Speed Reading Genius Wie Man Ein Genie Wird

2021-07-31

DANIEL MOSHE

The City of Dreaming Books Delacorte Press

Analyzes the leadership and strategies of three forefront military leaders from the ancient world, offers insight into the purposes behind their conflicts, and shows what today's leaders can glean from their successes and failures.

Learning How to Learn Simon and Schuster

Switching places with someone else has never been more fun than in this novel about following your dreams and finding your heart from the author of *Meant to Be* --perfect for readers of Emery Lord and Morgan Matson! Meet Sloane Emily Jacobs: a seriously stressed-out figure skater who choked during junior nationals. Now meet Sloane Devon Jacobs, a spunky ice hockey player who's been suspended from her team for too many aggressive hip checks. The two girls are on their way to skating camps in Montreal when a luggage mix-up causes them to meet. Pretty soon, the Sloanes realize that this is the opportunity they've been waiting for: the chance to escape their lives and switch places for the summer. But it didn't occur to Sloane E. that she might meet a hockey hottie; and Sloane D. never expected to run into a familiar (and very good-looking) face from home. It's not long before the Sloanes discover that convincing people you're someone else might be more difficult than being yourself. *** "A twist on the identity-swap that's both cozily familiar and fresh . . . sweetly uplifting." --Publishers Weekly "Enjoyable." --Kirkus Reviews "Sweet and satisfying." --Booklist "Super cute, super hilarious and a totally fun read. I'm a big fan of the "two people switch places and fool everyone around them" plot line (see: *The Parent Trap*), and Being Sloane Jacobs pulled it off awesomely." --HelloGiggles.com

Masters of Command Anchor

Ever since Viola's boyfriend broke up with her, she has spent her days silently wishing—for someone to love her again and, most important, to belong again—until her wishes inadvertently summon a genie named Jinn out of his world and into her own. He will remain until she makes three wishes. But it's only after Viola makes her first wish that she realizes she's in love with Jinn . . . and that if she wishes twice more, he will disappear from her life—and her world—forever. Jackson Pearce spins a magical tale about star-crossed lovers, what it means to belong . . . and how important it is to be careful what you wish for.

How to Persuade People Who Don't Want to be Persuaded Hay House, Inc

In a celebration of the greatest creative writers of all time, the literary critic explores the mysteries of genius as expressed in one hundred of the most creative minds in history, including Milton, Dante, and Whitman.

Negotiation Genius Harper Collins

From two leaders in executive education at Harvard Business School, here are the mental habits and proven strategies you need to achieve outstanding results in any negotiation. Whether you've "seen it all" or are just starting out, *Negotiation Genius* will dramatically improve your negotiating skills and confidence. Drawing on decades of behavioral research plus the experience of thousands of business clients, the authors take the mystery out of preparing for and executing negotiations—whether they involve multimillion-dollar deals or improving your next salary offer. What sets negotiation geniuses apart? They are the men and women who know how to: •Identify negotiation opportunities where others see no room for discussion •Discover the truth even when the other side wants to conceal it •Negotiate successfully from a position of weakness •Defuse threats, ultimatums, lies, and other hardball tactics •Overcome resistance and "sell" proposals using proven influence tactics •Negotiate ethically and create trusting relationships—along with great deals •Recognize when the best move is to walk away •And much, much more This book gets "down and dirty." It gives you detailed strategies—including talking points—that work in the real world even when the other side is hostile, unethical, or more powerful. When you finish it, you will already have an action plan for your next negotiation. You will know what to do and why. You will also begin building your own reputation as a negotiation genius.

The Genius Plague Atria Books

A collection of essays and other non fiction from Terry Pratchett, spanning the whole of his writing career from his early years to the present day. Terry Pratchett has earned a place in the hearts of readers the world over with his bestselling *Discworld* series -- but in recent years he has become equally well-known and respected as an outspoken campaigner for causes including Alzheimer's research and animal rights. *A Slip of the Keyboard* brings together for the first time the finest examples of Pratchett's non fiction writing, both serious and surreal: from musings on mushrooms to what it means to be a writer (and why banana daiquiris are so important); from memories of Granny Pratchett to speculation about Gandalf's love life, and passionate defences of the causes dear to him. With all the humour and humanity that have made his novels so enduringly popular, this collection brings Pratchett out from behind the scenes of the *Discworld* to speak for himself -- man and boy, bibliophile and computer geek, champion of hats, orangutans and Dignity in Dying. Snuff

was the bestselling adult hardcover novel of 2011. *A Blink of the Screen*, Terry's short fiction collection, was also one of the bestselling hardcovers of 2012.

