For two years, representatives of 19 Dutch companies have been working together to find out what corporate social responsibility actually means in practice and what the added value of these efforts is. These activities have been carried out in the context of the Dutch National Initiative for Sustainable Development. The meaning of corporate social responsibility turns out to be a search process. It is not a clear-cut set of activities which any company can simply copy. "Learning about Corporate Social Responsibility" reports on the practical results of the NIDO

programme and also reflects on the learning experiences gained from implementing corporate social responsibility in Dutch business practices

In a riveting, groundbreaking narrative, Russell Shorto tells the story of New Netherland, the Dutch colony which pre-dated the Pilgrims and established ideals of tolerance and individual rights that shaped American history. "Astonishing . . . A book that will permanently alter the way we regard our collective past." --The New York Times When the British wrested New Amsterdam from the Dutch in 1664, the truth about its thriving, polyglot society began to disappear into myths about an island purchased for 24 dollars and a cartoonish peg-legged governor. But the story of the Dutch colony of New Netherland was merely lost, not destroyed: 12,000 pages of its records—recently declared a national treasure—are now being translated. Russell Shorto draws on this remarkable archive in *The Island at the Center of the World*, which has been hailed by *The New York Times* as “a book that will permanently alter the way we regard our collective past.” The Dutch colony pre-dated the “original” thirteen colonies, yet it seems strikingly familiar. Its capital was cosmopolitan and multi-ethnic, and its citizens valued free trade, individual rights, and religious freedom. Their champion was a progressive, young lawyer named Adriaen van der Donck, who emerges in these pages as a forgotten American patriot and whose political vision brought him into conflict with Peter Stuyvesant, the autocratic director of the Dutch colony. The struggle between these two strong-willed men laid the foundation for New York City and helped shape American culture. *The Island at the Center of the World* uncovers a lost world and offers a surprising new perspective on our own.

'The Dutch Way' is about teaching, learning and leading like the Dutch do. Why is that a good idea? Well, because the Dutch do well in Pisa rankings, they top almost every chart on children's well-being and have a highperforming system with a good balance between excellence and equity. And these are just a few of the aspects that indicate that the Dutch society and its education are worth exploring. The Netherlands is a hidden gem, as professor Alma Harris stated. It's is not an uncritical celebration of all achievements of the education system in the Netherlands. Instead, it is a thoughtful, empirically-informed, reflective narrative compiled by those best placed to comment upon what has been and what still is to be achieved within the Dutch educational context. This book gives you an opportunity to look at the nuances of this unique educational system and learn more about the key elements that strongly characterize our teaching, learning and leading practice. The Dutch Way will provide you food for thought to reflect upon your own context and culture from a Dutch perspective. And hopefully inspire you to teach, learn and lead the Dutch way.

This volume presents a short review study of the potential relationships between cognitive neuroscience and educational science. Conducted by order of the Dutch Programme Council for Educational Research of the Netherlands Organization for Scientific Research (NWO; cf. the American NSF), the review aims to identify: (1) how educational principles, mechanisms, and

theories could be extended or refined based on findings from cognitive neuroscience, and (2) which neuroscience principles, mechanisms, or theories may have implications for educational research and could lead to new interdisciplinary research ventures. The contents should be seen as the outcome of the 'Explorations in Learning and the Brain' project. In this project, we started with a 'quick scan' of the literature that formed the input for an expert workshop that was held in Amsterdam on March 10–11, 2008. This expert workshop identified additional relevant themes and issues that helped us to update the 'quick scan' into this final document. In this way the input from the participants of the expert workshop (listed in Appendix A) has greatly influenced the present text. We are therefore grateful to the participants for their scholarly and enthusiastic contributions. The content of the current volume, however, is the full responsibility of the authors.

Eight months into its maiden voyage to the Indies, the Dutch East India Company's *Batavia* sank on June 4, 1629 on Morning Reef in the Houtman Abrolhos off the western coast of Australia. Wendy van Duivenvoorde's five-year study was aimed at reconstructing the hull of *Batavia*, the only excavated remains of an early seventeenth-century Indiaman to have been raised and conserved in a way that permits detailed examination, using data retrieved from the archaeological remains, interpreted in the light of company archives, ship journals, and Dutch texts on shipbuilding of this period. Over two hundred tables, charts, drawings, and photographs are included.

Foundations for Community Health Workers Foundations for Community Health Workers is a training resource for client- and

community-centered public health practitioners, with an emphasis on promoting health equality. Based on City College of San Francisco's CHW Certificate Program, it begins with an overview of the historic and political context informing the practice of community health workers. The second section of the book addresses core competencies for working with individual clients, such as behavior change counseling and case management, and practitioner development topics such as ethics, stress management, and conflict resolution. The book's final section covers skills for practice at the group and community levels, such as conducting health outreach and facilitating community organizing and advocacy. Praise for *Foundations for Community Health Workers* "This book is the first of its kind: a manual of core competencies and curricula for training community health workers. Covering topics from health inequalities to patient-centered counseling, this book is a tremendous resource for both scholars of and practitioners in the field of community-based medicine. It also marks a great step forward in any setting, rich or poor, in which it is imperative to reduce health disparities and promote genuine health and well-being." Paul E. Farmer, MD., PhD, Maude and Lillian Presley Professor of Social Medicine in the Department of Global Health and Social Medicine at Harvard Medical School; founding director, Partners In Health. "This book is based on the contributions of experienced CHWs and advocates of the field. I am confident that it will serve as an inspiration for many CHW training programs." Yvonne Lacey, CHW, former coordinator, Black Infant Health Program, City of Berkeley Health Department; former chair, CHW Special Interest Group for the APHA. "This book masterfully

integrates the knowledge, skills, and abilities required of a CHW through storytelling and real life case examples. This simple and elegant approach brings to life the intricacies of the work and espouses the spirit of the role that is so critical to eliminating disparities a true model educational approach to emulate." Gayle Tang, MSN, RN., director, National Linguistic and Cultural Programs, National Diversity, Kaiser Permanente "Finally, we have a competency-based textbook for community health worker education well informed by seasoned CHWs themselves as well as expert contributors." Donald E. Proulx, CHW National Education Collaborative, University of Arizona
