crime, or sacrifice them all for the truth about his wife?

Between the World and Me Simon and Schuster

True Crime True tales of serial killers who became internet sensations A pair of teens go on a murderous rampage and their exploits are immortalized in the most shocking video ever to circulate the internet, "3 Guys, 1 Hammer" A serial killer with over 100 kills to his name walks free and becomes a Youtube sensation A psychopath lures victims through online dating to use as "research" for his twisted film project Serial killers have been with us for decades. THE ULTIMATE TOR BROWSER & DARKNET GUIDE FOR 2018-2019 Just three questions you need to ask yourself: ✓ Do You Value Privacy? ✓ Do You Value Freedom? ✓ Do You Want to be Anonymous? If you answered yes to any of the above, then this is your book. Instant anonymity, right now, can be yours for the taking. As science fiction author Hugh Howey once stated: When Pursuing a Dream, Don't Wait. People sling words across the internet without regard for their future. They don't know it but they are digging their own graves by attacking Goliath without a shield. Every word you say on forums, Usenet, Facebook, and News outlets is out there forever whether you are Republican, Democrat, Libertarian or Green Party. Doesn't matter. One day you may wake up to discover a state power wants a 'type' of voter out of the equation altogether: You. How do you erase every critical forum comment you ever made? How do you scrub your Facebook page? How do you make anonymous online comments so that your new employer doesn't fire you? Enter Tor. This is the ultimate guide with easy take-you-by-the-hand instructions to teach you not only Tor, but VPNs, Bitcoins, Hacking, Darknet Personas and even how to evade the Sauronic Eye that is the NSA. Yes. This book kills NSA spying dead. ✓ Comment Anonymously on ANY Website ✓ Tor Browser, Freenet, I2P, and ALL Alternatives ✓ Cryptocurrency - How to Buy/Sell Anonymously ✓ Encryption Guide: PGP. Veracrypt. Email. Linux. Windows. Macs. Kali. Android. Phones. ✓ Online Privacy No Matter Where You Are ✓ Hacking Guide for Beginners on the Darknet ✓ Edward Snowden's Biggest Mistake Master the Art of Invisibility TODAY by scrolling up and hitting the BUY now button!

American Kingpin BenGalley.com

What is more dangerous? The lies she tells or the truth she's hiding? Jane Knudsen is an exceptionally private and intimidatingly beautiful workaholic attorney. Unflappable and cool, she's the last person likely to suddenly snap and murder one of her firm's senior partners. Yet she's become the most likely suspect in the crime. She's retained Allison Barton, her former law school roommate, to represent her. It's Allison's job to believe Jane, even if Allison never really knew her. No one did. Jane always made sure of that. For Allison, getting close to her client now grows more complicated with each new development in the case. There may be other suspects in the victim's orbit--his harried assistant, his wrathful wife, his overly attached daughter--but everything points to Jane's guilt. She had opportunity, access, the weapon, and a motive--and she's hiding something else. And Jane would rather go to prison for life than reveal the secrets that could save her. But what secrets are worse than murder? And what will Allison risk to discover them?

A Little Life Virtualbookworm.com Publishing

"[A] landmark book . . . Solnit illustrates how the uprisings that begin on the streets can upend the status quo and topple authoritarian regimes" (Vice). A book as powerful and influential as Rebecca Solnit's *Men Explain Things to Me*, her *Hope in the Dark* was written to counter the despair of activists at a moment when they were focused on their losses and had turned their back to the victories behind them—and the unimaginable changes soon to come. In it, she makes a radical case for hope as a commitment to act in a world whose future remains uncertain and unknowable. Drawing on her decades of activism and a wide reading of environmental, cultural, and political history, Solnit argues that radicals have a long, neglected history of transformative victories, that

the positive consequences of our acts are not always immediately seen, directly knowable, or even measurable, and that pessimism and despair rest on an unwarranted confidence about what is going to happen next. Now, with a moving new introduction explaining how the book came about and a new afterword that helps teach us how to hope and act in our unnerving world, she brings a new illumination to the darkness of our times in an unforgettable new edition of this classic book. "One of the best books of the 21st century." —The Guardian "No writer has better understood the mix of fear and possibility, peril and exuberance that's marked this new millennium." —Bill McKibben, New York Times–bestselling author of *Falter* "An elegant reminder that activist victories are easily forgotten, and that they often come in extremely unexpected, roundabout ways." —The New Yorker

Web of the City Vintage

"Thrilling . . . one of the best Stephen King novels not written by the master himself. . . . The setup promises furious action, and Percy delivers, like [Richard] Matheson, like King. . . . An awfully impressive literary performance."—New York Times Book Review "Masterful crafting . . . a horror story for our times."—Minneapolis Star Tribune

