**Rupert** Courier Dover Publications Excerpt from The Avery Collection of the Postage Stamps of the World I did nothing more in stamps until about 1878 when I commenced again with Lincoln's album, and was fortunate enough to fill up most of the blank spaces, and had a very good number of rare stamps. I was. However, very disgusted with this style of collecting when I paid a visit to the Birmingham Philatelic Society and saw

the method of arranging stamps on hinges and classifying perforations, and I finally decided, about 1887, to sell my collection again. I sold some portion, but as I saw some of the rarities go I changed my mind and began again with a good Senf album. As I filled up one country after another I began removing these into special albums. I had the opportunity of buying a good special collection of Australian stamps belonging to Mr. Bullock, of Australia, and added the Australian stamps I had before to these, and so made it into a much stronger and more perfect collection. ### *Elves & Fairies*

Follow the adventures of the world's most sought-after postage stamps—from a tropical Indian Ocean island to the hushed atmosphere of the modern auction room—in this dramatic and passionate tale of the first stamp hunters. In September 1847 colored squares of paper were stuck on to envelopes and used to send out admission cards to a fancy-dress ball on the tropical island of Mauritius. No one at the party would have guessed that these stamps would one day be worth more

than a million dollars. When a two-pence "Blue Mauritius" surfaced on the fledgling French stamp-collecting market in 1865 it gained instant celebrity. Soldiers, schoolboys, and the entire German nation became obsessed with finding one of these extremely rare examples. When in 1903 a perfect specimen, discovered in a childhood album, was bought at auction by the Prince of Wales, the Blue Mauritius gained superstar status. Even now, "Post Office Mauritius" stamps are synonymous with fame, wealth, and mystery. The most coveted scraps of paper in existence, this is their story—from their birth during days of sail, taking them from Port Louis to Bordeaux, India and Great Britain, Switzerland and Japan, into the hearts

and imagination of collectors everywhere.

**Constant Plate Varieties of the Two Dollars 'Red Gums of the Far North' Definitive Stamp**

An artists' book. For the month of "nothing new" (in which people are encouraged to reflect about consumption), the artist "used off-cuts and paper that would otherwise have gone into the waste bin." Multiple cut outs of each of the nine animals were hand-cut using different papers. Each one is individually different, as in nature. They are loosely inserted in transparent stamp album-like pockets, reflecting how many Australians often see their country's wild animals only as specimens in zoos.
