This book explores a century of business development of The South African Life Assurance Company, from a specific local focus to a national conglomerate expanding into global insurance markets. Established as a strategic vehicle to address Afrikaner economic marginalization and abject poverty at the beginning of the twentieth century, Sanlam has displayed both path

dependence and a dynamic adaptability to complex changing contexts to become a global player. The strategic convergence of economic empowerment through the mobilization of savings into insurance products, as well as Afrikaner nationalism, assisted this growth. Sanlam has played an atypical role in the economic empowerment of an ethnic entity through extensive investments into the industrializing South African economy. This strategic diversion created operational limitations that were only resolved early in the twenty-first century. As globalization, financial deregulation, and weakened Afrikaner political and social hegemony manifested, strategic change management relied on the path dependence of empowerment strategies to address new markets with similar needs to those of the early stakeholder market of 1918. The former mutual life office demutualized operations to become a diversified financial services group of companies operating across almost the entire African continent, as well

as in India, Malaysia, and the UK. This volume presents a business history of strategic management of an insurance enterprise, and its transformation from a defined cultural context into an international empowerment strategy through innovation on all levels of business operation and organization. This book is an Open Access publication, available online under a CC BY-NC-ND 4.0 license.

Should we pay children to read books or to get good grades? Should we allow corporations to pay for the right to pollute the atmosphere? Is it ethical to pay people to test risky new drugs or to donate their organs? What about hiring mercenaries to fight our wars? Auctioning admission to elite universities? Selling citizenship to immigrants willing to pay? In *What Money Can't Buy*, Michael J. Sandel takes on one of the biggest ethical questions of our time: Is there something wrong with a world in which everything is for sale? If so, how can we prevent market values from reaching into spheres of life where they don't

belong? What are the moral limits of markets? In recent decades, market values have crowded out nonmarket norms in almost every aspect of life—medicine, education, government, law, art, sports, even family life and personal relations. Without quite realizing it, Sandel argues, we have drifted from having a market economy to being a market society. Is this where we want to be? In his *New York Times* bestseller *Justice*, Sandel showed himself to be a master at illuminating, with clarity and verve, the hard moral questions we confront in our everyday lives. Now, in *What Money Can't Buy*, he provokes an essential discussion that we, in our market-driven age, need to have: What is the proper role of markets in a democratic society—and how can we protect the moral and civic goods that markets don't honor and that money can't buy?

A blistering exposé of the National Rifle Association, revealing its people, power, corruption, and ongoing downfall, from acclaimed NPR investigative reporter Tim Mak “Tenacious, careful and incisive.”—Jonathan Swan • “Deeply and

meticulously reported, colorfully and precisely written.”—Olivia Nuzzi • “Nonstop revelations are told with gripping detail and intimate insider knowledge.”—David Frum • “Fantastic.”—Chris Hayes The NRA once compelled respect—even fear—from Republicans and Democrats alike. Once a grassroots club dedicated to gun safety, the NRA ballooned into a powerful lobbyist organization that maintained an iron hold on gun legislation in America. This influential nonprofit raised millions in small fees from members across the country, which funded hidden, lavish lifestyles of designer suits, private jets and yachts, martini lunches and Champagne dinners—while the group manipulated legislators and flirted with a Russian spy. Yet in 2012, the NRA’s grip on Washington began to loosen in the wake of the massacre at Sandy Hook Elementary. Facing nationwide outrage, NRA CEO Wayne LaPierre gave a speech claiming the solution was not fewer guns, but more guns, in schools. The group’s rhetoric only escalated from there, a misstep that sparked a backlash and invited the

scrutiny of the government. Unveiled here for the first time ever are surprising, revelatory details spotlighting decades of poor leadership and mismanagement by LaPierre; the NRA’s long association with marketing firm Ackerman-McQueen; NRA executives’ 2015 trip to Moscow, a by-invitation affair packed with meetings with Russian government officials, diplomats, and oligarchs seeking influence in American politics; as well as the power struggle between LaPierre and former NRA president Oliver North that fractured the organization. Misfire is the result of a four-year investigation by journalist Tim Mak, who scoured thousands of pages of never-before-publicized documents and cultivated dozens of confidential sources inside the NRA’s orbit to paint a vivid picture of the gun group’s rampant corruption and slow decline, marking a sea change in the battle over gun rights and control in America. **Mayo Clinic 5 Steps to Controlling High Blood Pressure** Farrar, Straus and Giroux ‘An interesting and important account.’ Daily

Telegraph Have you ever stopped and wondered where your jeans came from? Who made them and where? Ever wondered where they end up after you donate them for recycling? Following a pair of jeans, Clothing Poverty takes the reader on a vivid around-the-world tour to reveal how clothes are manufactured and retailed, bringing to light how fast fashion and clothing recycling are interconnected. Andrew Brooks shows how recycled clothes are traded across continents, uncovers how retailers and international charities are embroiled in commodity chains which perpetuate poverty, and exposes the hidden trade networks which transect the globe. Stitching together rich narratives, from Mozambican markets, Nigerian smugglers and Chinese factories to London’s vintage clothing scene, TOMS shoes and Vivienne Westwood’s ethical fashion lines, Brooks uncovers the many hidden sides of fashion. There has been a

dramatic shift worldwide from welfare municipalism - where the state both subsidized and provided essential municipal services - to a neoliberal vision of balanced budgets, fiscal restraint and privatization. Cost recovery is at the heart of this new municipal vision with far reaching implications for access to services, affordability and privatization. This book brings together a theoretical and empirical review of the impact of cost recovery on basic municipal services such as water, refuse collection and electricity, with particular reference to South Africa. It describes the theory and practice of cost recovery and presents six case studies drawing on participatory and ethnographic research. The final chapter examines alternative future possibilities, reformist or equity-oriented.
