SIMMONS GEORGE	

What Nietzsche Really Said Melville House

This book provides a clear analysis of Nietzsche's controversial endorsement of conflict, struggle and war. It also elucidates many of his defining theories, including the will to power, the overman, and the eternal return.

Anti-Education Purdue University Press

Collected here in this omnibus edition are three of Nietzsche's three most important books: The Anti-Christ, Beyond Good and Evil, and Thus Spake Zarathustra, as well as The Philosophy of Friedrich Nietzsche by Henry Louis Mencken. A perfect book for new readers of Nietzsche or anyone hoping to understand his writing and philosophy more thoroughly. The Philosophy of Friedrich Nietzsche by Henry Louis Mencken was the first, and many believe the best book on the subject. Mencken was known for his attention to detail. This book is a must read for anyone who wishes to understand Nietzsche and his underlying philosophy. Thus Spake Zarathustra is a masterpiece of philosophical literature, and it is here that Nietzsche uttered the famous phrase "God is dead!" This powerful book spells out Nietzsche's belief in the will to power, and serves as an introduction to his doctrine of eternal return. One of the most influential books of philosophy ever written. Nietzsche writes with style, power, and conviction. In Beyond Good and Evil, Nietzsche attacks past philosophers for their alleged lack of critical sense and their blind acceptance of the Christian premises in their consideration of morality. The work attempts to moves "beyond good and evil" in the sense of leaving behind the traditional morality which Nietzsche subjects to a destructive critique in favor of what he regards as an affirmative approach that fearlessly confronts the perspectival nature of knowledge and the perilous condition of the modern individual. Here is Friedrich Nietzsche's great masterpiece The Anti-Christ, wherein Nietzsche attacks Christianity as a blight on humanity. This classic is essential reading for anyone wishing to understand Nietzsche and his place within the history of philosophy.

The Portable Nietzsche University of Chicago Press

In this volume is collected: Beyond Good and Evil, We Philologists and The Antichrist. Within these writings Nietzsche defines his refutation of the organized church and the supremacy of the human being. The role of the supreme human also shows up in here as Nietzsche continues to define his role.

Nietzsche: Daybreak Cambridge University Press

Throughout history, some books have changed the world. They have transformed the way we see ourselves—and each other. They have inspired debate, dissent, war and revolution. They have enlightened, outraged, provoked and comforted. They have enriched lives—and destroyed them. Now, Penguin brings you the works of the great thinkers, pioneers, radicals and visionaries whose ideas shook civilization, and helped make us who we are. Penguin's Great Ideas series features twelve groundbreaking works by some of history's most prodigious thinkers, and each volume is beautifully packaged with a unique type-drive design that highlights the bookmaker's art. Offering great literature in great packages at great prices, this series is ideal for those readers who want to explore and savor the Great Ideas that have shaped the world. One of the most iconoclastic thinkers of all time, Friedrich Nietzsche continues to challenge the boundaries of conventional religion and morality with his subversive theories of the 'superman', the individual will, the death of God and the triumph of an all-powerful human life force.

Nietzsche on Conflict, Struggle and War Yale University Press

This revised and expanded edition of Martin Heidegger's BASIC WRITINGS includes ten key essays plus the Introduction to BEING AND TIME. An essential collection, BASIC WRITINGS provides a concise introduction to the thought of this controversial and important 20th-century philosopher.

Nietzsche New York Review of Books

In exploring the manifestations of human spiritual experience both in the imaginative activities of the individual and in the formation of mythologies and of religious symbolism in various cultures, C. G. Jung laid the groundwork for a psychology of the spirit. The excerpts here illuminate the concept of the unconscious, the central pillar of his work, and display ample evidence of the spontaneous spiritual and religious activities of the human mind. This compact volume will serve as an ideal introduction to Jung's basic concepts. Part I of this book, "On the Nature and Functioning of the Psyche," contains material from four works: "Symbols of Transformation," "On the Nature of the Psyche," "The Relations between the Ego and the Unconscious," and "Psychological Types." Also included in Part I are "Archetypes of the Collective Unconscious" and "Psychological Aspects of the Mother Archetype." Part II, "On Pathology and Therapy," includes "On the Nature of Dreams," "On the Pathogenesis of Schizophrenia," and selections from "Psychology of the Transference." In Part III appear "Introduction to the Religious and Psychological Problems of Alchemy" and two sections of "Psychology and Religion." Part IV, called "On Human Development," consists of the essay "Marriage as a Psychological Relationship."

