Well known as a political commentator and the author of sixteen novels, William F. Buckley Jr. was also a superb chronicler of travel. Getting About gathers more than one hundred of his articles about journeys by boat, train, or plane, representing a lifetime of adventure around the world—from Annapolis to Zurich, from the Azores to the Virgin Islands. An elegant jet-setter with a flair for literary journalism, Buckley had few rivals in the art of travel writing. He took first place in the Magazine Article on Foreign Travel category in the Lowell Thomas Travel Journalism Competition for eight pieces written while "Concording around the world" in 1989. A master storyteller, he adeptly wove devices of fiction together with reportage to craft entertaining pieces full of exuberance and

authority. Being a Bach aficionado, he composed his sentences for a well-tuned ear. Buckley's talent for arranging a mise-en-scène stands out in accounts of riding the Orient Express, skiing at Alta, or vacationing at Barbuda. Though himself a central character in the story, he never dominates it. He wrote candidly about travel misadventures, as when his sixty-foot schooner broke down in the Bahamas and was towed to Miami by a Coast Guard cutter, or when a malfunctioning compass landed his boat on a rocky shoal off Rhode Island and the Coast Guard said, "Sorry, we can't help you." He also took a gimlet eye to the travel industry and a discriminating palate to airline food, suggesting that airports sell "a really good box lunch" with celery rémoulade, fresh figs, and a nice Bordeaux. Getting About is pure enjoyment, but it also broadens the significance of Buckley's oeuvre. Along with Bill Meehan's illuminating introduction, this delightful collection helps preserve Buckley's legacy as his centenary, in 2025, approaches.

Pets face danger on the Titanic in the first thrilling installment of the Survival Tails, perfect for readers of the I Survived and Ranger in Time series! When loyal dog Mutt discovers that his owner and best friend Alice is set to board the RMS Titanic without him, he is determined to follow her across the ocean. With the help of King Leon the rat, Mutt sneaks aboard, but it isn't long before the Captain's cat, Clara, discovers the stowaway. Reluctantly, Clara agrees to help Mutt find Alice, on the condition that he help her look after a trio of abandoned kittens she found in a lifeboat. But when the unthinkable happens and the so-called unsinkable ship hits an iceberg, Mutt and his new friends have to race against the clock to reunite with their humans--and to survive. Survival Tails: The Titanic is the first in a series of heart-stopping, action-packed, animal-starring adventure stories that will captivate and educate young readers.

English teachers are always keen to explore new ways of motivating their pupils to engage with reading, both for learning and for pleasure. Literacy Activities for Classic and Contemporary Texts 7-14 is a practical, friendly book which uses the 'whoosh' to cover some of our best known classic and contemporary texts and offers a thoroughly enjoyable way for pupils to become part of the story, rather than just passive recipients of it. As an innovative and active learning strategy, the whoosh technique allows all students, regardless of gender, age, ability, learning need or command of language, to partake on an equal footing. For younger pupils, the activities in this book provide an ideal way to internalise structure and key elements in story telling through physical response. For older students, they provide an enjoyable way to engage with challenging texts as well as facilitating the analysis of themes, issues, characterisation and setting. Students themselves become the story as its characters, sounds and even objects - once they are familiar with whooshing, many students will want to write and produce a whoosh of their own. Classic authors and texts covered by this book include:- Aesop's fables, Greek myths and legends; Beowulf, Sir Gawain and the Green Knight, Oscar Wilde; Shakespeare (The Tempest, Twelfth Night, Hamlet, A Midsummer Night's Dream); Charlotte Bronte, Charles Dickens, George Eliot, Robert Louis Stevenson, Mary Shelley; Andrew Norriss, Frank Cottrell Boyce, Nina Bawden, Michelle Magorian and much more... You can use a whoosh to introduce a new text, to examine conflict, dilemma, plot, setting or characterisation, whoosh a controversial section of text to provoke discussion, or overcome reluctance to engage with archaic language by whooshing key sections of a story. Discussion starters, lesson objectives and follow-up activities are included throughout the text alongside the whooshes, and scripts enabling pupils to deliver dialogue are provided on the book's

eResource. This book is an invaluable resource, providing whooshes across a wide range of genres to meet the learning needs of children from 7 to 14, for both practising primary and lower secondary teachers.

Ready to Go Guided Reading: Summarize, Grades 3 - 4 Green Dragon Books

The word “titanic” reminds one of the majestic ship Titanic and James Cameron’s epic romance movie Titanic—in many cases the film first and the ship next. The Titanic was the world’s largest passenger ship when it entered service, measuring 269 m (882 feet) in length, and the largest man-made moving object on earth. The colossal ship and the epic movie inspired the authors, Susai

Rajendran (professor of chemistry) and Gurmeet Singh (a renowned academic administrator and an internationally reputed expert in the field of corrosion science and smart materials) to study why the Titanic collapsed. The main reason seems to be bimetallic corrosion, also known as galvanic corrosion. This book discusses various aspects of galvanic corrosion, namely causes, consequences, methods of control, and case studies. It also reports research on the causes of corrosion of the sunken ship, including microbiologically influenced corrosion (MIC) and metallurgical failure. The book is a great reference for research scholars in the field of corrosion, graduate- and postgraduate-level students, the general public, and marine engineers.