The Dark Net is real. An anonymous and often criminal arena that exists in the secret far reaches of the Web, some use it to manage Bitcoins, pirate movies and music, or traffic in drugs and stolen goods. And now, an ancient darkness is gathering there as well. This force is threatening to spread virally into the real world unless it can be stopped by members of a ragtag crew, including a twelve-year-old who has been fitted with a high-tech visual prosthetic to combat her blindness; a technophobic journalist; a one-time child evangelist with an arsenal in his basement; and a hacker who believes himself a soldier of the Internet. Set in present-day Portland, *The Dark Net* is a cracked-mirror version of the digital nightmare we already live in, a timely and wildly imaginative techno-thriller about the evil that lurks in real and virtual spaces, and the power of a united few to fight back. "This is horror literature's bebop, bold, smart, confident in its capacity to redefine its genre from the ground up. Read this book, but take a firm grip on your hat before you start."—Peter Straub

From Darkest Skies Macmillan

"Intrepid conservation detective story." --Nature "A lucid, informed, and gripping account...a must-read." --Science "Passionate...a heartfelt and alarming tale." --Publishers Weekly "Gripping...a well-told and moving tale of environmentalism and conservation." --Kirkus "Compelling." --Library Journal

In 2006, vaquita, a diminutive porpoise making its home in the Upper Gulf of California, inherited the dubious title of world's most endangered marine mammal. Vaquitas have been in decline for decades, dying in illegal gillnets intended for a giant fish, totoaba. Author Brooke Bessesen takes us to the Upper Gulf region in search of answers to a heart-wrenching dilemma. When diplomatic efforts to save the porpoise failed, Bessesen followed a scientific team in a binational effort to capture remaining vaquitas and breed them in captivity--the only hope for their survival. In this fast-paced, soul-searing tale, she learned that there are no easy answers when extinction is profitable.

The Joy of Search Allen & Unwin

NEW YORK TIMES BESTSELLER. The unbelievable true story of the man who built a billion-dollar online drug empire from his bedroom—and almost got away with it. In 2011, a twenty-six-year-old libertarian programmer named Ross Ulbricht launched the ultimate free market: the Silk Road, a clandestine Web site hosted on the Dark Web where anyone could trade anything—drugs, hacking software, forged passports, counterfeit cash, poisons—free of the government's watchful eye. It wasn't long before the media got wind of the new Web site where anyone—not just teenagers and weed dealers but terrorists and black hat hackers—could buy and sell contraband detection-free. Spurred by a public outcry, the federal government launched an epic two-year manhunt for the site's elusive proprietor, with no leads, no witnesses, and no clear jurisdiction. All the investigators knew was that whoever was running the site called himself the Dread Pirate Roberts. The Silk Road quickly ballooned into \$1.2 billion enterprise, and Ross embraced his new role as kingpin. He enlisted a loyal crew of allies in high and low places, all as addicted to the danger and thrill of running an illegal marketplace as their customers were to the heroin they sold. Through his network he got wind of the target on his back and took drastic steps to protect himself—including ordering a hit on a former employee. As Ross made plans to disappear forever, the Feds raced against the clock to catch a man they weren't sure even existed, searching for a needle in the haystack of the global Internet. Drawing on exclusive access to key players and two billion digital words and images Ross left behind, Vanity Fair correspondent and New York Times bestselling author Nick Bilton offers a tale filled with twists and turns, lucky breaks and unbelievable close calls. It's a story of the boy next door's ambition gone criminal, spurred on by the clash between the new world of libertarian-leaning, anonymous, decentralized Web advocates and the old world of government control, order, and the rule of law. Filled with unforgettable characters and capped by an astonishing climax, *American Kingpin* might be dismissed as too outrageous for fiction. But it's all too real.

The Mastermind Thomas & Mercer

The lives of more than twenty-five actresses lost before their time—from Marilyn Monroe to Brittany Murphy—explored in a haunting, provocative new work by an acclaimed poet and actress. Amber Tamblyn is both an award-winning film and television actress and an acclaimed poet. As such she is deeply fascinated—and intimately familiar—with the toll exacted from young women whose lives are offered in sacrifice as starlets. The stories of these actresses, both famous and obscure—tragic stories of suicide, murder, obscurity, and other forms of death—inspired this empathic and emotionally charged collection of new poetic work. Featuring subjects from Marilyn Monroe and Frances Farmer to Dana Plato and Brittany Murphy—and paired with original artwork commissioned for the book by luminaries including David Lynch, Adrian Tomine, Marilyn Manson, and Marcel Dzama—*Dark Sparkler* is a surprising and provocative collection from a young artist of wide-ranging talent, culminating in an extended, confessional epilogue of astonishing candor and poetic command.