Hiking with Nietzsche University of North Carolina S

This book contains the first English translations of The Origin of the Moral Sensations and Psychological Observations, the two most important works by the German philosopher Paul Rée. These essays present Rée's moral philosophy, which influenced the ideas of his close friend Friedrich Nietzsche considerably. Nietzsche scholars have often incorrectly attributed to him arguments and ideas that are Rée's and have failed to detect responses to Rée's works in Nietzsche's writings. Rée's thinking combined two strands: a pessimistic conception of human nature, presented in the French moralists' aphoristic style that would become a mainstay of Nietzsche's own writings, and a theory of morality derived from Darwin's theory of natural selection. Rée's moral Darwinism was a central factor prompting Nietzsche to write On the Genealogy of Morals and the groundwork for much of today's "evolutionary ethics." In an illuminating critical introduction, Robin Small examines Rée's life and work, locating his application of evolutionary concepts to morality within a broader history of Darwinism while exploring Rée's theoretical and personal relationship with Nietzsche. In placing Nietzsche in his intellectual and social context, Small profoundly challenges the myth of Nietzsche as a solitary thinker.

Basic Writings of Nietzsche Cambridge University Press

These previously published essays discuss Nietzsche's influence on Arthur Schnitzler, Carl Sternheim, Georg Kaiser, Robert Musil, and Hermann Hesse. As a Festschrift, it also contains a tribute to Herbert W. Reichert and a bibliography of his writings.

Writings of Nietzsche: Penguin

Abstract images and simple poetry introduce children to basic ideas about themselves and the world they live in.

Why I Am So Wise Modern Library

A new edition of this important work of Nietzsche's 'mature' philosophy.

The Philosophy of Friedrich Nietzsche Modern Library

A prominent intellectual of the Weimar era, Heinrich Mann was a leading authority on Nietzsche. This volume consists of Mann's selections of highlights from the philosopher's works, along with an introduction that explains their significance to modern readers. Key excerpts from Nietzsche's books include passages from The Birth of Tragedy, Thoughts Out of Season, The Dawn of the Day, The Joyful Wisdom, Thus Spake Zarathustra, Beyond Good and Evil, The Genealogy of Morals, The Case of Wagner, Nietzsche Contra Wagner, The Twilight of the Idols, The Antichrist, Ecce Homo, and The Will to Power. For ease of reference, Mann has arranged the text in sections corresponding to Nietzsche's views on science, philosophy, and truth; his critiques of culture — the use and abuse of history, Europeans and Germans, Wagner, the genealogy of morals, and nihilism; his concept of the world without God, including the birth of tragedy out of the spirit of music, the true and the apparent world, and eternal recurrence; and his confessions.

