This book is a must-read for every language teaching professional and researcher working in a multilingual context. Multilingualism and Education in Africa: The State of the State of the Art is an up-to-date exploration and wide-ranging review of the symbiotic relationship between multilingualism and education in Africa. The African continent is rich in languages. Most of her inhabitants are multilingual and many of the nations have embraced multilingual education. This book examines multilingualism in education from three broad perspectives: multilingualism and language in education policy in Africa; multilingualism as an educational resource in Africa; and attitudes and challenges of multilingualism and education in Africa. The book's nineteen chapters discuss these three perspectives from East, West, Central and South Africa. All the contributors are leading authorities in multilingualism and education. The chapters combine a wide range of viewpoints based on theoretical, empirical and personal experiences. The reader is left with a deeper understanding of the unique features of multilingualism and education in Africa that have seldom been addressed by those who experience them first-hand. The book demonstrates successful practices in multilingualism and education; showing how African nations have determined what works for them without ignoring challenges such as policies on paper, attitudes towards African languages and limited resources. The benefits of multilingual education override the challenges. The book's extensive coverage makes it an important resource for scholars and policy makers in the field of multilingualism and education. Overall, this book represents an important contribution to an important subject in education globally. The editors have

provided an introductory overview to the book and commentaries on the three sections.

**New Statesman and Nation** National Academies Press

Volumes for 1971- include: Full text of the charter of the Organization of African Unity.

International Handbook of Universities UNESCO

Formal education is beginning to reflect an increase in environmental concern.

Drawing on case studies, the authors explain how this subject can best be implemented at classroom level.

**Directory of U.S. International Health Organizations** Cambridge University Press

Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool

for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

**Library Association Record** Routledge Vols. for 19 - include a separate section called GM; news and reviews.

**Dictionary of African Biography** Grove's Dictionaries

Proceedings of the 22d-33d annual conference of the Library Association in v. 1-12; proceedings of the 34th-44th, 47th-57th annual conference issued as a supplement to v. 13-23, new ser. v. 3-ser. 4, v. 1.
