A #1 international bestseller in the vein of Fredrik Bachman's A Man Called Ove: an irresistible, funny, charming, and tender-hearted tale about friendship, love, and an old man who is young at heart. "FUNNY AND FRANK...A STORY WITH A GREAT DEAL OF HEART."--Graeme Simsion, New York Times bestselling author of THE ROSIE PROJECT Technically speaking, Hendrik Groen is...elderly. But at age 83 1/4, this feisty, indomitable curmudgeon has no plans to go out quietly. Bored of weak tea and potted geraniums, exasperated by the indignities of aging, Hendrik has decided to rebel--on his own terms. He begins writing an exposé: secretly recording the antics of day-to-day life in his retirement home, where he refuses to take himself, or his fellow "inmates," too seriously. With an eccentric group of friends he finds the wickedly anarchic Old-But-Not-Dead Club--"Rule #3: No Whining Allowed"--and he and his best friend, Evert, gleefully stir up trouble, enraging the home's humorless director and turning themselves into unlikely heroes. And when a sweet and sassy widow moves in next door, he polishes his shoes, grooms what's left of his hair, and determines to savor every ounce of joy in the time he has left, with hilarious and tender consequences. A bestselling phenomenon that has captured imaginations around the world, The Secret Diary of Hendrik Groen is inspiring, charming, and laugh-out-loud funny with a deep and poignant core: a page-turning delight for readers of any age.

Exploring how design can be used for good—prompting self-reflection, igniting the imagination, and affecting positive social change. Good design provides solutions to problems. It improves our buildings, medical equipment, clothing, and kitchen utensils, among other objects. But what if design could also improve societal problems by prompting positive ideological change? In this book, Bruce and Stephanie Tharp survey recent critical design practices and propose a new, more inclusive field of socially minded practice: discursive design. While many consider good design to be unobtrusive, intuitive, invisible, and undemanding intellectually, discursive design instead targets the intellect, prompting self-reflection and igniting the imagination. Discursive design (derived from “discourse”) expands the boundaries of how we can use design—how objects are, in effect, good(s) for thinking. Discursive Design invites us to see objects in a new light, to understand more than their basic form and utility. Beyond the different foci of critical design, speculative design, design fiction, interrogative design, and adversarial design, Bruce and Stephanie Tharp establish a more comprehensive, unifying vision as well as innovative methods. They not only offer social criticism but also explore how objects can, for example, be used by counselors in therapy sessions, by town councils to facilitate a pre-vote discussions, by activists seeking engagement, and by institutions and industry to better understand the values, beliefs, and attitudes of those whom they serve. Discursive design sparks new ways of thinking, and it is only through new thinking that our sociocultural futures can change.

By the close of the twentieth century, China had gathered secret information concerning United States military surveillance and guided-missile technology. Now, in 2005, the technology is in production in China's new breed of submarine-based long-range-missiles. The dragon has stirred. Admiral Arnold Morgan, the President's National Security Adviser, cannot sit back and wait for China to perfect its new ballistic weapon. He dispatches the most lethal hunter-killer submarine in the fleet, "Seawolf," deep into the China Sea. "Seawolf" eludes the Chinese until a catastrophic accident suddenly puts the U.S. submarine at their mercy; the crew vanishes, plainly captive. At the risk of starting World War III, Admiral Morgan orders the elite Navy SEALs to rescue the Americans at all costs. Under cover of darkness, the SEALs move into the forbidden waters of the South China Sea. Their orders are brutal: Do whatever it takes. Failure, unthinkable. "U.S.S. Seawolf" is epic in its sweep, meticulous in its authenticity, and breathtaking in its pacing. It is a terrifying and thrilling tale for our times. Copyright © Libri GmbH. All rights reserved.

The romantic lyricism of the great Persian poet Hafiz (1315-1390) continues to be admired around the world. Recent exploration of that lyricism by Iranian scholars has revealed that, in addition to his masterful use of poetic devices, Hafiz's verse is deeply steeped in the philosophy and symbolism of Persian love mysticism. This innovative volume discusses the aesthetic theories and mystical philosophy of the classical Persian love-lyric (ghazal) as particularly exemplified by Hafiz (who, along with Rumi and Sa'di, is Persia's most celebrated poet). For the first time in western literature, Hafiz's rhetoric of romance is situated within the broader context of what scholars refer to as 'Love Theory' in Arabic and Persian poetry in particular and Islamic literature more generally. Contributors from both the West and Iran conduct a major investigation of the love lyrics of Hafiz and of what they signified to that high culture and civilization which was devoted to the School of Love in medieval Persia. The volume will have strong appeal to scholars of the Middle East, medieval Islamic literature, and the history and culture of Iran.

