Jack Aubrey and Stephen Maturin are ordered home by dispatch vessel to bring the news of their latest victory to the government. But Maturin is a marked man for the havoc he has wrought in the French intelligence network in the New World, and the attentions of two privateers soon become menacing. The chase that follows is as thrilling and unexpected as anything O'Brian has written. Copyright © Libri GmbH. All rights reserved.

**Formula V** Oxford University Press Bridging the fields of conservation, art history, and museum curating, this volume contains the principal papers from an international symposium titled "Historical Painting Techniques, Materials, and Studio Practice" at the University of Leiden in Amsterdam, Netherlands, from June 26 to 29, 1995. The symposium—designed for art historians, conservators, conservation scientists, and museum curators worldwide—was organized by the Department of Art History at the University of Leiden and the Art History Department of the Central Research Laboratory for Objects of Art and Science in Amsterdam. Twenty-five contributors representing museums and conservation institutions throughout the world provide

recent research on historical painting techniques, including wall painting and polychrome sculpture. Topics cover the latest art historical research and scientific analyses of original techniques and materials, as well as historical sources, such as medieval treatises and descriptions of painting techniques in historical literature. Chapters include the painting methods of Rembrandt and Vermeer, Dutch 17th-century landscape painting, wall paintings in English churches, Chinese paintings on paper and canvas, and Tibetan thangkas. Color plates and black-and-white photographs illustrate works from the Middle Ages to the 20th century.

Madeleine L'Engle's ground-breaking science fiction and fantasy classic, now a major motion picture. It was a dark and stormy night; Meg Murry, her small brother Charles Wallace, and her mother had come down to the kitchen for a midnight snack when they were upset by the arrival of a most disturbing stranger. "Wild nights are my glory," the unearthly stranger told them. "I just got caught in a downdraft and blown off course. Let me sit down for a moment, and then I'll be on my way. Speaking of ways, by the way, there is such a thing as a tesseract." A tesseract (in case the reader doesn't know) is a wrinkle in time. To tell more would rob the reader of the enjoyment of Miss L'Engle's unusual book. *A Wrinkle in Time*, winner of the Newbery Medal in 1963, is the story of the adventures in space and time of Meg, Charles Wallace, and Calvin O'Keefe (athlete, student, and one of the most popular boys in high school). They are in search of Meg's father, a scientist who disappeared while engaged in secret work for the government on the

tesseract problem. *A Wrinkle in Time* is the winner of the 1963 Newbery Medal. It is the first book in *The Time Quintet*, which consists of *A Wrinkle in Time*, *A Wind in the Door*, *A Swiftly Tilting Planet*, *Many Waters*, and *An Acceptable Time*. *A Wrinkle in Time* is now a movie from Disney, directed by Ava DuVernay, starring Storm Reid, Oprah Winfrey, Reese Witherspoon and Mindy Kaling. Now pay attention, because this summary won't be easy to follow! All set? Here goes...The Agency has got its hands on the Intran neuronal 3000, the largest artificial brain ever created. To put the finishing touches on the programming started by Gabriel Lobe, the notorious computer scientist who is still on the run, Billy and Jon have to take a virtual trip aboard the train. To do this, they have to connect their consciousness to the machine and not worry about whether or not things are real...If the adventure were to go wrong, their consciousness would disappear

forever.

This is a literary history of international law in the age of Shakespeare, Milton, Grotius, and Hobbes. It tells the previously untold story of major English Renaissance writers who used literary genres like epic, tragedy, comedy, tragicomedy, and history to help create modern international law. Whereas international law's standard histories regularly omit literary figures and debates, Warren instead delights in the early modern contests over literary form that animated a range of major seventeenth century texts.

World War I gave colonial migrants and French women unprecedented access to the workplaces and nightlife of Paris. After the war they were expected to return without protest to their homes—either overseas or metropolitan. Neither group, however, was willing to be discarded. Between the world wars, the mesmerizing capital of France's colonial empire attracted denizens from Africa, the Caribbean, and the United States. Paris became not merely their home but also a site for political engagement. *Colonial Metropolis* tells the story of the interactions and connections of these black colonial migrants and white feminists in the social, cultural, and political world of interwar Paris and of how both were denied certain rights lauded by the Third Republic such as the vote, how they suffered from sensationalist depictions in popular culture, and how they pursued parity in ways that were often interpreted as politically subversive. This compelling book maps the intellectual and physical locales that the disenfranchised residents of Paris frequented, revealing where their stories intersected and how the personal and local became political and transnational. With a focus on art, culture, and politics, this study reveals how both groups considered themselves inhabitants of a colonial metropolis and uncovers the strategies they used to colonize the city. Together, through the politics of anti-imperialism, communism, feminism, and

masculinity, these urbanites connected performances of colonial and feminine tropes, such as Josephine Baker's, to contestations of the colonial system. [French Twentieth Bibliography](#) St.

