Budget 2006 is about focusing on priorities. It delivers real results for people in a focused and fiscally responsible way. As the measures outlined in this plan make clear, this budget makes federal spending more transparent, accountable and disciplined, while creating greater opportunity for Canadians, investing in our families and communities, and making our streets safer and our borders more secure. It also delivers more tax relief than the last four federal budgets combined - putting more than twice as much into tax relief than new spending. Budget 2006 also provides a framework for discussion to restore fiscal balance in Canada, based on fundamental principles all Canadians can support.

Congressional Record Penguin Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing

homeland security, and reducing the risk of wrongful conviction and exoneration. *Strengthening Forensic Science in the United States* gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

The definitive report on what caused America's economic meltdown and who was responsible. The financial and economic crisis has touched the lives of millions of Americans who have lost their jobs and their homes, but many have little understanding of how it happened. Now, in this very accessible report, readers can get the facts. Formed in May 2009, the Financial Crisis Inquiry Commission (FCIC) is a panel of 10 commissioners with experience in business, regulations, economics, and housing, chosen by Congress to explain what happened and why it happened. This panel has had subpoena power that enabled them to interview people and examine documents that no reporter had access to. The FCIC has reviewed millions of pages of documents, and

interviewed more than 600 leaders, experts, and participants in the financial markets and government regulatory agencies, as well as individuals and businesses affected by the crisis. In the tradition of The 9/11 Commission Report, "The Financial Crisis Inquiry Report" will be a comprehensive book for the lay reader, complete with a glossary, charts, and easy-to-read diagrams, and a timeline that includes important events. It will be read by policy makers, corporate executives, regulators, government agencies, and the American people.

An original look at history that profiles 30 children from different eras so that

children of today can discover the lives of the cave people, Romans, Vikings, and beyond through the eyes of someone their own age. History books often focus on adults, but what was the past like for children? *A Child Through Time* is historically accurate and thoroughly researched, and brings the children of history to life—from the earliest civilizations to the Cold War, even imagining a child of the future. Packed with facts and including a specially commissioned illustration of each profiled child, this book examines the clothes children wore, the food they ate, the games they played, and the historic

moments they witnessed—all through their own eyes. Maps, timelines, and collections of objects, as well as a perspective on the often ignored topic of family life through the ages, give wider historical background and present a unique side to history. Covering key curriculum topics in a new light, *A Child Through Time* is a perfect and visually stunning learning tool for children ages 7 and up.
