The critical work examines the vampire as a spiritual figure-- whether literal or metaphorical-- analyzing how the use of the vampire in literature has served to convey both a human sense of alienation

from the divine and a desire to overcome that alienation. While expressing isolation, the vampire also represents the transcendent agent through which individuals and societies must confront questions about innate good or evil, and belief in the divine and the afterlife. Textual experiences of the numinous in the form of the vampire propel the subject on a spiritual journey involving both

psychological and religious qualities. Through this journey, the reader and the main character may begin to understand the value of their existence and the divine. A variety of works, poetry and fiction by British and American authors, is discussed, with particular concentration on Coleridge's "The Rime of the Ancient Mariner," Bram Stoker's *Dracula*, and Anne Rice's *Vampire Chronicles*, as

representative of the Romantic, Victorian, and late twentieth century periods of literature. A conclusion looks at the future of the literary vampire. Horror and Religion Nicole Edwards Limited Central to every vampire story is the undead's need for human blood, but equally compelling is the human ingestion of vampire blood, which often creates a bond. This blood connection suggests two primal, natural desires: breastfeeding and communion with God through a blood covenant. This analysis of vampire stories explores the benefits of the bonding experiences of breastfeeding and Christian and vampire narratives, arguing that modern readers and viewers are drawn to this genre because of our innate fascination with the relationship between human and maker. The Vampire as Numinous Experience Rowman & Littlefield Get out of Hell free card? Not for Callie Delgado, Gem City's newest soul charmer. Sin and salvation collide in this gritty and action-packed urban fantasy. Callie's magic is finally her own. She and Derek dispatched Ford. They should have been able to breathe, but layers of sin run deep beneath Gem

City. Another mob boss quickly rises, and his sights are firmly set on Callie--and her family. Mobile soul rental shops begin to bite at the Soul Charmer's business. His retribution is wicked, but the blowback threatens to crush Callie. If she can't maintain the tenuous balance of souls in Gem City, more lives will be lost. Only the more magic she uses, the more danger finds her. A break-in, pools of blood, and

bare shelves at the Soul Charmer's store force Callie to choose the fates of others. But which can she live with? Losing her city, her love, her family ...or her very soul? **Vampires in Their Own Words** Love Spell Since 1968's Night of the Living Dead, zombie culture has steadily limped and clawed its way into the center of popular culture. Today, zombies and vampires have

taken over TV shows, comic books, cartoons, video games, and movies. Zombies, Vampires, and Philosophy drags the theories of famous philosophers like Socrates and Descartes into the territory of the undead, exploring questions like: Why do vampires and vegetarians share a similar worldview? Why is understanding zombies the key to health care reform? And what does "healthy in

mind and body" mean for vampires and zombies? Answers to these questions and more await readers brave enough to make this fun, philosophical foray into the undead.

In the 1860s and 1870s, leading neurologists used animal experimentation to establish that discrete sections of the brain regulate specific mental and physical functions. These discoveries

had immediate medical benefits: David Ferrier's detailed cortical maps, for example, saved lives by helping surgeons locate brain tumors and haemorrhages without first opening up the skull. These experiments both incited controversy and stimulated creative thought, because they challenged the possibility of an extra-corporeal soul. This book examines the

cultural impact of neurological experiments on late-Victorian Gothic romances by Robert Louis Stevenson, Bram Stoker, H. G. Wells and others. Novels like Dracula and Dr Jekyll and Mr Hyde expressed the deep-seated fears and visionary possibilities suggested by cerebral localization research, and offered a corrective to the linearity and objectivity of late Victorian

neurology.

Eternal Stephenie Meyer's Twilight saga has maintained a tight grip on the contemporary cultural imagination. This timely and critical work examines how the Twilight series offers addictively appealing messages about love, romance, sex, beauty and body image, and how these charged themes interact with cultural issues regarding race, class, gender and

sexuality. Through a careful analysis of the texts, the fandom and the current socio-historical climate, this work argues that the success of the Twilight series stems chiefly from Meyer's negotiation of cultural mores.

these Loveswept titles: Along Came Trouble, Hero of My Heart, and Arrested by Love. Partnering with God Books That Rock Horror is not something we create, nor is it something that jumps out of a closet in a dark room at an ungodly hour. Horror is not something which always advertises its presence with things falling down, windows banging shut or lights going off. It is something far

more subtle, more real, more sinister like your shadow, imagine if it were to grow in length every day even if you stood at the same spot, at the same time of the day and when the lighting is similar. The shadow that grows like a cloak on your back on a day by day basis proportionate to the debauchery and evil you engage in, until it grows to such an extent that it engulfs you, sunlight is

blotted out of your life and you are condemned to live in eternal darkness, is the essence of horror. Something that enters your life as a small vice, stays on as a companion, then grows as a master in whose clutches you are until it obliterates "you". Horror is that which will sink deep roots into your subconscious and change you from within to such an extent that you will appear alien to yourself.

Every thousand years, a plague ravages the vampire population, bringing them to near extinction. In forty-eight hours, a virus will turn all vampires into their true chronological age and kill them all, unless the right woman is sacrificed. It is a ritual that vampire Raphael has made before. Every millennium,

he finds the perfect woman and seduces her so thoroughly that she willingly gives her own life and soul to save his kind. But only once in six thousand years has he fallen in love with his victim... Then he sees Evaline St. Croix at a Mardi Gras costume party and feels the same raw need he felt for Isabeau. Eva feels an instant connection to Raphael, too, as if they've known each

other forever. His voice and touch bring strange memories to her mind...and an explosive desire to her body. Could Eva be the reincarnation of Raphael's lost love? And if she is, has he found her again only to lose her once more?