The Basic Writings of C.G. Jung HarperCollins Publishers

NEW YORK TIMES Editors' Choice • THE TIMES BIOGRAPHY OF THE YEAR • WINNER OF THE HAWTHORNDEN PRIZE A groundbreaking new biography of philosophy's greatest iconoclast Friedrich Nietzsche is one of the most enigmatic figures in philosophy, and his concepts—the Übermensch, the will to power, slave morality—have fundamentally reshaped our understanding of the human condition. But what do most people really know of Nietzsche—beyond the mustache, the scowl, and the lingering association with nihilism and fascism? Where do we place a thinker who was equally beloved by Albert Camus, Ayn Rand, Martin Buber, and Adolf Hitler? Nietzsche wrote that all philosophy is autobiographical, and in this vividly compelling, myth-shattering biography, Sue Prideaux brings readers into the world of this brilliant, eccentric, and deeply troubled man, illuminating the events and people that shaped his life and work. From his placid, devoutly Christian upbringing—overshadowed by the mysterious death of his father—through his teaching career, lonely philosophizing on high mountains, and heart-breaking descent into madness, Prideaux documents Nietzsche's intellectual and emotional life with a novelist's insight and sensitivity. She also produces unforgettable portraits of the people who were most important to him, including Richard and Cosima Wagner, Lou Salomé, the femme fatale who broke his heart; and his sister Elizabeth, a rabid German nationalist and anti-Semite who manipulated his texts and turned the Nietzsche archive into a destination for Nazi ideologues. I Am Dynamite! is the essential biography for anyone seeking to understand history's most misunderstood philosopher.

Nietzsche, Life as Literature Tim Duggan Books

"We continue to live within the intellectual shadow cast by Nietzsche." —New York Times Book Review Best known for his seminal works on religion, morality, existentialism, and contemporary culture, such as The Birth of Tragedy and Thus Spoke Zarathustra, Nietzsche focuses his penetrating insight on assessing the nature of truth in this concise and highly readable collection that charts the great philosopher's writings on truth. Joining Heidegger's Basic Writings, The Essential Schopenhauer, and other books in the Harper Perennial Modern Thought series, On Truth and Untruth offers unprecedented access to "the most influential of the great philosophers" (New Yorker).

Modernism: The Lure of Heresy Penguin

AN NYRB Classics Original In 1869, at the age of twenty-four, the precociously brilliant Friedrich Nietzsche was appointed to a professorship of classical philology at the University of Basel. He seemed marked for a successful and conventional academic career. Then the philosophy of Schopenhauer and the music of Wagner transformed his ambitions. The genius of such thinkers and makers—the kind of genius that had emerged in

ancient Greece—this alone was the touchstone for true understanding. But how was education to serve genius, especially in a modern society marked more and more by an unholy alliance between academic specialization, mass-market journalism, and the militarized state? Something more than sturdy scholarship was called for. A new way of teaching and questioning, a new philosophy . . . What that new way might be was the question Nietzsche broached in five vivid, popular public lectures in Basel in 1872. *Anti-Education* presents a provocative and timely reckoning with what remains one of the central challenges of the modern world.

Nietzsche and the Burbs Oxford University Press on Demand

Paying particular attention to the issue of how to read Nietzsche, this book presents a series of accessible essays on the work of this influential German philosopher. The contributions include many of the leading Nietzsche scholars in the United States today - Frithjof Bergmann, Arthur Danto, Bernd Magnus, Christopher Middleton, Lars Gustaffson, Alexander Nehamas, Richard Schacht, Gary Shapiro, and Ivan Soll - and the majority of the essays have never been published. Works discussed include *On the Genealogy of Morals*, *Beyond Good and Evil*, *Thus Spoke Zarathustra*, *Twilight of the Idols*, and *The Will to Power*.

Basic Writings of Kant Modern Library

The first comprehensive interpretation of Nietzsche's *Thus Spoke Zarathustra*--an important and difficult text and the only book Nietzsche ever wrote with characters, events, setting, and a plot. Laurence Lampert's chapter-by-chapter commentary on Nietzsche's magnum opus clarifies not only Zarathustra's narrative structure but also the development of Nietzsche's thinking as a whole. "An impressive piece of scholarship. Insofar as it solves the riddle of Zarathustra in an unprecedented fashion, this study serves as an invaluable resource for all serious students of Nietzsche's philosophy. Lampert's persuasive and thorough interpretation is bound to spark a revival of interest in Zarathustra and raise the standards of Nietzsche scholarship in general."--Daniel W. Conway, *Review of Metaphysics* "A book of scholarship, filled with passion and concern for its text."--Tracy B. Strong, *Review of Politics* "This is the first genuine textual commentary on Zarathustra in English, and therewith a genuine reader's guide. It makes a significant and original contribution to its field."--Werner J. Dannhauser, Cornell University "This is a very valuable and carefully wrought study of a very complex and subtle poetic-philosophical work that provides access to Nietzsche's style of presenting his thought, as well as to his passionately affirmed values. Lampert's commentary and analysis of Zarathustra is so thorough and detailed. . . that it is the most useful English-language companion to Nietzsche's 'edifying' and intriguing work."--Choice Selected as one of Choice's outstanding academic books for 1988

