Children are inherently
musical. They respond to
music and learn through
music. Music expresses
children's identity and
heritage, teaches them to
belong to a culture, and
develops their cognitive
well-being and inner self
worth. As professional
instructors, childcare
workers, or students
looking forward to a
career working with
children, we should
continuously search for
ways to tap into children's
natural reservoir of
enthusiasm for singing,
moving and
experimenting with
instruments. But how, you
might ask? What music is
appropriate for the
children I'm working with?
How can music help
inspire a well-rounded
child? How do I reach and
teach children musically?
Most importantly perhaps,

how can I incorporate music into a curriculum that marginalizes the arts? This book explores a holistic, artistic, and integrated approach to understanding the developmental connections between music and children. This book guides professionals to work through music, harnessing the processes that underlie music learning, and outlining developmentally appropriate methods to understand the role of music in children's lives through play, games, creativity, and movement. Additionally, the book explores ways of applying music-making to benefit the whole child, i.e., socially, emotionally, physically, cognitively, and linguistically.

Bill Evans Omnibook for Piano Hal Leonard Publishing Corporation

This collaborative cantata looks at the Christmas story through the eyes of first-hand witnesses, who share their unique perspectives on the miraculous birth of Jesus. Zechariah, Mary, Joseph, a shepherd, a wise man, and the aged saint Simeon all share their stories through dramatic monologues. A blend of original and familiar carols provides a dramatic sonic

backdrop for these inspiring stories. Ed Hogan's stunning orchestration makes this piece a versatile work that can be presented equally well with piano only or with full orchestral accompaniment, and the optional inclusion of congregational singing of familiar carols ensures a meaningful worship experience for the entirety of the congregation.

How Lovely Is Thy Dwelling Place (from "Requiem") Hal Leonard Corporation

"Over the Rainbow" exploded into worldwide fame upon its performance by Judy Garland in the MGM film musical *The Wizard of Oz* (1939). Voted the greatest song of the twentieth century in a 2000 survey, it is a masterful, delicate balance of sophistication and child-like simplicity in which composer Harold Arlen and lyricist E. Y. "Yip" Harburg poignantly captured the hope and anxiety harbored by Dorothy's character. In Arlen and Harburg's *Over the Rainbow*, author Walter Frisch traces the history of this song from its inception during the development of *The Wizard of Oz*'s screenplay,

to its various reinterpretations over the course of the twentieth century. Through analysis of the song's music and lyrics, this Oxford Keynotes volume provides a close reading of the piece while examining the evolution of its meaning as it traversed widely varying cultural contexts. From its adoption as a jazz standard by generations of pianists, to its contribution to Judy Garland's role as a gay icon, to its reemergence as a chart-topping recording by Hawaiian singer Israel Kamakawiwo'ole, "Over the Rainbow" continues to engage audiences and performers alike in surprising ways. Featuring a companion website with audio and video supplements, this book leaves no path unexplored as it succeeds in capturing the extent of this song's impact on the world.

The main purpose of the book is to explore basic music theory so thoroughly that the interested student will then be able to easily pick up whatever further theory is wanted. Music history and the physics of

sound are included to the extent that they shed light on music theory. The main premise of this course is that a better understanding of where the basics come from will lead to better and faster comprehension of more complex ideas. It also helps to remember, however, that music theory is a bit like grammar. Catherine Schmidt-Hones is a music teacher from Champaign, Illinois and she has been a pioneer in open education since 2004. She is currently a doctoral candidate at the University of Illinois in the Open Online Education program with a focus in Curriculum and Instruction.
