In its World Investment Report 2013, the United Nations Conference on Trade and Development (UNCTAD) reconfirmed the UK as the largest recipient of foreign direct investment stock in Europe. The Ernst & Young European Attractiveness Survey 2014 found that the UK is the most attractive location for investors in Europe and ranks fifth globally after China, the US, India and Brazil in foreign investors' expectations over the next three years. This reflects its enterprise culture, business-friendly employment

laws, world-class support services and relatively benign fiscal policies. .

**Frommer's? Brazil** Legend Press Greetings and welcome to this guide-book on how to get a UK visa for a Thai. My name is Owen Jones and my girlfriend's name is Neem, a Thai, and we struggled for months to get a visa for Neem to visit Great Britain. The purpose of this book is to make that job easier for you and, hopefully, save you at least £400-£500 in the process too. Make no mistake about it, there is no shortage of solicitors and advisors - even complete agencies, who are willing to give you the

benefit of their experience. Some promise a visa 'or no fee', others offer a 50% up-front non-refundable deposit option (with the balance payable on successful completion) and others expect you to pay the whole fee regardless. This fee in Thailand is typically 30,000 Thai Baht (£600 or \$1,000).

Controlling national borders has once again become a key concern of contemporary states and a highly contentious issue in social and political life. But controlling borders is about much more than patrolling territorial boundaries at the edges of states: it now comprises a multitude of practices that take place at different levels, some at the edges of states and some in the local contexts of everyday life – in workplaces, in hospitals, in schools – which, taken together, construct, reproduce and contest borders and the rights and obligations associated with belonging to a nation-state. This book is a systematic exploration of the practices and processes that now define state bordering and the role it plays in

national and global governance. Based on original research, it goes well beyond traditional approaches to the study of migration and racism, showing how these processes affect all members of society, not just the marginalized others. The uncertainties arising from these processes mean that more and more people find themselves living in grey zones, excluded from any form of protection and often denied basic human rights.

Over the past 25 years, Adam Starchild has been the author of over two dozen books, and hundreds of magazine articles, primarily on business and finance. His articles have appeared in a wide range of publications around the world -- including Business Credit, Euromoney, Finance, The Financial Planner, International Living, Offshore Financial Review, Reason, Tax Planning International, The Bull & Bear, Trust & Estates, and many more. Now semi-retired, he was the president of an international consulting group

specializing in banking, finance and the development of new businesses, and director of a trust company. Although this formidable testimony to expertise in his field, plus his current preoccupation with other books-in-progress, would not seem to leave time for a well-rounded existence, Starchild has won two Presidential Sports Awards and written several cookbooks, and is currently involved in a number of personal charitable projects.

Place is integral to tourism. In tourism, almost all issues can ultimately be traced back to human-place interactions and human-place relationships. Sense of place, also referred to as place attachment, topophilia, and community

sentiment, has received significant attention in tourism studies because it both contributes to, and is affected by, tourism. This book, written by notable authors in the field, examines sense of place and place attachment in terms of a typology of sense of place/place attachment that includes genealogical/historical, narrative/cultural, economic, ideological, cosmological, and dynamic elements. Dimensions of place attachment such as place identity, place dependence, and affective attachment are discussed as well as place marketing, place making, and destination management. Complete with a range of illustrative international cases and examples ranging from Santa Claus to the importance of place in indigenous and traditional cultures, this

book represents a substantial addition to knowledge on the inseparable relationship between tourism and place and will be of great interest to all upper-level students and researchers of Tourism.
