 Looking at consciousness on its head.
 Consciousness . This We like to
 think that we

are in control of the future of "artificial" intelligence. The reality, though, is that we -- the everyday people whose data powers AI -- aren't actually in control of anything. When, for example, we speak with Alexa, we contribute that data to a system we can't see and have no input into -- one largely free from regulation or oversight. The big nine corporations -- Amazon, Google,

Facebook, Tencent, Baidu, Alibaba, Microsoft, IBM and Apple--are the new gods of AI and are short-changing our futures to reap immediate financial gain. In this book, Amy Webb reveals the pervasive, invisible ways in which the foundations of AI -- the people working on the system, their motivations, the technology itself -- is broken. Within our lifetimes,

AI will, by design, begin to behave unpredictably, thinking and acting in ways which defy human logic. The big nine corporations may be inadvertently building and enabling vast arrays of intelligent systems that don't share our motivations, desires, or hopes for the future of humanity. Much more than a passionate, human-centered call-to-arms, this book delivers a strategy for

changing course, and provides a path for liberating us from algorithmic decision-makers and powerful corporations.

 Many parents are waking up to the fact that parenting is not about controlling their children, but about empowering themselves and their children. 9
 Ways to Bring Out the Best in You and

Your Child is about turning power struggles into powerful relationships. It is about raising children who are full of spirit and life, and about teaching them to be caring human beings. Maggie Reigh teaches that parenting is a matter of the heart. Combining profound insights with practical ideas, Reigh shows parents how to raise respectful, responsible, and resilient children, and at the same

time, add more life and laughter to their children's lives and their own. This is a book about raising children full of spirit and life, and teaching them to be caring human beings. Wentworth's Primary Arithmetic Miramax Books

Hachette UK
A practical, deeply reported survival guide for the age of AI, written by the New York Times tech

columnist who has introduced millions to the promise and pitfalls of artificial intelligence.

"Artificial intelligence can be terrifying, but Kevin Roose provides a clear, compelling strategy for surviving the next wave of technology with our jobs—and souls—intact."

—Charles Duhigg, author of *The Power of Habit*
It's time to get real about AI. After decades of hype and sci-fi

fantasies, AI—artificial intelligence—is leaping out of research labs and into the center of our lives.

Millions of people now use tools like ChatGPT and DALL-E 2 to write essays, create art and finish coding projects. AI programs are already beating humans in fields like law, medicine and entertainment, and they're getting better every day. But AI doesn't just threaten our jobs. It shapes our entire human

experience, steering our behavior and influencing our choices about which TV shows to watch, which clothes to buy, and which politicians to vote for. And while many experts argue about whether a robot apocalypse is near, one critical question has gone unanswered: In a world where AI is ascendant, how can humans survive and thrive? In Futureproof: 9 Rules for Humans in the

Age of Automation, New York Times technology columnist Kevin Roose shares the secrets of people and organizations that have successfully navigated waves of technological change, and explains what skills are necessary to stay ahead of the curve today, with lessons like • Be surprising, social, and scarce • Resist machine drift • Leave handprints • Demote your

devices • Treat AI like a chimp army Roose rejects the conventional wisdom that in order to compete with AI, we have to become more like robots ourselves—hyper-efficient, data-driven workhorses. Instead, he says, we should focus on being more human, and doing the kinds of creative, inspiring, and meaningful things even the most advanced algorithms can't do. *Way to Be!*

 This “important and timely” (Drew Faust, Harvard Magazine) #1 New York Times bestseller examines the legacy of slavery in America—and how both history and memory continue to shape our everyday lives. Beginning in his hometown of New Orleans, Clint Smith leads the reader on an unforgettable tour of monuments

and landmarks—those that are honest about the past and those that are not—that offer an intergenerational story of how slavery has been central in shaping our nation's collective history, and ourselves. It is the story of the Monticello Plantation in Virginia, the estate where Thomas Jefferson wrote letters espousing the urgent need for liberty while enslaving more than

four hundred people. It is the story of the Whitney Plantation, one of the only former plantations devoted to preserving the experience of the enslaved people whose lives and work sustained it. It is the story of Angola, a former plantation-turned-maximum-security prison in Louisiana that is filled with Black men who work across the 18,000-acre land for virtually no pay. And it is the story of