Since 1950, the South has undergone the most dramatic political transformation of any region in the United States. The once Solid-meaning Democratic-South is now overwhelmingly Republican, and long-disenfranchised African Americans vote at levels comparable to those of whites. In *The Rational Southerner*, M.V. Hood III, Quentin Kidd, and Irwin L. Morris argue that local strategic dynamics played a decisive and underappreciated role in both the development of the Southern Republican Party and the mobilization of the region's black electorate. Mobilized blacks who supported the Democratic Party made it increasingly difficult for conservative whites to maintain control of the Party's machinery. Also, as local Republican Party organizations became politically viable, the strategic opportunities that such a change provided made the GOP an increasingly attractive alternative for white conservatives. Blacks also found new opportunities within the Democratic Party as whites fled to the GOP, especially in the deep South, where large black populations had the potential to dominate state and local Democratic Parties. As a result, Republican Party viability also led to black mobilization. Using the theory of relative advantage, Hood, Kidd, and Morris provide a new perspective on party system transformation. Following a theoretically-informed description of recent partisan dynamics in the South, they demonstrate, with decades of state-level, sub-state, and individual-level

data, that GOP organizational strength and black electoral mobilization were the primary determinants of political change in the region. The authors' finding that race was, and still is, the primary driver behind political change in the region stands in stark contrast to recent scholarship which points to in-migration, economic growth, or religious factors as the locus of transition. The Rational Southerner contributes not only to the study of Southern politics, but to our understanding of party system change, racial politics, and the role that state and local political dynamics play in the larger context of national politics and policymaking.

Même en vacances, pas de répit pour Mary Lester ! Mary Lester est en vacances à La Baule... Quoi de plus normal au mois d'août ? Seulement, ce sont des vacances un peu particulières : un patron de la police nantaise a demandé « quelqu'un qui ne fasse pas trop flic » pour s'infiltrer dans le monde particulier d'un golf privé dans lequel se passeraient des trafics peu catholiques. Voici donc le lieutenant Lester, bon gré, mal gré, déguisée en apprentie golfeuse. La tâche, si elle est périlleuse— le milieu qu'elle va devoir épier est particulièrement dangereux — n'est pas sans agréments : passer pour une étudiante, jouer sur un des golfs les plus prestigieux de France et de Navarre et, le reste du temps, bronzer sur la plus belle plage d'Europe en se faisant draguer par un charmant fils de famille, n'est guère rebutant. Seulement, il y a une chose à laquelle Mary n'a jamais su renoncer, c'est à chercher ce qui se cache derrière l'insolite. La mort de Victoire Leblond sur le green du trou numéro sept est-elle aussi naturelle qu'il

y paraît ? Comment l'homme aux doigts bleus peut-il, trois mois après sa mort, faire encore des victimes au golf du Bois Joli ? Découvrez le tome 7 des aventures de Mary Lester, une enquêtrice originale et attachante, dans ce polar breton à suspense ! CE QU'EN PENSE LA CRITIQUE "Habile, têtue, fine mouche, irrévérencieuse, animée d'un profond sens de la justice, d'un égal mépris des intrigues politiciennes, ce personnage attachant permet aussi une belle immersion, enquête après enquête, dans divers recoins de notre chère Bretagne." - Charbyde2, Babelio "Une enquête de Mary Lester, courageuse et obstinée, fidèle à elle-même, qui ravira ses fans ! Si vous n'avez jamais essayé les "polars bretons", c'est le moment, même si celui-ci ne se déroule pas en Bretagne !" - Nath56, Booknode "Je ne seurai dire pourquoi une fois un Mary Lester en main vous ne pouvez plus le quitter. Alors pour ne pas perdre cet envoûtement vous en entamez un autre à peine la dernière page du précédent fermée" - tana77, Babelio À PROPOS DE L'AUTEUR Cet ancien mareyeur breton devenu auteur de romans policiers a connu un parcours atypique ! Passionné de littérature, c'est à 20 ans qu'il donne naissance à ses premiers écrits, alors qu'il occupe un poste de poissonnier à Quimper. En 30 ans d'exercice des métiers de la Mer, il va nous livrer pièces de théâtre, romans historiques, nouvelles, puis une collection de romans d'aventures pour la jeunesse, et une série de romans policiers, Mary Lester. À travers Les Enquêtes de Mary Lester, aujourd'hui au nombre de cinquante-neuf et avec plus de 3 millions d'exemplaires vendus, Jean Failler montre son attachement à la Bretagne, et nous donne l'occasion de découvrir non seulement les divers paysages et

viles du pays, mais aussi ses réalités économiques. La plupart du temps basées sur des faits réels, ces fictions se confrontent au contexte social et culturel actuel. Pas de folklore ni de violence dans ces livres destinés à tous publics, loin des clichés touristiques, mais des enquêtes dans un vrai style policier.

*Dance on its Own Terms: Histories and Methodologies* anthologizes a wide range of subjects examined from dance-centered methodologies: modes of research that are emergent, based in relevant systems of movement analysis, use primary sources, and rely on critical, informed observation of movement. The chapters emphasize dance history and core disciplinary knowledge in three categories of significant dance activity:

performance and reconstruction, pedagogy and choreographic process, and notational and other written forms that analyze and document dance.

Conceptually, each chapter also raises concerns and questions that point to broadly inclusive methodological applications. Engaging and insightful, *Dance on its Own Terms* represents a major contribution to research on dance. *The Blues in the Mud* Oxford University Press, USA

Follows the humorous exploits of Sergeant Cornelius Chesterfield and Corporal Blutch, two cavalrymen in the Union army during the Civil War.
