The Creature is an invitation to follow the mechanics between power and pain, which begets the creature. Creatures confront power in, and through, conjunctures of radical contingency. The casual use of power is an exercise in distraction. It is an abiding

conundrum that those who endure affliction also exert it as a force over other living bodies in equal measure-not as acts of vengeance or bad faith, but through deeds of forgetful randomness. To ensure social indemnity and security, creatures exercise force over kindred embodiments through a process of collective mimicry. In the bargain, creatures begin to disfigure and distort each other. The line between mutual slaughter and mutual embrace begins to blur. Each transgresses its own soul. At other times, power is an opaque, magisterial and disdainful style of conveyance. It reveals itself out of nowhere. But the steadfast creature is as resilient as it is vulnerable. The more it endures, the greater its perdurance. Perduring creatures may sometimes gain a second sight, forged out of a sense of lyricality, love and abdication. But is abdication, or taking refuge in the wondrous, sufficient to release all creatures from the fatal loop of power and pain? Or will they have to slowly shed creaturely affliction by a rigorous process of decreation? Sifting through the writings of Giambattista Vico, Niccolò Machiavelli, Gabriel Tarde, Miguel de Unamuno, Jibanananda Das, Lev Shestov, Raymond

Geuss, Jean Starobinski, Ernst Bloch, Simone Weil, Simon Critchley, Sarah Kane and others, this volume explores the creaturely predicament and its possibilities of freedom. The five chapters in Book I lay down fundamental questions for the creaturely condition: the question of mimicry, the relationship between taking initiative and being hounded, the bridge between senses and destitution, and the vehemence of radical contingency. Book II posits the question of skepticism, fideism and their connection to resilience and generosity in creatures. Book III is entirely devoted to various ways of conceiving the aesthetic: through the tragic, the epiphanic, the catastrophic and through militant material eruptions. Book II and III essentially delve into the sites of freedom that lurk within the condition of the creaturely. Book IV is constituted of a single chapter on the subject of decreation; it grapples with questions of attention, anonymity and abdication.

Explore an insightful and original discussion of the causes of the fall of the Roman Empire In *Why Rome Fell: Decline and Fall, or Drift and Change?*, celebrated scholar of Roman history Dr. Michael Arnheim delivers a fascinating and robust exploration of the causes of and reasons for Rome's fall in the West. Steeped in applications of elite theory to the later Roman Empire, the author discusses several interconnected issues that influenced the decline of Rome, including monarchy, power structure, social mobility, religion, and the aristocratic ethos. Incisive comparisons of the situation in Rome to those in the Principate and the Byzantine Empire shed light on the relative lack of "indissoluble union and easy obedience" (in Gibbon's phrase) in the later

Roman Empire. Instead, the book reveals the divided loyalties of a fractured society that characterized Rome in its later years. *Why Rome Fell* also includes: A thorough introduction to the transition from the ancient to the medieval world, including discussions of monarchy, Diocletian and his relationship to the aristocracy, and Constantine's reforms Comprehensive explorations of the rise of the Roman Christian empire and Constantine's role Practical discussions of conflicting theories of what caused the fall of the Roman empire, including the Pirenne thesis, the malaria hypothesis, Gibbon's 'decline and fall' theory, and the role played by religion An indispensable resource for students, scholars and the general reader with an inquiring mind about history, *Why Rome Fell* deserves a place on the bookshelves of anyone with an interest in a sophisticated and original take on historical continuity and change.

Polyphony and the Modern asks one fundamental question: what does it mean to be modern in one's own time? To answer that question, this volume focuses on polyphony as an index of modernity. In *The Principle of Hope*, Ernst Bloch showed that each moment in time is potentially fractured: people living in the same country can effectively live in different centuries - some making their alliances with the past and others betting on the future - but all of them, at least technically, enclosed in the temporal moment. But can a claim of modernity also mean something more ambitious? Can an artist, by accident or design, escape the limits of his or her own time, and somehow precociously embody the outlook of a subsequent age? This book sees polyphony as a bridge providing a terminology and a

stylistic practice by which the period barrier between Medieval and Early Modern can be breached. As the visual representation of an essentially oral text, Sylvia Huot points out, the medieval illuminated manuscript has a theatrical, performative quality. She perceives the tension between implied oral performance and real visual artifact as a fundamental aspect of thirteenth- and fourteenth-century poetics. In this generously illustrated volume, Huot examines manuscript texts both from the performance-oriented lyric tradition of *chanson courtoise*, or courtly love lyric, and from the self-consciously literary tradition of Old French narrative poetry. She demonstrates that the evolution of the lyrical romance and dit, narrative poems which incorporate thematic and rhetorical elements of the lyric, was responsible for a progressive redefinition of lyric poetry as a written medium and the emergence of an explicitly written literary tradition uniting lyric and narrative poetics. Huot first investigates the nature of the vernacular book in the thirteenth and fourteenth centuries, analyzing organization, page layout, rubrication, and illumination in a series of manuscripts. She then describes the relationship between poetics and manuscript format in specific texts, including works by widely read medieval authors such as Guillaume de Lorris, Jean de Meun, and Guillaume de Machaut, as well as by lesser-known writers including Nicole de Margival and Watriquet de Couvin. Huot focuses on the writers' characteristic modifications of lyric poetics; their use of writing and performance as theme; their treatment of the poet as singer or writer; and of the lady as implied reader or listener; and the ways

in which these features of the text were elaborated by scribes and illuminators. Her readings reveal how medieval poets and book-makers conceived their common project, and how they distinguished their respective roles.

Walter Brueggemann's unique gift of joining historical-exegetical insights to penetrating observations about the traumas and joys of contemporary life—both personal and social—is here forcefully displayed. Everyone who is familiar with his work knows the power of his speech about "doxological, polemical, political, subversive, evangelical faith: and about the ways such faith is enacted in the praise of ancient Israel and in the church. Readers of this book will find fresh insight into: the Psalms as prayer and praise—the categories of the Psalm—the social context in which psalms were prayed and sung—the theology of the Psalm—the dialogical character of the Psalms—justice and injustice in the Psalm—the study and "use" of the Psalms by the church—praise as an act of basic trust and abandonment—the impossible wonders of God's activity that overturn conventional ways of

"Controversial poetry played a crucial role in dealing with religious, political, and scholarly conflicts from 1400 until 1625. This volume analyses roles and functions of Latin, Italian, Dutch, German, Scots, and Hungarian poetry in specific historical controversies. A media theory of poetical impact is proposed by Franz-Josef Holzner and Dieuwke van der Poel. Levente Seláf, Philipp Steinkamp, and Guillaume van Gemert examine the genres sung in wars, and in rulers' controversies. Judith Kessler, Dirk Coigneau, Juliette Groenland, and Regina Töpfer analyse how female and male rhetoricians and humanists use verse in religious, municipal, and educational conflicts. Signe Rotter-Broman, Samuel Pakucs Willcocks, and Alasdair MacDonald explain how reception strategies can shape cultural and political
