Models of Public Budgeting and Accounting Reform Volume 2 Supplement 1 CRC Press With 1901/1910-1956/1960 Repertoium is bound: Brinkman's Titel-catalohus van de gedurende 1901/1910-1956/1960 (Title varies slightly). Management and Cost Accounting Springer Voorts een alphabetische lijst van Nederlandsche boeken in België uitgegeven.	
De Kampioen MIT Press Models that explore vulnerability under various planned and unplanned conditions hardly exist. This title focuses on the vulnerability of societies in low lying coastal and deltaic environments to tropical cyclonic storms and floods.	
Modelling Coastal Vulnerability diplom.de De Kampioen is the magazine of The Royal Dutch Touring Club ANWB in The Netherlands. It's published 10 times a year with a circulation of approximately 3,5 million copies. <i>Microeconomics</i> Springer An analysis of why people with knowledge about climate change often fail to translate that knowledge into action. Global warming is the most significant environmental issue of our time, yet public response in Western nations has been meager. Why have so few taken any action? In Living in Denial, sociologist Kari Norgaard searches for answers to this question, drawing on interviews and ethnographic data from her study of "Bygdaby," the fictional name of an actual rural community in western Norway, during the unusually warm winter of 2000-2001. In 2000-2001 the first snowfall came to Bygdaby two months later than usual; ice fishing was impossible; and the ski industry had to invest substantially in artificial snow-making. Stories in local and national newspapers linked the warm winter explicitly to global warming. Yet residents did not write letters to the editor, pressure politicians, or cut down on use of fossil fuels. Norgaard attributes this lack of response to the phenomenon of socially organized denial, by which information about climate science is known in the abstract but disconnected from political, social, and private life, and sees this as emblematic of how citizens of industrialized countries are responding to global warming. Norgaard finds that for the highly educated and politically savvy residents of Bygdaby, global warming was both common knowledge and unimaginable. Norgaard traces this denial through multiple levels, from emotions to cultural norms to political economy. Her report from Bygdaby, supplemented by comparisons throughout the book to the United States, tells a larger story behind our paralysis in the face of today's alarming predictions from climate scientists. <i>Repertorium van werken, in Vlaanderen uitgegeven, of door monopoliehouders ingevoerd</i> Springer Nature De Kampioen is the magazine of The Royal Dutch Touring Club ANWB in The Netherlands. It's published 10 times a year with a circulation of approximately 3,5 million copies. It's published 10 times a year with a circulation of approximately 3,5 million copies. <i>De Kampioen</i> IOS Press This book provides a comparative look at financial management systems from a family of systems point of view. <i>De Kampioen</i> Springer Science & Business Media	

Inhaltsangabe:Gang der Untersuchung: Diese Arbeit behandelt im Rahmen der Einleitung die Heranführung an das Thema und stellt Aufbau und Argumentationsfolge der Arbeit vor. Kapitel 2 klärt alle relevanten Begriffe der Thematik und stellt verschiedene Konzepte des Wissensmanagements vor. Des weiteren beinhaltet dieses Kapitel eine kritische Betrachtung zum Wissensmanagement. In Kapitel 3 wird das zu betrachtende Unternehmen (VIVEON AG) in Branche und Größe eingeteilt, dabei werden Geschäftsfelder und Produktportfolio vorgestellt. Des weiteren wird der Aspekt des Wissensmanagements im Bereich der kleinen- und mittelständischen Unternehmen (KMU) und IT-Beratungsunternehmen erläutert. Daraus folgend wird die Notwendigkeit des Wissensmanagements für kleine IT-Beratungsunternehmen abgeleitet. Kapitel 4 legt das Modulsystem des Wissensmanagements nach PROBST dar. Innerhalb der einzelnen Module wird kontinuierlich der Unternehmensbezug hergestellt, ferner werden bereits Vorschläge zur Umsetzung des Wissensmanagements unterbreitet. In Kapitel 5 werden die Möglichkeiten einer IT-Unterstützung für das Wissensmanagement aufgezeigt. Diese umfassen eine Evaluierung der auf dem Markt befindlichen Tools mit anschließender Analyse und Produktauswahl. Die Analyse stützt sich auf einen unternehmensinternen Kriterienkatalog, welcher aufgrund einer Mitarbeiterbefragung ausgewertet wurde und auf die allgemeinen Marktanforderungen, die sich aus Studien von Forschungsinstituten begründen. Daraus ergibt sich ein Konzept für eine mögliche IT-Unterstützung. Dieses Kapitel bildet in Verbindung mit Kapitel 4 den Schwerpunkt der Arbeit. Kapitel 6 fasst schließlich die Ergebnisse aus Kapitel 4 und 5 zusammen und zeigt explizit die Maßnahmen auf, welche bei der VIVEON AG umgesetzt werden müssen. Im darauf folgendem Ausblick wird die weitere Vorgehensweise empfohlen. Zum Abschluss behandelt ein Exkurs das Thema Hat das Unternehmen ein Anrecht auf das Wissen seiner Mitarbeiter? . Dieser Exkurs regt eine psychologisch-rechtliche Auseinandersetzung mit der Thematk an.