The German Genius Penguin

An instant New York Times bestseller and #1 Wall Street Journal bestseller. JIM KWIK, the world's #1 brain coach, has written the owner's manual for mental expansion and brain fitness. *Limitless* gives people the ability to accomplish more--more productivity, more transformation, more personal success and business achievement--by changing their Mindset, Motivation, and Methods. These "3 M's" live in the pages of *Limitless* along with practical techniques that unlock the superpowers of your brain and change your habits. Learn how to: **FLIP YOUR MINDSET** Your brain is like a supercomputer and your thoughts program it to run. That's why the Kwik Brain process starts with unmasking assumptions, habits, and procrastinations that stifle you, redrawing the borders and boundaries of what you think is possible. It teaches you how to identify what you want in every aspect of your life, so you can move from negative thinking to positive possibilities. **IGNITE YOUR MOTIVATION** Uncovering what motivates you is the key that opens up limitless mental capacity. This is where Passion + Purpose + Energy meet to move you closer to your goals, while staying focused and clear. Your personal excitement will be sustainable with self-renewing inspirations. Your mind starts strong, stays strong, and drives further exponentially faster. **MASTER THE METHOD** We've applied the latest neuroscience for accelerated learning. Our process, programs, podcasts, and products unleash your brain's own superpowers. Finish a book 3x faster through speed reading (and remember every part of it), learn a new language in record time, and master new skills with ease. These are just a few of the life-changing self-help benefits. With Kwik Brain, you'll get brain-fit and level-up your mental performance. With the best Mindset, Motivation and Method, your powers become truly limitless.

Wie man effektiv und nachhaltig Physik studiert Bloomsbury Publishing USA

A surprisingly simple way for students to master any subject--based on one of the world's most popular online courses and the bestselling book *A Mind for Numbers* *A Mind for Numbers* and its wildly popular online companion course "Learning How to Learn" have empowered more than two million learners of all ages from around the world to master subjects that they once struggled with. Fans often wish they'd discovered these learning strategies earlier and ask how they can help their kids master these skills as well. Now in this new book for kids and teens, the authors reveal how to make the most of time spent studying. We all have the tools to learn what might not seem to come naturally to us at first--the secret is to understand how the brain works so we can unlock its power. This book explains: Why sometimes letting your mind wander is an important part of the learning process How to avoid "rut think" in order to think outside the box Why having a poor memory can be a good thing The value of metaphors in developing understanding A simple, yet powerful, way to stop procrastinating Filled with illustrations, application questions, and exercises, this book makes learning easy and fun.

John von Neumann: The Scientific Genius Who Pioneered the Modern Computer, Game Theory, Nuclear Deterrence, and Much More Ten Speed Press

In the near future sci-fi world of Qualityland, algorithms help create an idyllic life for its citizens, but what if the perfect world wasn't built for you? Welcome to QualityLand, the best country on Earth. Here, a universal ranking system determines the social advantages and career opportunities of every member of society. An automated matchmaking service knows the best partners for everyone and helps with the break up when your ideal match (frequently) changes. And the foolproof algorithms of the biggest, most successful company in the world, TheShop, know what you want before you do and conveniently deliver to your doorstep before you even order it. In QualityCity, Peter Jobless is a machine scrapper who can't quite bring himself to destroy the imperfect machines sent his way, and has become the unwitting leader of a band of robotic misfits hidden in his home and workplace. One day, Peter receives a product from TheShop that he absolutely, positively knows he does not want, and which he decides, at great personal cost, to return. The only problem: doing so means proving the perfect algorithm of TheShop wrong, calling into question the very foundations of QualityLand itself. *Qualityland*, Marc-Uwe Kling's first book to be translated into English, is a brilliantly clever, illuminating satire in the tradition of Kurt Vonnegut, Douglas Adams, and George Orwell that offers a visionary, frightening, and all-too funny glimpse at a near future we may be hurtling toward faster than it's at all comfortable to admit. So why delay any longer? TheShop already knows you're going to love this book. You may as well head to the cash register, crack the covers, and see why that is for yourself.