*The Secret Diary of Hendrik Groen* Little, Brown Spark

Bob Lee Swagger, former Marine Corps sniper, is back. And this time, it's personal. Forced off the road and into a crash that leaves her in a coma, barely clinging onto life, journalist Nikki Swagger had been investigating reports of a crystal meth superlab in sleepy Tennessee, when she found herself inadvertently peeling back the layers on a huge conspiracy. Bob Lee Swagger is worried. As a former Marine Corps sniper, he's picked up more than his fair share of enemies hell-bent on revenge and he senses that something isn't right. Unconvinced by the Sheriff's conclusion that Nikki's crash was caused by a local kid high on Meth, Bob picks up the investigation where his daughter left off. As Swagger digs deeper, a violent crime clan, gunmen of all stripes and shapes, and deranged evangelicals all rear their ugly heads, but they will live to rue the day they targeted the wrong man's daughter. What people are saying about Bob Lee Swagger thrillers: 'Stephen Hunter's I, Sniper brings back one of the great characters in modern thrillerdom, Bob Lee Swagger, everyone's favourite lethal, dour Southerner. I kind of want Swagger to meet up with Lee Child's Jack Reacher one day, in a contest to see who could say the least while doing the most damage.' Malcolm Gladwell 'The tension never lets up' New York Times 'Stephen Hunter is an Elmore Leonard on steroids' John Sandford 'As all Bob Lee fans know, it comes down to 'straight killing time.' And so it does, in a ramped-up, high-tech High Noon finale. As always, Hunter makes it work with precise, detail-rich prose that strips the faux glamour from gun fighting and leaves only the skills of the combatants set against the horrors they wreak.' Booklist 'Hunter is back at the top of his game.' Publisher's Weekly 'In his guns-a-poppin' latest, Hunter pits his series hero against a nest of sharp-shooting vipers. Dust off the OK Corral. Even the somewhat squeamish, and even

certifiable gun-dummies, may once again find chivalric, heroic Bob Lee just about irresistible.' Kirkus Reviews 'Hunter's thrillers are always taut, exciting, and well written, and his latest is no exception. There's also a lot of gun and tech talk as Swagger uses decades' worth of skills to stay a step or three ahead of the baddies. Swagger fans will not be disappointed.' Library Journal 'Hunter has a unique writing style that thrills and captivates from the opening scene to deliver an exciting whodunit' The Sun 'Stories of passion, guilt and redemption that jump right off the page and smack the reader clean between the eyes' Independent on Sunday 'American hardboiled at its very best, full of taciturn and stoical characters and plotting in explosive overdrive' The Times 'Hunter choreographs the violence in steely prose and Swagger ... remains one of crime fiction's most engaging heroes' Irish Independent

"Climate change differs from any other problem that, as collective humanity, we face today. If it goes unchecked, the consequences are likely to be catastrophic for human life on earth. Yet for most people, and for many policy-makers too, it tends to be a 'back of the mind' issue. ... [This book] argues controversially, we do not have a systematic politics of climate change. Politics-as-usual won't allow us to deal with the problems we face, while the recipes of the main challenger to orthodox politics, the green

General George Crook planned and organized the principal Apache campaign in Arizona, and General Nelson Miles took credit for its successful conclusion on the 1800s, but the men who really won it were rugged frontiersmen such as Al Sieber, the renowned Chief of Scouts. Crook relied on Sieber to lead Apache scouts against renegade Apaches, who were adept at hiding and raiding from within their native terrain. In this carefully researched biography, Dan L. Thrapp gives extensive evidence for Sieber's expertise, noting that the expeditions he accompanied were highly successful whereas those from which he was absent met with few triumphs. Perhaps the greatest tribute to his abilities was paid by a San Carlos Apache who, no matter how miserable life might become, because, he said, Sieber would find him even if he left no tracks.

Created in 1911, eurythmy was developed for years as an artistic and educational discipline. Although Rudolf Steiner pointed out its healing aspects from the very beginning, it was only in 1921 that he gave a course of lectures that gave the art of eurythmy a vital

new application. To the assembled eurythmists and doctors, he presented what one participant described as '...a complete and detailed method of eurythmy therapy, in which we could directly experience that even today the creative and therapeutic power of the word ... is still at work'. Steiner's comprehensive lectures, republished here in a thoroughly revised translation, describe the principles of therapeutic eurythmy, giving many specific exercises. Primarily intended for practising eurythmists, these lectures also contain much material of particular interest. Steiner reveals the intricacies of rhythmic interplay between human physiology and the life-forces in the world around us. He describes the qualities of language and the dynamism contained in the individual vowels and consonants, elucidating their relationship with eurythmical movements and human experience. Through such movements, individuals are able to access the healing etheric forces. The exercises, referred to by Steiner as 'inner gymnastics', contain enormous potential for psychological and physiological well-being. Gaining ever-wider recognition today, they complement conventional medicine, offering a therapeutic process concerned with mind, soul and body. This new edition of these important lectures - previously published under the title *Curative Eurythmy* - includes an appendix with reminiscences by early eurythmists, as well as additional commentary from Dr Walter Kugler.
