Women in the Civil Rights Movement Teachers Curriculum
Institute

This practical resource shows you how to apply Sam Wineburgs highly acclaimed approach to teaching, "Reading Like a Historian," in your middle and high school classroom to increase academic literacy and spark students curiosity. Chapters cover key moments in American history, beginning with exploration and colonization and ending with the Cuban Missile Crisis.

Viewpoints and Perspectives (Set) Akasha Classics

Created in partnership with scholars from the National Council for Geographic Education, *Geography Alive! Regions and People* creatively challenges students to use the tools of geography to view, analyze, and understand the world around them. Engaging Mapping Labs consist of geography challenges that spiral in difficulty. The program's cas-study approach turns kids into geographic thinkers.

The Story of Civilization New Leaf Publishing Group

What actions are justified when the fate of a nation hangs in the balance, and who can see the best path ahead? Julius Caesar has led Rome successfully in the war against Pompey and returns celebrated and beloved by the people. Yet in the senate fears intensify that his power may become supreme and threaten the welfare of the republic. A plot for his murder is hatched by Caius Cassius who persuades Marcus Brutus to support him. Though Brutus has doubts, he joins Cassius and helps organize a group of conspirators that assassinate Caesar on the Ides of March. But, what is the cost to a nation now erupting into civil war? A fascinating study of political power, the consequences of actions, the meaning of loyalty and the false motives that guide the actions of men, Julius Caesar is action packed theater at its finest.

Forward Looking Lessons in U.S. History Hippocrene Books

This document is a response to teachers' requests for practical assistance in implementing California's history-social science framework. The document offers stimulating ideas to enrich the teaching of history and social science, enliven instruction for every student, focus on essential topics, and help make learning more memorable. Experiences and contributions of ethnic groups and women in history are integrated in this course model. The framework is divided into 11 units: (1) Connecting with Past Learnings: Uncovering the Remote Past; (2) Connecting with Past Learnings: the Fall of Rome; (3) Growth of Islam; (4) African States in the Middle Ages and Early Modern Times; (5) Civilizations of the Americas; (6) China; (7) Japan; (8) Medieval Societies: Europe and Japan; (9) Europe During the Renaissance, the Reformation, and the Scientific Revolution; (10) Early Modern Europe: The Age of Exploration to the Enlightenment; and (11) Linking Past to Present. Six of the 11 units delineated in the framework's 7th grade course description are developed in these course models. All units follow the same format. Each begins with a rationale and overview. Ways are suggested for teachers to coordinate the model with the state-adopted textbook for 7th

grade. A presentation of activities to introduce and continue the sample topic are suggested to encourage students to apply what they have studied through projects. Each unit ends with an extensive annotated list of sample resources. (DK)

Jacaranda History Alive 9 Australian Curriculum 2E LearnON and Print Random House

Jacaranda History Alive 7 Australian Curriculum 2E LearnON and Print Scholastic Inc.

Grade 1: Invites students to discover relationships between plant and animal parts and their relationships - Grade 2: Introduces students to the diversity and interdependence of living things in ecosystems. Students compare the properties and functions of different kinds of matter and analyze the processes that shape Earth over long and short periods of time - Grade 3: Explores the variations in traits of different organisms and the factors in changing environments that affect survival today and in the past. Students quantify and predict weather conditions in different areas and at different times and investigate the effects of balanced and unbalanced forces on motion - Grade 4: Examines the functions of internal and external plant and animal structures in growth, reproduction and information processing. Students explore the roles weathering, erosion, and deposition in shaping Earth's surface. They analyze patterns in wave motion and how energy is transferred by sound, light, heat and electric currents - Grade 5: Guides students in understanding the role of decomposers, consumers and producers in a healthy ecosystem. They study the geosphere, hydrosphere, atmosphere and biosphere and learn how these systems interact. They develop models to examine patterns caused by the relative positions of Earth and the sun, and identify matter as particles of matter too small to be seen [descriptions from TCI website].

Latin Alive!, Book 1 McDougal Littell/Houghton Mifflin

The author is by turns ironic, facetious, deadpan, sarcastic, wry, and wisecracking.

Julius Caesar HarperCollins UK

The hauntingly prophetic classic novel. Over 1 million copies sold in the UK.

The Monument Jacaranda

History Alive! Pursuing American Ideals centers on the five founding ideals from the Declaration of Independence: equality, rights, liberty, opportunity, and democracy. Each generation has struggled with these ideals. Some have made little progress toward achieving them. Others have made great progress. This book invites students to become engaged in this struggle, from establishing an American republic to the making of modern America. --Website.

Educated Children's Press