A Slip of the Keyboard Schneller Lernen Verlag

"In this science fiction thriller, brothers are pitted against each other as a pandemic threatens to destabilize world governments by exerting a subtle mind control over survivors"--

Zero Sum Game Simon and Schuster

For fans of *The 7 1/2 Deaths of Evelyn Hardcastle* and *David Mitchell*, a genre bending, time twisting alternative history that asks whether it's worth changing the past to save the future, even if it costs you everyone you've ever loved. Joe Tournier has a bad case of amnesia. His first memory is of stepping off a train in the nineteenth-century French colony of England. The only clue Joe has about his identity is a century-old postcard of a Scottish lighthouse that arrives in London the same month he does. Written in illegal English--instead of French--the postcard is signed only with the letter "M," but Joe is certain whoever wrote it knows him far better than he currently knows himself, and he's determined to find the writer. The search for M, though, will drive Joe from French-ruled London to rebel-owned Scotland and finally onto the battle ships of a lost empire's Royal Navy. Swept out to sea with a hardened British sea captain named Kite, who might know more about Joe's past than he's willing to let on, Joe will remake history, and himself. From bestselling author Natasha Pulley, *The Kingdoms* is an epic, romantic, wildly original novel that bends genre as easily as it twists time. *Leading at the Edge of Chaos* HarperCollins

Discover the classic thriller that launched the #1 detective series of the past twenty-five years, now one of PBS's "100 Great American Reads" *Alex Cross* is a homicide detective with a Ph.D. in psychology. He works and lives in the ghettos of D. C. and looks like Muhammad Ali in his prime. He's a tough guy from a tough part of town who wears Harris Tweed jackets and likes to relax by

banging out Gershwin tunes on his baby grand piano. But he also has two adorable kids of his own, and they are his own special vulnerabilities. Jezzie Flanagan is the first woman ever to hold the highly sensitive job as supervisor of the Secret Service in Washington. Blond, mysterious, seductive, she's got an outer shell that's as tough as it is beautiful. She rides her black BMW motorcycle at speeds of no less than 100 mph. What is she running from? What is her secret? Alex Cross and Jezzie Flanagan are about to have a forbidden love affair—at the worst possible time for both of them. Because Gary Soneji, who wants to commit the "crime of the century," is playing at the top of his game. Soneji has outsmarted the FBI, the Secret Service, and the police. Who will be his next victim? Gary Soneji is every parent's worst nightmare. He has become Alex Cross's nightmare. And now, reader, he's about to become yours.

The Hidden Habits of Genius Grove/Atlantic, Inc.

Winner of the Pulitzer Prize "A masterwork . . . the novel astonishes with its inventiveness . . . it is nothing less than a grand comic fugue."—The New York Times Book Review A Confederacy of Dunces is an American comic masterpiece. John Kennedy Toole's hero, one Ignatius J. Reilly, is "huge, obese, fractious, fastidious, a latter-day Gargantua, a Don Quixote of the French Quarter. His story bursts with wholly original characters, denizens of New Orleans' lower depths, incredibly true-to-life dialogue, and the zaniest series of high and low comic adventures" (Henry Kisor, Chicago Sun-Times).

Collier's Once a Week Plunkett Lake Press

Praise for *Leading at the Edge of Chaos* "If your organization is facing any anticipated chaotic event in the next six months—and who isn't—you should read Daryl Conner. His tough-minded definitions of winners vs. losers will make you think twice." -Craig E. Weatherup, Chairman and CEO, The Pepsi-Cola Company "Conner's new book is thoroughly original and useful on the mastery of leading change." -Warren Bennis, Distinguished Professor of Business Administration, University of Southern California, and author of *Organizing Genius* "Daryl Conner has done it again! The leading authority on managing change has given us what we need right now. *Leading at the Edge of Chaos* offers prescriptive advice for leading in today's world, where the tempo and thrust of change has escalated. A must read for anyone who is still breathing and leading." -Ken Blanchard, coauthor of *The One Minute Manager*(r) "Delightful and thought-provoking . . . [links] deep organizational research with useable 'real world' advice . . . I would recommend this book to others—senior line leaders and their management teams." -Kenneth Schwenke, Senior Vice President, Human Resources, Aramark Corporation "In the new reality in which the human need for control is continuously assaulted by escalating change, Daryl Conner provides [organization leaders] . . . steps to take . . . in clear language and vivid images, with psychological insight and knowledge born out of broad hands-on experience." -Judy Bardwick, author of *In Praise of Good Business and Danger in the Comfort Zone* "Every executive who is leading constant change in their organizations should read this book." -Don Beattie, Chief Executive, Personnel, The BOC Group (U.K.) "Gone are the days when innovations and new ventures were incremental in scope and sequential in nature. In their place is 'perpetual unrest,' unending, fundamental changes . . ." -Daryl Conner In his 1993 classic, *Managing at the Speed of Change*, Daryl Conner showed managers how to implement business innovations on time and under budget. In this groundbreaking new book, he shows them how to ride the whirlwind.

