This volume, composed mainly of papers
given at the 1999 conferences of the
Forum for German Language Studies
(FGLS) at Kent and the Conference of
University Teachers of German (CUTG) at
Keele, is devoted to differential yet
synergetic treatments of the German
language. It includes corpus-
lexicographical, computational, rigorously
phonological, historical/dialectal,
comparative, semiotic, acquisitional and
pedagogical contributions. In all, a variety
of approaches from the rigorously 'pure'
and formal to the applied, often feeding off
each other to focus on various aspects of
the German language.
