The Buddha and His Dhamma was B.R. Ambedkar's last work. Published posthumously, it presented a radical reorientation of Buddhist thought and literature, aptly called navayana. It deals with Ambedkar's conceptualization of Buddhism and the possibilities it offered for liberation and upliftment of the Dalits. It presents his reflections on the life of the Buddha, his teachings, and the spread of Buddhism by interweaving anecdotes with detailed analyses of the religion's basic tenets. The author also includes important elements of the Buddhist canon and tradition to make the teachings more accessible. In the first critical and annotated edition of this work, the editors address the on-going debate on Ambedkar's interpretation of the Buddha's dhamma by focusing on the accuracy of his citations and providing missing sources. They also discuss Ambedkar's modification of source materials. The introduction contextualizes the scholarly work related to the text.

Edwin Carels and Zoe Beloff descend into the cinematographic caverns of spiritualism and the iconography of death, and renowned cartoonists including Ben Katchor depict their own visionary media fantasies. C'Lick Me: A Netporn Studies Reader is an anthology that collects the best material from two years of debate from The Art and Politics of Netporn 2005 conference to the 2007 C'Lick Me festival. The C'Lick Me reader opens the field of 'Internet pornography'. Based on non-conventional approaches and mixing academics, artists and activists, it reclaims a critical post-enthusiastic, post-censorship perspective on netporn, a dark field that has been dominated thus far by dodgy commerce and filtering. The C'Lick Me reader covers the rise of the netporn society from the Usenet underground to the blogosphere, analyses economic data and search engine traffic, compares sex work with the work of fantasy, disability and accessibility. The reader also expands the notion of digital desire beyond the predictable boundaries of the porn debate and depicts a broader libidinal spectrum ranging from fetish subcultures to digital alienation, from code pornography to war pornography. C'Lick Me concludes by re-contextualising queer discourse into a post-porn scenario.

Hindi popular cinema has played a key role as a national cinema because it assisted in the imagining of a unified India by addressing a public across the nation-to-be even before 1947. Examining the diverse elements that constitute the 'popular' in Indian cinema, M.K. Raghavendra undertakes, in this book, a chronological study of films to speculate on narrative conventions, thematic continuities, myths, archetypes, and other formal structures that inform it from its hesitant beginnings up to the 1990s. A significant contribution to film studies, the book makes crucial connections between film motifs and other aspects of culture, exploring the development of film narrative using the social history of India as a continuing frame of reference.

Netporn delves into the aesthetics and politics of sexuality in the era of do-it-yourself (DIY) Internet pornography. Katrien Jacobs, drawing on digital media theory and interviews with Web porn producers and consumers, offers an unprecedented critical analysis of Web culture as digital artistry and of the corresponding heightened government surveillance and censorship of the Internet. Netporn features Web users who question the goals of global commercial porn industries-whether they are engaged in Usenet fringes, video blogging, peer-to-peer distribution, porn art collectives, or decadent amateurism. Emphasizing gender and cultural differences, Jacobs shows how the creative uses of netporn images and services are important ways of exploring or redefining the 'network body' and indispensable ingredients of a maturing network society.

The Buddha and His Dhamma Harper Collins

During the decade of its existence in India, the multiplex cinema has been very much a sign of the times - both a symptom and a symbol of new social values. Indicative of a consistent push to create a 'globalised' consuming middle class and a new urban environment, multiplex theatres have thus become key sites in the long-running struggle over cultural legitimacy and the right to public space in Indian cities. This book provides the reader with a comprehensive account of the new leisure infrastructure arising at the intersection between contemporary trends in cultural practice and the spatial politics that are reshaping the cities of India. Exploring the significance, and convergence, of economic liberalisation, urban redevelopment and the media explosion in India, the book demonstrates an innovative approach towards the cultural and political economy of leisure in a complex and rapidly-changing society. Key arguments are supported by up-to-date and substantive field research in several major metros and second tier cities across India. Accordingly, this book employs analytical frameworks from Media and Cultural Studies, and from Urban Geography and Development Studies in a wide-ranging examination of the multiplex phenomenon.

Introducing Transformational Grammar Packt Publishing Ltd

This is the first work available in any language to extensively document and critically discuss traditions of 'Alid piety and their modern contestations in the region. The concept of 'Alid piety allows for a reframing of our views on the widespread reverence for 'Ali, Fatima and their progeny that emphasizes how such sentiments and associated practices are seen as part of broad traditions shared by many Muslims, which might or might not have their origins in a specifically Shi'a identity. In doing so, it facilitates the movement of academic discussions out from under the shadow of polemical sectarian discourses on 'Shi'ism' in Southeast Asia. The chapters include presentations of new material from previously unpublished early manuscript sources from Muslim vernacular literatures in the Malay, Javanese, Sundanese, Acehnese and Bugis languages, as well as rich new ethnography from across the region. These studies engage with cultural, intellectual, and performative traditions, as well as the ways in which 'Alid piety has been transformed in relation to more strictly sectarian identifications since the Iranian revolution in 1979.
