The Oxford Handbook of Maximus the Confessor Midwest Theological Forum

First Published in 1998. This volume brings together for the first time in a single volume the highly significant works on ancient Egyptian religion by Aylward Manley Blackman (1883-1956). Blackman's knowledge of Egyptian religion was unrivalled. He was best known for his series of studies on Egyptian religion which have long been regarded as essential reading in the subject, and which forms the content of the present collection. Unusually, Blackman did not publish his writings in book form, but preferred to place them in a wide range of publications that are extremely difficult to obtain. Blackman's studies on Egyptian religious belief and particularly religious practice focus on areas of fundamental concern and are models of meticulous, sympathetic and penetrating scholarship. They should remain required reading for all students of Egyptian religion well into the next century. All those with an interest in the subject should welcome this volume which makes Blackman's writings accessible in a convenient form. A select bibliography provides an update and key to more recent work on topics discussed by Blackman.

Barnett traces the Christian critique of the Church and its history in Protestant (English) and Catholic (Italian) thought from the Reformation to the Enlightenment. More than one hundred and fifty years of bitter polemic between the two great confessions and their religious dissidents produced an unprecedented, comparative historical and sociological anticlericalism. In the last decades of the seventeenth century, English dissenting thought was pregnant with a devastating critique of the church, which came to be termed the 'Deist' view of Church history: by 1700 the cornerstone of high 'Enlightenment anticlerical thought' was in ascent.

General Instruction of the Roman Missal Routledge

Maximus the Confessor (c.580-662) has become one of the most discussed figures in contemporary patristic studies. This is partly due to the relatively recent discovery and critical edition of his works in various genres, including On the Ascetic Life, Four Centuries on Charity, Two Centuries on Theology and the Incarnation, On the 'Our Father', two separate Books of Difficulties, addressed to John and to Thomas, Questions and Doubts, Questions to Thalassius, Mystagogy and the Short Theological and Polemical Works. The impact of these works reached far beyond the Greek East, with his involvement in the western resistance to imperial heresy, notably at the Lateran Synod in 649. Together with Pope Martin I (649-53 CE), Maximus the Confessor and his circle were the most vocal opponents of Constantinople's introduction of the doctrine of monothelism. This dispute over the number of wills in Christ became a contest between the imperial government and church of Constantinople on the one hand, and the bishop of Rome in concert with eastern monks such as Maximus, John Moschus, and Sophronius, on the other, over the right to define orthodoxy. An understanding of the difficult relations between church and state in this troubled period at the close of Late Antiquity is necessary for a full appreciation of Maximus' contribution to this controversy. The editors of this volume provide the political and historical background to Maximus' activities, as well as a summary of his achievements in the spheres of theology and philosophy, especially neo-Platonism and Aristotelianism.

Priests of the Law tells the story of the first people in the history of the common law to think of themselves as legal professionals. In the middle decades of the thirteenth century, a group of justices working in the English royal courts spent a great deal of time thinking and writing about what it meant to be a person who worked in the law courts. This book examines the justices who wrote the treatise known as Bracton. Written and re-written between the 1220s and the 1260s, Bracton is considered one of the great treatises of the early common law and is still occasionally cited by judges and lawyers when they want to make the case that a particular rule goes back to the beginning of the common law. This book looks to Bracton less for what it can tell us about the law of the thirteenth century, however, than for what it can tell us about the judges who wrote it. The judges who wrote Bracton - Martin of Pattishall, William of Raleigh, and Henry of Bratton - were some of the first people to work full-time in England's royal courts, at a time when there was no recourse to an obvious model for the legal professional. They found one in an unexpected place: they sought to clothe themselves in the authority and prestige of the scholarly Roman-law tradition that was sweeping across Europe in the thirteenth century, modelling themselves on the jurists of Roman law who were teaching in European universities. In Bracton and other texts they produced, the justices of the royal courts worked hard to ensure that the nascent common-law tradition grew from Roman Law. Through their writing, this small group of people, working in the courts of an island realm, imagined themselves to be part of a broader European legal culture. They made the case that they were not merely servants of the king: they were priests of the law.

This single-volume collector's edition contains the complete collection of Pope John Paul II's Holy Thursday letters to priests. "On this holy day, the liturgy takes us inside the Upper Room." The Hidden Manna has become a classic on Eucharistic teaching. Now in a second edition, accompanied by a new introduction by Fr. Kenneth Baker, a new preface from the author, new material from John Paul II, and the original foreword by Cardinal John O'Connor, this in-depth study lets the breadth and richness of the Church's Tradition speak for itself. Fr. O'Connor presents and comments on substantial excerpts from the major sources of the Church's Tradition extending all the way back to apostolic times. Focusing on the doctrine of the Real Presence, he follows the earliest witnesses through the challenge in the Middle Ages of Berengarius through the Protestant Reformation and modern disputes. "Father James O'Connor gives us nothing less than a comprehensive study of the Church's meditation on the Mystery of the Eucharist... The Hidden Manna is a superb work." Cardinal John O'Connor "...We owe a debt of gratitude to Fr. James O'Connor for writing this beautiful treatise on "the Sacrament of Sacraments". The Hidden Manna is a remarkable accomplishment of Catholic scholarship." Fr. Kenneth Baker, S.J.

The long tradition of Kierkegaard studies has made it impossible for individual scholars to have a complete overview of the vast field of Kierkegaard research. The large and ever increasing number of publications on Kierkegaard in the languages of the world can be simply bewildering even for experienced scholars. The present work constitutes a systematic bibliography which aims to help students and researchers navigate the seemingly endless mass of publications. The volume is divided into two large sections. Part I, which covers Tomes I-V, is dedicated to individual bibliographies organized according to specific language. This includes extensive bibliographies of works on Kierkegaard in some 41 different languages. Part II, which covers Tomes VI-VII, is dedicated to shorter, individual bibliographies organized according to specific figures who are in some way relevant for Kierkegaard. The goal has been to create the most exhaustive bibliography of Kierkegaard literature possible, and thus the bibliography is not limited to any specific time period but instead spans the entire history of Kierkegaard studies.
