Access to History for the IB Diploma: The Cold War and the Americas 1945-1981 Second Edition

Hodder Education
In the years of and around the First World War, American poets, fiction writers, and dramatists came to the forefront of the international movement we call Modernism. At the same time a vast amount of non- and anti-Modernist culture was produced, mostly supporting, but also critical of, the US war effort. A History of American Literature and Culture of the First World War explores this fraught cultural moment, teasing out the multiple and intricate relationships between an insurgent

Modernism, a still-powerful traditional culture, and a variety of cultural and social forces that interacted with and influenced them. Including genre studies, focused analyses of important wartime movements and groups, and broad historical assessments of the significance of the war as prosecuted by the United States on the world stage, this book presents original essays defining the state of scholarship on the American culture of the First World War.

The First World War, 1914-18 Hodder Murray

Is peace an aberration? The New York Times bestselling author of *Paris 1919* offers a provocative view of war as an essential component of humanity. NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW “Margaret MacMillan has produced another seminal work. . . . She is right that we must, more than ever, think about war. And she has shown us how in this brilliant, elegantly written book.”—H.R. McMaster, author of *Dereliction of Duty* and *Battlegrounds: The Fight to Defend the Free World* The instinct to fight may be innate in human nature, but war—organized violence—comes with organized society. War has shaped humanity’s history, its social and political institutions, its values and ideas. Our very language, our public spaces, our private memories, and some of our greatest cultural treasures reflect the glory and the misery of war. War is an uncomfortable and challenging subject not least because it brings out both the vilest and the noblest aspects of humanity. Margaret MacMillan looks at the ways in which war has influenced human society and how, in turn, changes in political organization, technology, or ideologies have affected how and why we fight. *War: How Conflict Shaped Us* explores such much-debated and controversial questions as: When did war first start? Does human nature doom us to fight one another? Why has war been described as the most organized of all human activities? Why are warriors almost always men? Is war ever within our control? Drawing on lessons from wars throughout the past, from classical history to the present day, MacMillan reveals the many faces of war—the way it has determined our past, our future, our views of the world, and our very conception of ourselves.

Access to History for the IB Diploma: The move to global war Study and Revision Guide Hodder Education

This ambitious 2005 volume is a history of war, from the standpoint of international law, from the beginning of history to the present day. Its primary focus is on legal conceptions of war as such, rather than on the substantive or technical aspects of the law of war. It tells the story, in narrative form, of the interplay, through the centuries, between, on the one hand, legal ideas about war and, on the other hand, state practice in warfare. Its coverage includes reprisals, civil wars, UN enforcement and the war on terrorism. This book will interest historians, students of international relations and international lawyers.

Access to History: Lancastrians, Yorkists and the Wars of the Roses, 1399-1509, Third Edition Hachette UK

Their very names--Gettysburg, Waterloo, Stalingrad--evoke images of great triumph and equally great suffering, moments when history seemed to hang in the balance. Considered in relation to each other, such battles--and others of less immediate renown--offer insight into the changing nature of armed combat, advances in technology, shifts in strategy and thought, as well as altered geopolitical landscapes. The most significant military engagements in history define the very nature of war. In his newest book, Richard Overy plumbs over 3,000 years of history, from the Fall of Troy in 1200 BC to the Fall of Baghdad in 2003, to locate the 100 battles that he believes the most momentous. Arranged by themes such as leadership, innovation, deception, and courage under fire, Overy presents engaging essays on each battle that together provide a rich picture of how combat has changed through the ages, as well as highlighting what has remained consistent despite advances in technology. The battles covered here offer a wide geographic sweep, from ancient Greece to China, Constantinople to Moscow, North to South America, providing a picture of the dominant empires across time and context for comparison between various military cultures. From familiar engagements like Thermopylae (480 BC), Verdun (1916), and the Tet Offensive (1968) to lesser-studied battles such as Zama (202 BC), Arsuf (1191), and Navarino Bay (1827), Overy presents the key actors, choices, and contingencies, focusing on those details--sometimes overlooked--that decided the battle. The American victory at the Battle of Midway, for example, was determined by only ten bombs. It was, as Wellington said of Waterloo, a "near run thing." Rather than focusing on the question of victory or defeat, Overy examines what an engagement can tell us

on a larger level about the history of warfare itself. New weapons and tactics can have a sudden impact on the outcome of a battle--but so too can leadership, or the effects of a clever deception, or

raw courage. Overy offers a deft and visually captivating look at the engagements that have shaped the course of human history, and changed the face of warfare.
