Daily Studies for Diatonic Harmonica Strictly Strings, Book 3

Strictly Strings Book 3 is an all-in-one technical and musical reference book for the advanced middle school and high school orchestra. It may be used as a follow-up to Book 2 or independently as a quick-reference technique and musicianship manual. Strictly Strings Book 3 features a host of suggested fingerings and bowings, emphasizes "real" music with over forty 2- and 3-part excerpts, and allows students to work on their own.

Classical Guitar Music in Print Musicdata Incorporated

How good of a musician you become is predicated on how much practice you do and the quality of that practice. In all likelihood, you don't have access to a harmonica teacher (a rare breed), so it's up to you to identify what will help you grow as a player and how to best spend your valuable practice time. In *Daily Exercises for Diatonic Harmonica*, author David Barrett (the world's most published author of harmonica lesson material) provides recommendations on how to set up your practice room, structure your practice time, what to work on to improve your playing, and how to prepare you for performance. The *Daily Exercises* portion of this book provides essential exercises for the diatonic harmonica—movement patterns, scales, tongue block technique drills, an exercise to help you memorize the chords of the 12 Bar Blues, your harmonica's note layout, and how to choose a note to match over a given chord, at any time, in any range of the harmonica. This book and accompanying recording is an essential text for all students of the diatonic harmonica. You'll need a C Major Diatonic Harmonica for this method. Includes access to online audio.

Elegia in re per contrabbasso e pianoforte Alfred Music Publishing

Arranged in the key signature sequence by which scales are usually taught, this book introduces each major and minor key in a unique two-page format. Includes information on tetrachords, major and minor scales, triads and other chords, arpeggios, cadences, scale degrees and fingering.

The Monthly Musical Record Alfred Music

Teaching and Mobile Learning: Interactive Educational Design is a groundbreaking book which shows how to design innovative educational mobile learning environments to instructional designers, curriculum developers, and learning professionals. The book aims to solicit teachers, educators, and practitioners to adapt their teaching with the help of educational digital models related to mobile technologies. Mobile learning is a revolution in concepts like space, sound production, and learning to get more and more customized in always-connected and ever-changing educational mobile learning environments. Researchers and academicians can be trained in cognition processes in learning management of mixed reality and virtual bodies. Mixed reality mobile technologies are becoming tools for education and training in mixed reality mobile learning. Readers of this book will understand how user and device innovative interactions are borderline with attention deficit disorder, digital amnesia, and information overload. The book develops educational knowledge on how to manage mobile technology and specific learning disorders to monitor the use of smartphones and technology tools and to empower their role in learning enhancement processes.