De Kampioen vdf Hochschulverlag AG

Forage plant breeding has entered the genome era. This timely book reviews the latest advances in the development and application of molecular technologies which supplement conventional breeding efforts for our major forage crops. It describes the plethora of new technologies and tools now available for high-throughput gene discovery, genome-wide gene expression analysis, production of transgenic plants, genome analysis and marker-assisted selection as applied to forage plants. Detailed accounts are presented of current and future opportunities for innovative applications of these molecular tools and technologies in the identification, functional characterisation, and use of valuable genes in forage production systems and beyond. This book represents a valuable resource for plant breeders, geneticists, and molecular biologists, and will be of particular relevance to advanced undergraduates, postgraduates, and researchers with an interest in forage legumes and grasses.

Bulletin signalétique 740 Ft Press

This book aims to provide a state-of-the-art summary of what is currently known about brain glycogen metabolism, detailing the recent advances in our understanding of why glycogen is so critical for normal brain function. The role of glycogen in cellular neurophysiology remains largely unclear and its specific contribution to the energy demand of brain cells is still elusive.Glycogen is the sole cerebral glucose reserve and is emerging as a fundamental component of brain energy metabolism. Pharmacological or genetic manipulation of glycogen metabolism in the brain impairs memory formation and increases susceptibility to epileptic seizures and cortical spreading depression. Glycogen is also directly implicated in abnormal neuronal excitability and mental retardation that characterize brain disorders like Lafora disease and Pompe disease.

De Kampioen is the magazine of The Royal Dutch Touring Club ANWB in The Netherlands. It's published 10 times a year with a circulation of approximately 3,5 million copies.

De Kampioen

An anniversary edition of an influential book that introduced a groundbreaking approach to the study of science, technology, and society. This pioneering book, first published in 1987, launched the new field of social studies of technology. It introduced a method of inquiry—social construction of technology, or SCOT—that became a key part of the wider discipline of science and technology studies. The book helped the MIT Press shape its STS list and inspired the Inside Technology series. The thirteen essays in the book tell stories about such varied technologies as thirteenth-century galleys, eighteenth-century cooking stoves, and twentieth-century missile systems. Taken together, they affirm the fruitfulness of an approach to the study of technology that gives equal weight to technical, social, economic, and political questions, and they demonstrate the illuminating effects of the integration of empirics and theory. The approaches in this volume—collectively called SCOT (after the volume's title) have since broadened their scope, and twenty-five years after the publication of this book, it is difficult to think of a technology that has not been studied from a SCOT perspective and impossible to think of a technology that cannot be studied that way.

The third edition of Management and Cost Accounting continues to offer a wide ranging suite of resources to serve the needs of students, instructors

and professionals. With a strong European focus, this text provides a definitive coverage of established and contemporary issues within Management and Cost Accounting. Drawing on the latest research and surveys, the authors bring technical and theoretical concepts to life through extensive use of real world examples and case studies. Features Richly illustrated with a striking new full colour text design and photographs to further engage the reader, reinforce the practical relevance of issues discussed. Extended and fully updated coverage of Strategic Management Accounting In depth

European and Harvard Case Studies. A mix of new, and classic cases which pull together themes and offer a broader perspective of how management accounting can be applied in a range of different contexts. Cases include questions, and guided solutions are provided on the CWS accompanying the book. Extensive assessment material, including questions taken from past papers to allow students to consolidate learning and practice their exam technique. Questions are
