British adolescent angst has never been so "laugh-out-loud funny" as in this first encounter with a sharp-witted, pining, and achingly honest underdog (The New York Times). Perhaps when I am famous and my diary is discovered, people will understand the torment of being a 13^{3/4}-year-old undiscovered intellectual. Adrian Mole is approaching fourteen, and like all radical intellectuals he must amass his grievances: His acne vulgaris is grotesque; his crush, Pandora, received seventeen Valentine's Day cards; his PE teacher is a sadist; he fears his parents' marriage is over since they no longer smoke together; his dog has gone AWOL; no one appreciates his poetry; and Animal Farm has set him off pork for good. If everyone were as appalled as Adrian Mole, it would be a better world. Introducing "one of literature's most endearing figures": a luckless adolescent of great expectations and dwindling patience who knows all—or

believes he does—and tells all (The Observer). First published in 1982, Adrian's chronicle of angst has sold more than twenty million copies worldwide, spawned seven sequels, and been adapted for television and staged as a musical. Here's where it all began.

Publishing is currently going through dramatic changes, from globalisation to the digital revolution. A whole culture of events, practices and processes has emerged centred around books and writing, which means that scholars of publishing need to understand it as a social and cultural practice as much as it is a business. This book explores the culture, practice and business of book production, distribution, publication and reception. It discusses topics as diverse as emerging publishing models, book making, writers' festivals, fan communities, celebrity authors, new publishing technologies, self-publishing, book design and the role of class, race, gender and sexuality in

publishing or book culture. This volume will be of interest to those in the disciplines of publishing studies, creative writing, English literature, cultural studies and cultural industries.

English Plus, Level 1 Pearson Longman
From foundations in critical thinking skills to practical tools and real-life perspectives, this book empowers young adult readers to be independent media users. During the recent presidential election, "media literacy" became a buzzword that signified the threat media manipulation posed to democratic processes. Meanwhile, statistical research has shown that 8 to 18 year-olds pack more than eleven hours with some form of media into each day by "media multitasking." Young people are not only eager and interested to learn about and discuss the realities of media ownership, production, and distribution, they also deserve to understand differential power structures in how media influences our culture. The Media and Me provides readers with the tools and perspectives to be empowered and autonomous media users. The book explores critical inquiry skills to help young people form a

multidimensional comprehension of what they read and watch, opportunities to see others like them making change, and insight into their own identity projects. By covering topics like storytelling, building arguments and recognizing fallacies, surveillance and digital gatekeeping, advertising and consumerism, and global social problems through a critical media literacy lens, this book will help students evolve from passive consumers of media to engaged critics and creators. The Media and Me is a joint production of The Censored Press and Triangle Square Books for Young Readers.
