Houghton Mifflin Harcourt  
Islamic Psychology or ilm an-nafs (science of the soul) is an important introductory textbook drawing on the latest evidence in the sub-disciplines of psychology to provide a balanced and comprehensive view of human nature, behaviour and experience. Its foundation to develop theories about human nature is based upon the writings of the Qur'an, Sunna, Muslim scholars and contemporary research findings. Synthesising contemporary empirical psychology and Islamic psychology, this book is holistic in both nature and process and includes the physical, psychological, social and spiritual dimensions of human behaviour and experience. Through a broad and comprehensive scope, the book addresses three main areas: Context, perspectives and the clinical applications of applied psychology from an Islamic approach. This book is a core text on Islamic psychology for undergraduate and postgraduate students and those undertaking continuing professional development in Islamic psychology, psychotherapy and counselling. Beyond this, it is also a good supporting

resource for teachers and lecturers in this field.

**ISLAMIC GOLDEN AGE**

Prometheus Books Exceedingly well organized and extensively documented...  
 .-CHOICEThe publication of the present anthology of primary sources and secondary studies on the theme of Muslim antisemitism is a groundbreaking event of major scholarly, cultural, and political significance.

Editor Andrew Bostom has mined the relevant literature to produce the fullest record on this subject in existence. After the publication of his work, all the oft-repeated, but erroneous misunderstandings of a tolerant Islam, and of a medieval Jewish-Muslim "golden age" will need to be permanently retired. Everyone interested in Jewish and Islamic history, as well as current events in the

Middle East, should read this book - and soon.- Steven T. Katz, Director, Elie Wiesel Center for Judaic Studies, Boston University, and author of Post-Holocaust Dialogues and The Holocaust in Historical ContextThe antisemitism of the Muslim Middle East that we hear, see, and experience daily - from the racist cartoons to the constant chorus of "pigs and apes" - is often

attributed to European origins, as if the radical Muslim world learned this endemic hatred through the tragedy of imperialism and colonialism. In fact, a deep suspicion and frequent loathing of Jews is deeply rooted in the Middle East, antedating European rule and sometimes evidenced in passages in the Koran and early holy Islamic texts.... Andrew Bostom produces a vast literature of Middle Eastern Islamic antisemitism, and critics may be as surprised at his conclusions as they are unable to refute his carefully compiled corpus of evidence.- Victor Davis Hanson, Senior Fellow, The Hoover Institution, Stanford University, author of Carnage and Culture and A War Like No Other This comprehensive, meticulously documented collection of scholarly articles presents indisputable evidence that a readily discernible, uniquely Islamic antisemitism-a specific Muslim hatred of Jews-has been expressed continuously since the advent of Islam. Debunking the conventional wisdom, which continues to assert that Muslim animosity toward Jews is entirely a 20th-century

phenomenon fueled mainly by the protracted Arab-Israeli conflict, leading scholars provide example after example of antisemitic motifs in Muslim documents reaching back to the beginnings of Islam. The contributors show that the Koran itself is a significant source of hostility toward Jews, as well as other foundational Muslim texts including the hadith (the

words and deeds of Muhammad as recorded by pious Muslim transmitters) and the sira (the earliest Muslim biographies of Muhammad). Many other examples are adduced in the writings of influential Muslim jurists, theologians, and scholars, from the Middle Ages through the contemporary era. These primary sources, and seminal secondary analyses translated here for the first time into

English—such as Hartwig Hirschfeld's mid-1880s essays on Muhammad's subjugation of the Jews of Medina and George Vajda's elegant, comprehensive 1937 study of the hadith—detail the sacralized rationale for Islam's anti-Jewish bigotry. Numerous complementary historical accounts illustrate the resulting plight of Jewish communities in the Muslim world across space and

time, culminating in the genocidal threat posed to the Jews of Israel today. Scholars, educators, and interested lay readers will find this collection an invaluable resource for understanding the phenomenon of Muslim antisemitism, past and present. FURTHER PRAISE FOR THE LEGACY OF ISLAMIC ANTISEMITISM :Stimulating and informative: a fascinating and disturbing voyage of

historical discovery.... It is magnificent.- Martin Gilbert, official biographer of Winston Churchill Author of Never Again: A History of the Holocaust and The Jews of Arab Lands: Their History in Maps[Boston's] eye-opening anthology should become an essential resource.- Ilan Stavans, Lewis-Sebring Professor in Latin American and Latino Culture and Five-

