<p>New General Mathematics for Junior Secondary Schools Catholic Biblical Quarterly</p> <p>Increasingly, scholars recognize that prophetic traditions, expressions, and experiences stand at the heart of most religions in the ancient Mediterranean world. This is no less true for the world of Judaism and Jesus. Ben Witherington III offers an extensive, cross-cultural survey of the broader expressions of prophecy in its ancient Mediterranean context, beginning with Mari, moving to biblical figures not often regarded as prophets Balaam, Deborah, Moses, and Aaron and to the apocalyptic seer in postexilic prophecy, showing that no single pattern describes all prophetic figures. The consequence is that different aspects of Jesus' activity touch upon prophetic predecessors: his miracles, on Elijah and Elisha; his self-understanding as the Son of Man, on Daniel and 1 Enoch; his warnings of woe and judgment, on the "writing prophets" in Judean tradition; and his messianic entry into Jerusalem, on Zechariah 9. Witherington also surveys the phenomenon of apocalyptic prophecy in early Christianity, including Paul, Revelation, the Didache, Hermas, and the Montanist movement. Jesus the Seer is a worthy complement to Witherington's other volume on Jesus, <i>Jesus the Sage</i> (Fortress Press, 2000).</p> <p><i>A New Dawn</i> Longman</p> <p>The classic study of primates.</p> <p><i>Mathematics Curriculum, Teacher Professionalism, and Supporting Policies in Korea and the United States</i> James Clarke & Company</p> <p>This is an African retelling of Euripides: an unnervingly topical story of a people and a beloved city destroyed by the brutality of war. The critical question of the relationship between Jesus and Paul has been well established in New Testament studies for over 150 years and it needs to be addressed with all the tools of historical criticism that scholarship has developed. So states Gerry Schoberg at the beginning of this new and important work that does just that. By coupling comparative instances in the gospels and the works attributed to Paul, Schoberg invites the reader to enquire more profoundly than in past studies as to the nature of the relationship between Jesus and the most dramatic of Christian converts. At the heart of this study is not only the question of whether the New Testament truly gives a unified vision of the Christian movement, but also how the early followers of Jesus felt able to draw such insightful conclusions about him? Answering such questions through the study of Jesus and Paul offer an insight as to how one is to make theological sense of the many details experienced from day to day and thereby live a life in Christ.
