MDS Coordinator's Handbook Elsevier Health Sciences
Develop the necessary skills to serve as a leader in systems improvement This unique, practical text will help DNP students develop the leadership skills needed to effectively implement and sustain meaningful change in the healthcare system. Presenting improvement methods within the framework of leadership, the book helps students to understand the practical applications of their education. Beyond orienting students to the work of the DNP, the text helps them to understand the scope of practice and how it is related to larger issues and challenges within healthcare. A significant portion of the text is devoted to leadership, particularly from a systems perspective. Using cases and examples, it addresses different ways DNPs can lead in healthcare and elaborates on the types of improvement processes that are initiated by DNPs: translation of EBP and research into practice, process improvement, and program evaluation. The book discusses how improvement is measured and offers several chapters on the DNP project, including its financial implications. PowerPoint slides accompany the text along with an Instructor's Guide, which provides tips on how instructors can help students assimilate the large body of knowledge required in the DNP program. Key Features: Frames content within the context of leadership Prepares DNPs to serve as leaders of innovation in healthcare Offers an innovative approach to understanding the DNP leader and the DNP project Delivers up-to-date information about improvement work in healthcare systems specific to the needs of DNP students and graduates Includes practical cases and examples Distills resources that

A time-efficient and cost-effective method of documentation of nursing care through a system of charting by exception (the documentation of abnormal or significant findings using a standard normal base) is described in this book. The method eliminates time-consuming documentation of normal findings and repetitious information, allowing the nurse to spend less time at the desk and more time caring for patients.

Nursing Policies and Procedures for Long Term Care

Lippincott Williams & Wilkins
With its highly visual format, topical information, and easy-to-follow guidance, Mosby's Textbook for Long-Term Care Nursing Assistants, 8th Edition is the perfect resource to help you master the ins and outs of long-term care. One hundred step-by-step procedures — all written at the sixth-grade reading level — provide clear instructions for completing skills. Helpful spotlight boxes and realistic patient scenarios reinforce the nursing assistant's roles and responsibilities that are needed in today's long-term care settings. New features in this edition include an all-new chapter on culture and religion; a new chapter on career management and getting hired; new procedures; and updated content on topical issues like confusion and dementia, hypertension, American Heart Association CPR, cancer, and more. As with previous editions, the focus on OBRA content and patient

quality of life will underscore competent and respectful care. 6th grade reading level and concise coverage helps readers of all levels and abilities (particularly ESL individuals) easily understand and master important long-term care concepts and procedures. 100 step-by-step procedures are divided into pre-procedure, procedure, and post-procedure sections for easier learning. Residents with Dementia boxes cover the special needs of older persons with Alzheimer's disease and other dementias. Promoting Safety and Comfort boxes emphasize the need to provide safe care while making a patient more comfortable. Delegation Guidelines boxes describe what information the nursing assistant needs from the nurse and the care plan to perform safe care; as well as what information to report and record. Quality-of-Life boxes reinforce the importance of patients' rights and enhancing their quality of life when giving care. Teamwork and Time Management boxes illustrate ways to work efficiently within the health care team. Time to Reflect scenarios present realistic patient situations faced by nursing assistants to build critical thinking skills. Focus on Rehabilitation boxes clarify considerations and insights about rehabilitation and restorative care. Focus on Communication boxes provide guidelines for how to clearly communicate with patients and avoid comments that might make them uncomfortable. NATCEP certification exam icons identify the skills tested on the National Nurse Aide Assessment Program and state certification exams. Review questions at the end of each chapter help evaluate learning. Key abbreviations at the beginning of each chapter highlight commonly used abbreviations.

The purpose of restorative care nursing is to take an active role in helping older adults maintain their highest level of function, thus preventing excess disability. This book was written to help formal and informal caregivers and administrators at all levels to understand the basic philosophy of restorative care, and be able to develop and implement successful restorative care programs. The book provides a complete 6-week education program in restorative care for caregivers, many suggestions for suitable activities, and practical strategies for motivating both older adults and caregivers to engage in restorative care. In addition, the book provides an overview of the requirements for restorative care across all settings, the necessary documentation, and ways in which to complete that documentation.

The seventy-five nursing policies and procedures in this manual are based on current standards of nursing practice and federal

regulations and guidelines from the Centers for Medicare and Medicaid Services, the Center for Disease Control, and the Occupational Health and Safety Administration. The Director of Nursing can review and update the manual annually. Some facilities have a policy and procedure committee that meets to review and consider changes to policies. The form at the top of each policy and procedure has spaces for the date the policy and procedure was approved by the DON and the date of any addendums or changes. Updates can be made when applicable due to changes in regulations or nursing standards of practice. Other appropriate additions to the manual would be manufacturer guidelines and instructions for new equipment and devices. Some facilities include with the policy and procedure manual master copies of forms, and this can help to ensure uniform documentation throughout the facility. Each of the policies and procedures in this book are also included on the CD so they may be easily edited on a word processor for desired updates and changes.