College 40th Anniversary Professor, Amherst College Dr. Andrew Bostom has written a *SUNNI & SHIA ISLAM* CHANGDER OUTLINE A country marked by controversy, Iran's social, cultural and political dynamics are too often reduced to a few misleading clichés. Islamism is widely considered to shape all social relations in Iranian society and, while

Iranian society is indeed Islamic, this term's multiple meanings in everyday life and practices go far beyond the naïve and monolithic idea we are used to. The Thousand and One Borders of Iran analyses travel as a social practice, exploring how diasporas, margins and so-called peripheries are central in the construction of a national identity and thus revealing the

complexities of Iranian history and society. Written by a leading anthropologist, it draws upon fieldwork carried out in Iran and Iranian migrant communities across Dubai, Tokyo and Los Angeles from 1998 to 2015. While casting new perspectives on the place of transnational relations in an increasingly globalized world, this work also sheds new light on the evolution of

Iranian society, countering the explanation furnished by nationalist ideology that has been reproduced by the Islamic Republic itself. Its unique approach to the analysis of Iranian society through the theme of travel and borders considers the links and even the quarrels between the centre of Iranian society and the periphery, and the foreign elements that have contributed to society's

development. Travel is key to these interactions and, following the travels of merchants and workers, students or the faithful, elected officials and experts, or exiles and refugees, this book offers an anthropological study of travel that re-thinks Iranian history and national identity. This book would be of interest to students and scholars of Iranian Studies, Middle Eastern Studies and Anthropology.

Over the past few decades, humanistic inquiry has been problematized and invigorated by the emergence of what is referred to as the digital humanities. Across multiple disciplines, from history to

literature, religious studies to philosophy, archaeology to music, scholars are tapping the extraordinary power of digital technologies to preserve, curate, analyze, visualize, and reconstruct their research objects. The study of the Middle East and the broader Islamic world has been no less impacted by this new paradigm. Scholars are making daily use of digital tools and

repositories including private and state-sponsored archives of textual sources, digitized manuscript collections, densitometric al imaging, visualization and modeling software, and various forms of data mining and analysis. This collection of essays explores the state of the art in digital scholarship pertaining to Islamic & Middle Eastern studies, addressing areas such as digitization,

visualization, text mining, databases, mapping, and e-publication. It is of relevance to any researcher interested in the opportunities and challenges engendered by this changing scholarly ecosystem. *Principles of Islamic Accounting* Princeton Review Your introduction to Islamic accounting Principles of Islamic Accounting is the first and

only text that covers the fundamentals of Islamic accounting in English. A comprehensive guide, this groundbreaking reference offers both insight into Islamic accounting best practices and disclosure for Shariah-compliant instruments. Covering everything from basic transaction analysis to the preparation of financial statements, this reference serves as a broad framework around which

undergraduate students can build their understanding of the Islamic business environment by offering context and showcasing how Islamic values can influence the disclosure of financial information. Islamic accounting is becoming an increasingly important aspect of the business field as globalization results in a surge in business partnerships and transactions around the

world. Today's students need to understand Islamic accounting principles in order to effectively work with professionals who adhere to these standards—and accessing this information via text in English was not possible until this revolutionary reference. Review the basics through an introduction to Islamic accounting. Understand the recording process, and how to

complete the accounting cycle and adjust accounts as necessary. Explore accounting for assets, liabilities, equity, and sukuk, as well as zakat and takaful accounting. Discover details regarding Islamic commercial law, accounting for Islamic financial institutions, and Islamic corporate governance and sustainability, and look at auditing from

an Islamic perspective	SAGE	between 700 and 1400 CE.
Principles of Islamic Accounting is an essential text for first-year university students who are studying Islamic accounting, as well as professional societies and organizations that support the use of Islamic accounting principles, such as The Islamic Finance Professionals Association.	From Musa al-Khwarizmi who developed algebra in 9th century Baghdad to al-Jazari, a 13th-century Turkish engineer whose achievements include the crank, the camshaft and the reciprocating piston, Science and Islam tells the story of one of history's most misunderstood yet rich and fertile periods in science: the extraordinary Islamic scientific revolution	<u>Cracking the AP World History Exam 2019, Premium Edition</u> Routledge PREMIUM PRACTICE FOR A PERFECT 5—WITH THE MOST PRACTICE ON THE MARKET!