Blandford Cemetery, the final resting place of tens of thousands of Confederate soldiers. A deeply researched and transporting exploration of the legacy of slavery and its imprint on centuries of American history, *How the Word Is Passed* illustrates how some of our country's most essential stories are hidden in plain view—whether in places we might drive by on our way to work, holidays

such as Juneteenth, or entire neighborhoods like downtown Manhattan, where the brutal history of the trade in enslaved men, women, and children has been deeply imprinted. Informed by scholarship and brought to life by the story of people living today, Smith's debut work of nonfiction is a landmark of reflection and insight that offers a new understanding of the hopeful role that memory and

history can play in making sense of our country and how it has come to be. Long gone are the good old days when a cat's biggest worries were

mean dogs or a bath. Modern cats must confront satanists, online predators, the possibility of needing to survive in a post-apocalyptic wasteland, and countless other threats to their nine lives. For over four decades, the American Association of Patriots have stood at the vanguard of our country's defense by helping to prepare our nation's cat owners for the difficult conversations they dread

having with their pets. Written in a simple Q&A format, How to Talk to Your Cat About Gun Safety answers crucial questions such as, "What is the right age to talk to my cat about the proper use of firearms?" and "What are the benefits of my cat living a lifestyle of abstinence?" and especially "Why does my cat need to use the internet? Can't he just play with yarn like cats used to do?" Our

country—and our cats—stand at a precipice. It will take courage, and it will take hard work, but armed with the knowledge within these pages, we can make our cats—and America—great again!

Enneagram Nines are often asked questions like this by others who want to invite them to share their gifts. Marlena Graves

describes her own experience with deciding whether to speak up: "I know what it's like to be run over and rendered invisible. I don't want to do the same to others." Nines are easy to be around because they seem to instinctively put others before themselves. In these readings Marlena reflects on what it's like to be a Nine with a spirit of honest self-assessment and a desire for personal

and spiritual growth. She draws wisdom from the deep wells of both counseling and spirituality, using illustrations from Scripture and life. She writes out of her personal context, drawing on the lessons learned from her Puerto Rican Abuelita and from growing up in poverty. But she also writes for all of us. Each reading concludes with an opportunity for further engagement

such as a journaling prompt, reflection questions, a written prayer, or a spiritual practice. Any of us can find aspects of ourselves in any of the numbers. The Enneagram is a profound tool for empathy, so whether or not you are a Nine, you will grow from your reading about Nines and enhance your relationships across the Enneagram spectrum. *The Magazine of Business*

Even if you think you don't need

any help with your life, I am sure there is someone in your orbit that you love that does. By understanding the principles and information in this book, you can help them. And I believe almost everyone has someone they wish to help. It is frustrating when you want to help but don't know how. That might not be enough reason for you to want to buy this book. So let's go into what you learn from it. We all are

governed by the rules of the spirit world. I call these rules AVP--the Alternate Viewpoint System. You will not only learn how the spirit world operates but what to expect when you get there. I think that piece of information would be valuable since fear of death is really fear of the unknown. This book was my task from before my previous life, as Elizabeth Reilly. Yes, my veil was lifted

in 1989. I had a need to know, you see. So that brings us to the most important obstacle to using AVP. The entire system is predicated on the FACT that we have all lived before. That's why I couldn't proceed until Sharon Holt did her job. Yes, that was a planned event. When you accept the fact that you have lived before, you can also accept that you are in the proper place to learn

lessons--the real reason we are here. That means you don't need to be jealous, envious, covetous, or do anything harmful against anyone. If you read this book, you will know how to fight temptation and desire. You will learn to purge you past of negative traits. Then, of course, you will learn how to purge the negative out of your heart and replace it with love, kindness, humility, and

forgiveness, vital for a pure heart and required to get into heaven!
Beyond Great
 Simon and Schuster
 From one of the world's foremost spiritual leaders, an inspiring book that provides young adults and their parents with a game plan for leading a better life. This inspiring, upbeat, life-affirming book shows teenagers and their families how to navigate through the moral

minefields of contemporary life and how to truly enjoy the opportunities and blessings that the modern world has to offer. Drawing upon his faith as well as his personal experience, Gordon B. Hinckley provides his readers with a game plan for discovering and embracing the things in life that are valuable and worthwhile. He shows how our lives are shaped by the decisions we make every day about

personal behavior -- and he shows how to make the right decisions with the help of nine guiding principles. With its vivid anecdotes, invaluable precepts, and timeless wisdom, *Way to Be!* will be a source of both inspiration and practical advice for young people everywhere who want to lead better, fuller, more satisfying lives. *Forty Days on Being a Nine*
Simon & Schuster

The New York Times bestseller that gives readers a paradigm-shattering new way to think about motivation from the author of *When: The Scientific Secrets of Perfect Timing*. Most people believe that the best way to motivate is with rewards like money—the carrot-and-stick approach. That's a mistake, says Daniel H. Pink (author of *To Sell Is Human: The Surprising Truth About*