The Selected Writings of Friedrich Nietzsche Routledge

No other modern philosopher has proved as influential as Friedrich Nietzsche (1844-1900) and none is as poorly understood. In the first new biography in decades, Rüdiger Safranski, one of the foremost living Nietzsche scholars, re-creates the anguished life of Nietzsche while simultaneously assessing the philosophical implications of his morality, religion, and art. Struggling to break away from the oppressive burdens of the

past, Nietzsche invented a unique philosophy based on compulsive self-consciousness and constant self-revision. As groundbreaking as it will be long-lasting, this biography offers a brilliant, multifaceted portrait of a towering figure.

Friedrich Nietzsche Collection W. W. Norton & Company

An Ars Technica Holiday Reading Title of 2021 A lively and approachable meditation on how we can transform our digital lives if we let a little Nietzsche in. Who has not found themselves scrolling endlessly on screens and wondered: Am I living or distracting myself from living? In *Emergency, Break Glass* adapts Friedrich Nietzsche's passionate quest for meaning into a world overwhelmed by "content." Written long before the advent of smartphones, Nietzsche's aphoristic philosophy advocated a fierce mastery of attention, a strict information diet, and a powerful connection to the natural world. Drawing on Nietzsche's work, technology journalist Nate Anderson advocates for a life of goal-oriented, creative exertion as more meaningful than the "frictionless" leisure often promised by our devices. He rejects the simplicity of contemporary prescriptions like reducing screen time in favor of looking deeply at what truly matters to us, then finding ways to make our technological tools serve this vision. With a light touch suffused by humor, Anderson uncovers the impact of this "yes-saying" philosophy on his own life—and perhaps on yours.

The Complete Works of Friedrich Nietzsche University of Illinois Press

Friedrich Nietzsche (1844-1900) is widely acknowledged as one of the greatest thinkers of the nineteenth century. His work continues to have a significant influence on philosophy, cultural criticism and modern intellectual history. The *Nietzschean Mind* seeks to provide a comprehensive survey of his work, not only placing it in its historical context but also exploring its contemporary significance. Comprising twenty-eight chapters by a team of international contributors, the volume is divided into seven parts: • Major works • Philosophical psychology and agency • The self • Value • Culture, society and politics • Metaphysics and epistemology • The affirmation of life This handbook includes coverage of all major aspects of Nietzsche's thought, including his discussions of value, culture, society, the self, agency, action, philosophical psychology, epistemology and metaphysics; explorations of the philosophical and scientific influences upon Nietzsche's thought; and discussion of Nietzsche's major works. Essential reading for students and researchers in philosophy, Nietzsche's work is central to ethics, moral psychology and political philosophy.

The Prince W. W. Norton & Company

Introduction by Allen W. Wood With translations by F. Max Müller and Thomas K. Abbott The writings of Immanuel Kant became the cornerstone of all subsequent philosophical inquiry. They articulate the relationship between the human mind and all that it encounters and remain the most important influence on our concept of knowledge. As renowned Kant scholar Allen W. Wood writes in his Introduction, Kant "virtually laid the foundation for the way people in the last two centuries have confronted such widely differing subjects as the experience of beauty and the meaning of human history." Edited and compiled by Dr. Wood, *Basic Writings of Kant* stands as a comprehensive summary of Kant's contributions to modern thought, and gathers together the most respected translations of Kant's key moral and political writings.