The tempo of change has sped up to a dizzying pace over the past few years. Globalization, rapid-fire technological innovation, and mounting pressure for shareholder value have pushed the markets into a state of ceaseless turmoil. What was cutting-edge change management theory just five years ago now seems naive. Success amidst such a maelstrom of change calls for much more than what change management models have to offer. It calls for a radically new kind of organization, nimble enough to adapt instantly to changing market conditions, and piloted by leaders versed in the art of *Leading at the Edge of Chaos*. This book is not about decision making; it is about execution. It is not about predicting change; it is about adapting to it at a moment's notice. Internationally renowned "Change Doctor" Daryl Conner defines the new roles that all leaders must assume in order to direct the changes that are crucial to their organizations' survival. He schools them in all of the essential components of the change process. And, most importantly, he arms them with action steps for instilling their companies with the nimbleness and resilience needed to survive and thrive in today's supervolatile markets. Conner also introduces the revolutionary concept of human due diligence—the human equivalent of financial due diligence and an indispensable tool for orchestrating major enterprisewide transitions. Strategic, results-oriented, and proactive, human due diligence focuses on people's capacity to absorb change as a limited resource, and offers tools for ensuring that there is sufficient capacity available to face the next challenge—and the many others sure to follow.

William Whitecloud's Secrets of Natural Success Random House

In this whimsical fantasy adventure, a novelist's search for an author takes him to a magical city, a villainous literary scholar, and perilous catacombs. Optimus Yarnspinner's search for an author's identity takes him to Bookholm—the so-called City of Dreaming Books. On entering its streets, our hero feels as if he has opened the door of a gigantic second-hand bookshop. His nostrils are assailed by clouds of book dust, the stimulating scent of ancient leather, and the tang of printer's ink. Soon, though, Yarnspinner falls into the clutches of the city's evil genius, Pfistomel Smyke, who treacherously maroons him in the labyrinthine catacombs underneath the city, where reading books can be genuinely dangerous . . . In *The City of Dreaming Books*, Walter Moers transports us to a magical world where reading is a remarkable adventure. Only those intrepid souls who are prepared to join Yarnspinner on his perilous journey should read this book. We wish the rest of you a long, safe, unutterably dull, and boring life! Praise for *The City of Dreaming Books* "German author and cartoonist Moers returns to the mythical lost continent of Zamonia in his uproarious third fantasy adventure to be translated into English, a delightfully imaginative mélange of Shel Silverstein zaniness and oddball anthropomorphism à la Terry Pratchett's *Discworld*. . . . A wonderfully whimsical story that will appeal to readers of all ages." —Publishers Weekly "A salmagundi of whimsy, imagination and book lore—remarkable fun." —Cleveland Plain Dealer "Moers puts Tolkien through some sort of Willy Wonka sweetening process and comes up with characters such as Optimus Yarnspinner, who, names being fate and all, just has to be a storyteller." —Kirkus Reviews *The Revolutionary Genius of Plants* Animal Dreaming Publishing NATIONAL BESTSELLER • "More impressive than all but a few novels published so far this decade . . . a wheeling meditation on the wired life, on privacy, on what being human in the age of binary code might mean . . . [Joshua] Cohen, all of thirty-four, emerges as a major American writer."—The New York Times NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY VULTURE AND ONE OF THE BEST

