Annotation :2004 Book News, Inc., Portland, OR (booknews.com).	A wave of babynappings has terrified parents from San Diego to Portland. And when the Pied Piper--named for the penny flute he leaves in the cribs of his victims--claims his first Seattle infant, the investigation draws in homicide detective Lou Boldt. Assigned temporarily to Intelligence so he can spend more time with his kids while his wife is hospitalized for chemotherapy, Boldt's role is to keep the FBI out of the Seattle Police Department's way. But FBI special agent Gary Flemming is a tough adversary--so tough it almost seems as if he's intentionally sabotaging the SPD's investigation. Then the Pied Piper snatches Boldt's own daughter, promising that unless Boldt throws both the Feds and the SPD off his trail he'll never see his child again. Caught between his professional obligations and his fear for Sarah's life, Boldt launches his own private manhunt with the help of John La Moia, his replacement in homicide, and police psychologist Daphne Matthews, his closest friend in the department. They form a sub rosa task force under the noses of the Feds and the SPD, and soon discover how the Piper has managed to stay a step ahead of the police, elude capture, and find his small victims. The chase moves from Seattle to Portland to New Orleans, culminating in a thrilling denouement in the daffodil fields of Washington's Skagit Valley. Combining strong characterizations with an impressive command of both policing and pacing, Ridley Pearson, author of Chain of Evidence and Beyond Recognition, delivers another sure winner in this outing for Lou Boldt. --Jane Adams

<i>Security Governance in East Africa</i> Harper Collins		Beccy Cole's inspirational memoir from the heart of Australian country music. Beccy Cole has country music in her blood. Daughter of a country music star, Carole Sturtzel, she is one of the most popular country singer-songwriters in Australia today. This is the story of her life - in her own words. At fourteen, Beccy was performing in her mother's group, Wild Oats. By her late teens, Beccy had teamed up with the Dead Ringer Band - Kasey Chambers' family band - and had attracted the attention of the country music world by winning the Star Maker quest: the same award that started the careers of Keith Urban, Lee Kernaghan, James Blundell and Gina Jeffreys. It was just the first of many awards and accolades for this multitalented woman with a big heart. With refreshing candour, Beccy shares her story: leaving everything she knew to pursue her dream, making a name for herself with her own band; her marriage and motherhood; her subsequent divorce, becoming a single mother and maintaining the nurturing love of family. Performing for the Australian troops in Afghanistan. Coming out, and what it has meant for her and her fans. Taking control of her own life - and finding love. Heartfelt and honest, Poster Girl is the inspirational memoir of a strong woman who epitomises the authentic spirit of country music, and of Australia. The Department of Defense is developing the means to transform the nation's armed forces to meet future military challenges. For the Navy and Marine Corps, this vision is encompassed in Naval Power 21. Many new war-fighting concepts will be needed to implement this vision, and the ONR has requested the NRC to identify new science and technology opportunities for new naval aviation capabilities to support those concepts. This report presents an assessment of what they imply for naval aviation, an analysis of some capabilities that, if developed, would make a significant contribution to realizing those concepts, and an identification of key technologies in which ONR could invest to achieve those capabilities. In particular, the report focuses on seven key capabilities: multispectral defense, unmanned air operations, hypersonic weapons delivery, fast-kill weapons, heavy-lift air transport, intelligent combat information management, and omniscient intelligence.		<i>Computer Security Basics</i> Wentworth Press	<b>Science For Ninth Class Part 2 Chemistry</b> Ascent, Center for Technical Knowledge

“There has never been a book provoking more delirium, foolishness and irrational movements, without any relationship to Jesus Christ [than the Book of Revelation].” —Jacques Ellul, Introduction Known for his trenchant critique of modernity and of those Christians who celebrate their captivity to it, Ellul here cuts to the heart of the theological intention of the Book of Revelation, and thereby reveals the liberating gospel in all its offensiveness. Neither an exhaustive commentary nor a work of historical-exegetical analysis, Apocalypse is a provocative, independent interpretation. Ellul seeks to rescue Revelation from the reassuring and orthodox banality to which commentators often reduce it. The goal is to perceive the totality of the book in its movement and structure. “Architecture in movement” is the key to understanding Revelation’s puzzling but simple message. This edition also comes with a new foreword by Jacob Marques Rollison who provides an essential aid for guiding readers through Ellul’s thorough engagement with Revelation.		<i>Finite Element Procedures</i> Springer Science & Business Media
