Doctors at War tells the stories of physicians in France working to impede the German war effort and undermine French collaborators during the Occupation from 1940 to 1945. Determined to defeat the Third Reich's incursion, one group of prominent Paris doctors founded a medical network to treat injured Resistance fighters who they then secretly transported to Allied countries to avoid forced labor in Germany. Another team of medics organized a cabal focused on intelligence gathering and sabotage that became one of the largest in wartime France, even after the Gestapo arrested and imprisoned its leaders. Deported to concentration camps, these physicians continued to frustrate Nazi efforts by rendering aid and keeping their fellow prisoners alive. Others joined rural guerrilla camps to care for the young conscripts fighting to block German reinforcements from

reaching Normandy after the D-Day landing. These stories, assembled here for the first time, add a crucial dimension to the history of Occupied France. Written for both historians and general readers of World War II history, *Doctors at War* stands as a dramatic, character-driven account of physicians' courage and resilience in the face of evil. It serves as a window into life under a fascist regime and the travails of doctors who negotiated the terrifying moral labyrinth that was the German military's occupation of France.

This is the engrossing story of Mauritius, the exotic Indian Ocean island port of call at the heart of the fabled "Spice Route". Although first discovered and visited by the Arabs and the Portuguese, and subsequently colonised by the Dutch, the French and the English, it is the French influence that is most keenly felt in Mauritius today, thanks to France's nearly century-long rule over Mauritius from 1715 to 1810. Combining rich historical

detail, rare archival documents, antique lithographs paintings, and portraits, and fascinating stories of well-known figures of the period - like the founder of the colony Governor Mahé de La Bourdonnais, the explorer and botanist Pierre Poivre, and the celebrated explorer Jean- François de Lapérouse - Mauritius on the Spice Route is an invitation to step back in time and discover the fascinating history of this exotic paradise.

Patrice Gueniffey, the leading French historian of the Revolutionary and Napoleonic age, takes up the epic narrative at the heart of this turbulent period: the life of Napoleon himself, from his boyhood in Corsica, to his meteoric rise during the Italian and Egyptian campaigns, to his proclamation as Consul for Life in 1802.

Vivez les plaisirs forts qu'éprouve le chasseur lorsque ses sens et son expérience lui apportent la satisfaction d'être en harmonie avec la nature, source d'épanouissement. Grands et petits gibiers de plaine, gibiers d'eau, oiseaux de passage, gibiers de montagne, voire prédateurs et déprédateurs, une réponse à une préoccupation importante : la situation, par espèce, des populations de gibier en France. En outre, la passion de la chasse requiert de mieux comprendre les caractéristiques de chaque gibier : savoir l'identifier, connaître ses moeurs, ses modes de vie, sa reproduction, ses biotopes et ses habitats. La variété des paysages et des milieux a eu pour conséquence celle des gibiers, tandis que l'imagination des hommes et leur savoir-faire ont fait naître une prodigieuse diversité de modes de chasse. Toutes ces particularités font la richesse cynégétique de notre pays. En

savoir plus pique la curiosité de celui qui appartient vraiment à la communauté des chasseurs. Aussi utile aux chasseurs confirmés qu'aux débutants, une présentation de tous les modes de chasse à lire comme un guide pratique des comportements envers le gibier sur son territoire. Un choix de coeur, à confirmer en connaissant tout sur son caractère, son comportement, ses performances, ses qualités ou ses défauts, propres à chaque race. L'essentiel est de trouver le chien qui vous convient dans une complémentarité et une complicité dont l'animal vous remerciera par son attachement et son regard. Le fusil et la carabine sont avant tout des outils qui doivent permettre au chasseur de tirer son gibier dans les meilleures conditions. Leur choix, leur utilisation et leur entretien répondent à des critères qu'il importe au chasseur de très bien connaître. Un des mystères de la chasse : certains jours, on met dans la cible à tous les coups ; d'autres, on rate les gibiers réputés immanquables, d'où la nécessité d'avoir une bonne maîtrise du tir de chasse.