BOOKS OF THE YEAR BY NPR AND THE WALL STREET JOURNAL "Book of Numbers . . . is shatteringly powerful. I cannot think of anything by anyone in [Cohen's] generation that is so frighteningly relevant and composed with such continuous eloquence. There are moments in it that seem to transcend our impasse."—Harold Bloom The enigmatic billionaire founder of Tetraton, the world's most powerful tech company, hires a failed novelist, Josh Cohen, to ghostwrite his memoirs. The mogul, known as Principal, brings Josh behind the digital veil, tracing the rise of Tetraton, which started in the earliest days of the Internet by revolutionizing the search engine before venturing into smartphones, computers, and the surveillance of American citizens. Principal takes Josh on a mind-bending world tour from Palo Alto to Dubai and beyond, initiating him into the secret pretext of the autobiography project and the life-or-death stakes that surround its publication. Insider tech exposé, leaked memoir-in-progress, international thriller, family drama, sex comedy, and biblical allegory, Book of Numbers renders the full range of modern experience both online and off. Embodying the Internet in its language, it finds the humanity underlying the virtual. Featuring one of the most unforgettable characters in contemporary fiction, Book of Numbers is an epic of the digital age, a triumph of a new generation of writers, and one of those rare books that renew the idea of what a novel can do. Praise for Book of Numbers "The Great American Internet Novel is here. . . . Book of Numbers is a fascinating look at the dark heart of the Web. . . . A page-turner about life under the veil of digital surveillance . . . one of the best novels ever written about the Internet."—Rolling Stone "A startlingly talented novelist."—The Wall Street Journal "Remarkable . . . dazzling . . . Cohen's literary gifts . . . suggest that something is possible, that something still might be done to safeguard whatever it is that makes us human."—Francine Prose, The New York Review of Books

Book of Numbers Prometheus Books

ZERO SUM GAME Best of Lists: * Best Books of the Month at The Verge, Book Riot, Unbound Worlds, SYFY, & Kirkus * The Mary Sue Book Club Pick * Library Journal Best Debuts of Fall and Winter A blockbuster, near-future science fiction thriller, S.L. Huang's Zero Sum Game introduces a math-genius mercenary who finds herself being manipulated by someone possessing unimaginable

power... Cas Russell is good at math. Scary good. The vector calculus blazing through her head lets her smash through armed men twice her size and dodge every bullet in a gunfight, and she'll take any job for the right price. As far as Cas knows, she's the only person around with a superpower...until she discovers someone with a power even more dangerous than her own. Someone who can reach directly into people's minds and twist their brains into Moebius strips. Someone intent on becoming the world's puppet master. Cas should run, like she usually does, but for once she's involved. There's only one problem... She doesn't know which of her thoughts are her own anymore. "Fresh and exciting... a great start to an exciting series--and an exciting career." --Boing Boing At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Being Sloane Jacobs John Wiley & Sons

Born without social instincts many people take for granted, brought up in a troubled environment and possessed with an extraordinary musical talent, Mike Oldfield was thrust into the spotlight at the tender age of nineteen. His first album Tubular Bells went on to sell fifteen million copies worldwide and catapulted him into a stardom he was ill-equipped to cope with. From growing up with an alcoholic mother, to his feelings of alienation and struggles with depression, this book takes Mike from his early years, through his staggering fame, his broken marriages, years as a recluse, his rebirth experience at a controversial Exegesis seminar and beyond. Mike Oldfield has been on a journey few of us could ever imagine, and offers a message of hope to anybody who feels they live on the edge of society.

Young Germany. The Political Background Abrams

Be productive without sacrificing peace of mind using Lazy Genius principles that help you focus on what really matters and let go of what doesn't. If you need a comprehensive strategy for a meaningful life but are tired of reading stacks of self-help books, here is an easy way that actually works. No more cobbling together life hacks and productivity strategies from dozens of authors and still feeling tired. The struggle is real, but it doesn't have to be in charge. With wisdom and wit, the host of The Lazy Genius Podcast, Kendra Adachi, shows you that it's not about doing more or doing less; it's about doing what matters to you. In this book, she offers fourteen principles that are both practical and purposeful, like a Swiss army knife for how to be a person. Use them in combination to "lazy genius" anything, from laundry and meal plans to making friends and napping without guilt. It's possible to be soulful and efficient at the same time, and this book is the blueprint. The Lazy Genius Way isn't a new list of things to do; it's a new way to see. Skip the rules about getting up at 5 a.m. and drinking more water. Let's just figure out how to be a good person who can get stuff done without turning into The Hulk. These Lazy Genius principles--such as Decide Once, Start Small, Ask the Magic Question, and more--offer a better way to approach your time, relationships, and piles of mail, no matter your personality or life stage. Be who you already are, just with a better set of tools.