Motivating Others). In this provocative and persuasive new book, he asserts that the secret to high performance and satisfaction-at work, at school, and at home—is the deeply human need to direct our own lives, to learn and create new things, and to do better by ourselves and our world. Drawing on four decades of scientific research on human motivation, Pink exposes

the mismatch between what science knows and what business does—and how that affects every aspect of life. He examines the three elements of true motivation—a utonomy, mastery, and purpose—and offers smart and surprising techniques for putting these into action in a unique book that will change how we think and transform how we live. *Business* Berrett-Koehler Publishers

Karenna Gore Schiff's nationally bestselling narrative tells the fascinating stories of nine influential women, who each in her own way, tackled inequity and advocated change throughout the turbulent twentieth century. Ida B. Wells-Barnett, who was born a slave and fought against lynching; Mother Jones, an Irish immigrant who organized coal miners and campaigned

against child labor; Alice Hamilton, who pushed for regulation of industrial toxins; Frances Perkins, who developed key New Deal legislation; Virginia Durr, who fought the poll tax and segregation; Septima Clark, who helped to register black voters; Dolores Huerta, who organized farm workers; Dr. Helen Rodriguez-Trias, an activist for reproductive rights; and Gretchen

Buchenholz, one of the nation's leading child advocates. Gore Schiff delivers an intimate and accessible account of the nine trail-blazing women who deserve not only to be honored but to have their example serve as beacons. Guide Book of Pureness of Heart Required to Enter Heaven Page Publishing Inc By the ripe old age of 9, the average girl will feel as good as she's

ever going to feel about herself. After that, her self-esteem starts to take a nosedive, from which she may never fully recover. Why does her self-esteem follow this disheartening trajectory? Why are so many girls and women plagued by feelings of self-doubt? Whether we're aware of it or not, we live in a culture that still values, trusts, and empowers males over females. Our traditions,

politics, language, laws, media, and school curriculums are all rooted in a value system that perpetuates messages of female weakness, dependence and inferiority. We tell girls and women every day that they are less valuable than males, incapable of leadership and not worthy of being respected as equals. These messages deeply impact a girl's sense of value and her ability to thrive. By the

time she enters adolescence, she becomes susceptible to poor academic performance, depression, eating disorders, bullying, risky sexual behavior, and simply feeling 'not good enough.' Though these dire consequences affect girls and women most directly, they are detrimental to us all. Like any team on which half the players are unable to perform to their fullest potential, this

state of affairs leaves our whole society functioning at a deficit. The good news is that because we created this reality, we also have the ability to create it differently. 9 WAYS is a revolutionary guide for parents and anyone who cares about the well-being of girls. It is dedicated to shedding much-needed light on the root causes of the self-esteem crisis, the ways we are unknowingly contributing to

it, and what we can do to ensure that every girl (and future woman) is empowered to live up to her full potential. Drawing from more than 20 years of experience working with girls and women, Anea Bogue provides both insight and specific action steps that empower the reader to help create a world in which the female half of our 'team' is consistently capable of thriving mentally, physically,

emotionally, and spiritually. *How To Win Friends And Influence People* Paraclete Press (MA) Great is no longer good enough. Beyond Great delivers a powerful new playbook of 9 core strategies to thrive in a post-COVID world where all the rules of the game are being re-written. Beyond Great answers to two fundamental questions which face business leaders today

in a world shaped by daunting and disruptive technological, economic, and social change. First, what is outstanding performance in this new volatile era? Second, how do we build competitive advantage in a world with new and often uncertain rules? Supported by years of research and hands-on consulting practice, this book presents a comprehensive framework for building a high

performing, resilient, adaptive, and socially responsible global company. The book begins by taking an incisive look at these disruptive forces transforming globalization, including economic nationalism; the boom in data flows and digital commerce; the rise of China; heightened public concerns about capitalism and the environment; and the

emergence of borderless communities of digitally connected consumers. Distilled from the study of hundreds of companies and interviews with dozens of business leaders, the authors have distilled nine core strategies – the new winning playbook of the 21st century. Beyond Great argues that business leaders today must lead with a new kind of openness, flexibility and light-

footedness, constantly layering in new strategies and operational norms atop existing ones to allow for "always-on" transformation. Leaders must master a whole new set of rules about what it takes to be "global," becoming shapeshifters adept at handling contradiction, multiplicity, and nuance. This book will show them how. *Sixty Nine Ways to Start a Study Group and Keep It Growing*
