Hans Holzer rediscovers Christmas, from its pre-Christian beginnings to its celebration in many lands yesterday and today; from the Star in the East to the origins of holly, hymns, trees, and Santa Claus (yes, Virginia, he lived!). Through ancient astrological and astronomical charts he shows how the Three Wise Men were led from opposite ends of the earth to Bethlehem, and why the undertook the long and dangerous journey—separately—to the birthplace of Christ. Using his skills as an archaeologist, historian, and numismatist, Professor Holzer reveals the true identities of the three Kings called Caspar, Melchior, and Balthazar, focusing new light on the spiritual significance of Christmas.

From the New York Times-bestselling author of *The Secret World of Weather* and *The Lost Art of Reading Nature’s Signs*, learn to tap into nature and notice the hidden clues all around you Before GPS, before the compass, and even before cartography, humankind was navigating. Now this singular guide helps us rediscover what our ancestors long understood—that a windswept tree, the depth of a puddle, or a trill of birdsong can help us find our way, if we know what to look and listen for. Adventurer and navigation expert Tristan Gooley unlocks the directional clues hidden in the sun, moon, stars, clouds, weather patterns, lengthening shadows, changing tides, plant growth, and the habits of wildlife. Rich with navigational anecdotes collected across ages, continents, and cultures, *The Natural Navigator* will help keep you on course and open your eyes to the wonders, large and small, of the natural world.

The Star in the East, a Sermon Independently Published

What is the state of Christianity in China, really? Some scholars say that China is invulnerable to

religion. Some say that past efforts of missionaries have failed, writing off those who were converted as nothing more than “rice Christians,” or cynical souls who had frequented the missions for the benefits they provided. Some wonder if the Cultural Revolution extinguished any chances of Christianity in China. Rodney Stark and Xiuhua Wang offer a different perspective, arguing that Christianity is alive, well, and even on the rise. Stark approaches the topic from an extensive research background in both Christianity and Chinese history, and Wang provides an inside look at Christianity and its place in her home country of China. Both authors cover the history of religion in China, disproving older theories concerning not only the number of Christians, but the kinds of Christians that have emerged in the past 155 years. Stark and Wang claim that when just considering the visible Christians, those not part of underground churches, there are still thousands of Chinese being converted to Christianity each day, and forty new churches opening each week. *A Star in the East* draws on two major national surveys to sketch a close-up of religion in China. A reliable estimate is that by 2007 there were approximately 60 million Christians in China. If the current rate of growth were to hold until 2030, there would be more Christians in China—about 295 million—than in any other nation on earth. This has significant implications, not just for China but for the greater world order. It is probable that Chinese Christianity will splinter into denominations, likely leading to the same kinds of political, social, and economic ramifications seen in the West today. Whether you’re new to studying Christianity in China, or whether this has been your area of interest for years, *A Star in the East* provides a reliable, thought-provoking, and engaging account of the resilience of the Christian faith in China and the implications it has for the future.

A Star in the East: The Decline of Italian Culture The Experiment

From New York Times bestselling author Tasha Alexander comes *STAR OF THE EAST*, a Lady Emily holiday story that will enchant readers and keep them guessing until the very last page... Emily and Colin Hargreaves make it a rule to spend as little time as possible with her parents in Kent, but are unable to refuse Lady Catherine Bromley's invitation to join them for a pre-Christmas party that includes the family of Ala Kapur Singh, a powerful Punjabi maharaja who has come to England after receiving the Order of the Star of India. Lady Bromley, quite taken with the exotic beauty and spectacular jewels of the maharani and her daughter, Sunita, throws herself with abandon into her own version of Indian culture, planning a feast she is certain will be more spectacular than any seen on the sub-continent. When a priceless diamond maang tika and a simple gold bangle disappear from Sunita's room, a diplomatic incident seems imminent, particularly after the maang tika turns up in Emily's possession. Emily may have what appears to be the more valuable of the two pieces, but the maang tika cannot be worn without the bangle, upon which is engraved the words necessary to ward off a curse placed on the set five hundred years ago by a princess forced to forsake the man she loved. Sunita must wear the maang tika at her wedding but cannot do so

without the bangle. Can Emily convince the maharaja that she is not a thief? And, more important, can she and Colin find the bangle?