The provisions of the French Civil Code governing the law of obligations have remained largely unchanged since 1804 and have served as the model for civil codes across the world. In 2016, the French Government effected major reforms of the provisions on the law of contract, the general regime of obligations and proof of obligations. This work explores in detail the most interesting new provisions on French contract law in a series of essays by French lawyers and comparative lawyers working on French law and other civil law systems. It will make these fundamental reforms accessible to an English-speaking audience.

Now in paperback, an award-winning look at French salons and the women who presided over them In the seventeenth and eighteenth centuries, between the reign of Louis XIII and the Revolution, French aristocratic society developed an art of living based on a refined code of good manners. Conversation, which began as a way of passing time, eventually became the central ritual of social life. In the salons, freed from the rigidity of court life, it was women who dictated the rules and presided over exchanges among socialites, writers, theologians, and statesmen. They contributed decisively to the development of the modern French language, new literary forms, and debates over philosophical and scientific ideas. With a cast of characters both famous and unknown, ranging from the Marquise de Rambouillet to Madame de Sta'Il, and including figures like Ninon de Lenclos, the Marquise de Sevigne, and Madame de Lafayette, as well as Pascal, La Rochefoucauld, Diderot, and Voltaire, Benedetta

Craver traces the history of this worldly society that carried the art of sociability to its supreme perfection—and ultimately helped bring on the Revolution that swept it all away.

This riveting biography brilliantly explores the short, intense, and passionate life of the country girl from Normandy, who at thirteen fled her brute of a father to go to Paris. Almost overnight she became one of the most admired courtesans of the 1840s—the inspiration for Alexandre Dumas fils' *The Lady of the Camellias* and Verdi's *La Traviata*. With her aristocratic ways, elegant clothes and signature camellias, Marie was always a subject of fascination at the opera and the boulevard cafés. Her death at twenty-three from tuberculosis created such an outpouring of sympathy in the press that Charles Dickens, who was in Paris at the time, was amazed. "Everything is erased in the face of an incident which is far more important," he wrote, "the romantic death of one of the glories of the demi-monde, the beautiful, the famous Marie Duplessis."

The accelerating interpenetration of nature and culture is the hallmark of the new "light-green" social order that has emerged

in postwar France, argues Michael Bess in this penetrating new history. On one hand, a preoccupation with natural qualities and equilibrium has increasingly infused France's economic and cultural life. On the other, human activities have laid an ever more potent and pervasive touch on the environment, whether through the intrusion of agriculture, industry, and urban growth, or through the much subtler and more well-intentioned efforts of ecological management. The Light-Green Society limns sharply these trends over the last fifty years. The rise of environmentalism in the 1960s stemmed from a fervent desire to "save" wild nature—nature conceived as a qualitatively distinct domain, wholly separate from human designs and endeavors. And yet, Bess shows, after forty years of environmentalist agitation, much of it remarkably successful in achieving its aims, the old conception of nature as a "separate sphere" has become largely untenable. In the light-green society, where ecology and technological modernity continually flow together, a new hybrid vision of intermingled nature-culture has increasingly taken its place.

The poetic is an abiding yet elusive qualification within the discursive system of twentieth-century French literature. No longer amenable to formal assignment, its recurrences delimit a shifting, multi-layered practice of artistic and intellectual (self-) invention. This study attempts to outline certain durable

properties of that practice by confronting it with the complex theoretical and spatial metaphor of utopia. Drawing, in particular, upon the oeuvres of Victor Segalen (1878-1919), Rene Daumal (1908-44) and Yves Bonnefoy (b. 1923), it traces poetic work - work done in support of poetic difference - along the social, physical and textual axes of what is argued to be a sustained and radically inclusive utopian practice within the literary field. The complex utopian quality of poetic work is linked to the cultural persistence of the poetic as a simple attribute within literary practice. In uncovering this link, the study encourages revised understandings of both the poetic and the utopian in the modern French literary context
