Providing a clear explanation of the relevant medical science behind the individual medical specialties, Basic Science for Core Medical Training and the MRCP, is an indispensable part of a candidate's MRCP preparation. Directly linked to the Royal College exam, the book follows the same systems-based approach as the syllabus for accurate and effective revision. With full coverage of basic science for the medical specialities, the book features material on genetics, cellular, molecular and membrane biology, and biochemistry. Content is presented in an illustrated and easy-to-read format, ensuring that the basic science for each medical

specialty is more approachable and accessible. A focus on how the basic sciences aid understanding of clinical practice is reinforced through key tables of differential diagnoses and pharmacology. Ten multiple choice questions at the end of each chapter consolidate learning and enable candidates to test their knowledge. The book also covers common examination errors and areas of misunderstanding to aid learning and help candidates avoid common pitfalls.

This book was issued, in 2005, in response to the demands of competent pharmacists who are desperate to develop their career. It represents the experience of years of practice or hospital pharmacy in more than five middle east countries. The aim is to provide practical advice, exercise and an assessment tool to improve the profession or hospital pharmacy. Because of the nature of the information, this book is intended at first to be distributed only to fellow hospital pharmacists then if inspired by further acceptance, it may be handled and exploited by other healthcare professionals as well. The majority of the information is focused at real subjective situations encountered in every day practice. Every effort has been made to ensure that the information contained in this book is correct, but no liability can be accepted for any inaccuracies or mis-statements of fact contained herein and any feedback is very welcomed. I hope that you will find this book useful and enjoyable as well. Emad I. Hammouda, RPh March, 2005