The publication of the King James version of the Bible, translated between 1603 and 1611, coincided with an extraordinary flowering of English literature and is universally acknowledged as the greatest influence on English-language literature in history. Now, world-class literary writers introduce the book of the King James Bible in a series of beautifully designed, small-format volumes. The introducers' passionate, provocative, and personal engagements with the spirituality and the language of the text make the Bible come alive as a stunning work of literature and remind us of its overwhelming contemporary relevance.

The Red Star and the Crescent provides an in-depth and multi-disciplinary analysis of the evolving relationship between China and the Middle East. Despite its increasing importance, very few studies have examined this dynamic, deepening, and multi-faceted nexus. James Reardon-Anderson has sought to fill this critical gap. The volume examines the "big picture" of international relations, then zooms in on case studies and probes the underlying domestic factors on each side. Reardon-Anderson tackles topics as diverse as China's security strategy in the Middle East, its military relations with the states of the region, its role in the Iran nuclear negotiations, the Uyghur question, and the significance and consequences of the Silk Road strategy. A comprehensive study of the changing forces driving one of the world's most important strategic, economic and cultural relationships

" William Walker's Southern Harmony, first published in 1835, was the most popular tune book of the nineteenth century, containing 335 sacred songs, dominated by the folk hymns of oral tradition and written in the old four-shape notation that was for generations the foundation of musical teaching in rural America. Born in 1809 in South Carolina, William Walker grew up near Spartanburg and early became devoted to the Welsh Baptist Church of his ancestors and to the musical heritage that church had brought to early America. Walker became a singing master, and Southern Harmony was compiled for his students in hundreds of singing schools all over North and South Carolina and Georgia and in eastern Tennessee. Southern Harmony reached Kentucky in the company of music-loving pioneers, and today an annual singing in Benton, Kentucky, remains the only such occasion on which Southern Harmony is consistently the source of the music. The CD included with the book contains 29 tunes, hymns, psalms, odes, and anthems, including ""New Britain"" (Amazing Grace), ""Happy Land,"" ""O Come, Come Away,"" ""Wondrous Love,"" and many, many more.

Hi! My name is Rebecca. I am the Author of the bestselling book for transitioning from Primary to

Secondary called "I Can't Do It Yet...But School Is Epic". I am also the pioneer of the Youtube videos on our channel (GirlsparklesAbel). After publishing my first book last year, I have been encouraged by family and friends to release my next book. This book is one of my series about retelling the story of the bible. While growing up, I watched Smile of a Child TV, Animated stories like Heroes and Super book. I often wondered what happened behind the scene of bible stories. My perspective is to merge fiction with non fiction, desiring to see how the bible character will live in this modern age. I know I cannot say for certain how the story unfolded behind the scene but I have tried to explain it and to get the readers thinking about how the characters in the bible felt in different situations. This book helps the reader to put themselves in the shoes of the characters and find a deeper understanding of bible stories that often seem irrelevant. I am encouraging both old and young, Believer or Non Believer to pick up this book to read and get some inspiration or better understanding of this story about the birth of Jesus. If you were young Mary and you got a strange text, what will you do? This book is a good read for the family and to encourage children to read. Some of the scenes expressed in this book are asking questions like how did Joseph know that Mary was pregnant before he had a dream? How far is Galilee from Bethlehem? Were there actually three wise men who visited Jesus? How was the census done in those days? Was Jesus born on Christmas day 25th? How did Mary feel about the whole situation? How about the conflict in Joseph's mind? Grab your copies of this book as presents for your children, cousins, nieces, nephews and friends.
