Since Jimm Juree moved, under duress, with her family to a rural village on the coast of Southern Thailand, she misses the bright lights of Chiang Mai. Most of all, she's missed her career as a journalist, which was just getting started. In Chiang Mai, she was covering substantial stories and major crimes. But here in Maprao, Jimm has to scrape assignments from the local online journal, the Chumphon Gazette—and be happy about it when she gets one. This time they are sending her out to interview a local farang (European) writer, a man in his late fifties, originally from England, who writes award-winning crime novels, one Conrad Coralbank. At the same time, several local women have left town without a word to anyone, leaving their possessions behind. These include the local doctor, Dr. Sumlak, who never returned from a conference, and

the Thai wife of that farang writer, the aforementioned Conrad Coralbank. All of which looks a little suspicious, especially to Jimm's grandfather, an ex-cop, who notices Coralbank's interest in Jimm with a very jaundiced eye. With a major storm headed their way and a potential serial killer on the loose, it looks like Jimm Juree, her eccentric family, and the whole town of Maprao is in for some major changes. The Axe Factor is a Jimm Juree mystery from Colin Cotterill.

Founders of the phenomenally successful publishing company Lonely Planet, Tony and Maureen Wheeler have produced travel guides to just about every corner of the globe. Lonely Planet Publications was born in 1973 when the Wheelers self-published a quirky travel guide, *Across Asia on the Cheap*. This was quickly followed by what soon became the backpackers' bible, *South-East Asia on a Shoestring*. Going boldly where no other travel publisher had ventured, they catered to a new generation of independent, budget-conscious travelers long before the advent of mass tourism. *Unlikely Destinations: The Lonely Planet Story* is a unique mix of autobiography, business history and travel book. It traces Tony and Maureen Wheeler's personal story

as well as the often bumpy evolution of their travel guide business into the world's largest independent travel publishing company. Not surprisingly, after thirty years in the business the Wheelers have an unrivalled set of anecdotes which they share in *Unlikely Destinations: The Lonely Planet Story*. They have been hassled by customs, cheated by accountants, let down by writers, banned in Malawi, berated for their Burma guide and had books pirated in Vietnam. Tony has been gored by a cow in Benares, declared dead around the world in an assortment of gruesome and greatly exaggerated accounts and their company has been accused of the "Lonely Planetization" of the world. Through it all, from the heady days of discovery in the '70s to the rocky patch after the September 11th terrorist attacks, the Wheelers' passion for the planet and traveling certainly hasn't diminished, and comes shining through in this enthralling travelogue. But above all, their memoir reveals the spirit of adventure that has made them, according to the *New York Daily News*, "the specialists in guiding weird folks to weird places."

His was a world of war slaves and execution squads, of senseless brutality and mind-numbing torture; where families ceased to be and only a very special love could soar above the squalor, starvation and disease.
