This book explores the co-development of political, social, economic, and artistic networks of Florentines in the Kingdom of Hungary during the reign of Sigismund of Luxembourg. Analyzing the social network of these politicians, merchants, artisans, royal officers, dignitaries of the Church, and noblemen is the primary objective of this book. The study addresses both descriptively the patterns of connectivity and causally the impacts of this complex network on cultural exchanges of various types, among these migration, commerce, diplomacy, and artistic exchange. In the setting of a case study, this monograph should best be thought of as an attempt to cross the boundaries that divide political, economic, social, and art history so that they simultaneously figure into a single integrated story of Florentine history and development.

An inspiring speaker and artist asked 20,000 people around the world to share the regrets they wanted him to burn in a mock Viking ship. This is the story of what he learned about letting go of the pain of the past and embracing the future with hope. Turning 30, artist and speaker Kyle Scheele wanted to do something unusual to mark this milestone. Instead of a birthday bash, he decided to hold a funeral to memorialize the decade of his life that was ending. Building a 16-foot Viking ship out of cardboard, he invited friends to help him set it on fire—a symbolic farewell to his 20s and all the grief, regret, and mistakes that accompanied those years. When video of his Viking funeral went viral, it encouraged many others to let go of past hurts as well. Moved by the response he received, Kyle planned a second funeral (this time with a 30-foot cardboard Viking ship) and asked people to share the things they carried—the bad choices, disappointments, heartaches, and negative thinking that they wanted to lay to rest. He received more than 20,000 responses from around the world—stories both heartbreaking and hilarious, painful and inspiring. In this entertaining and wise book, Kyle reflects on what he discovered about freeing ourselves from the pain of the past, interweaving anecdotes from those who participated with the story of his own journey of renewal. "This story involves multiple Viking funerals, thousands of square feet of cardboard, and enough hot glue to supply your mother-in-law's craft night for the rest of time," he writes. "But it also involves regret, self-doubt, insecurity, and ultimately, redemption. So buckle up. It's about to get bumpy." *How to Host a Viking Funeral* is the story of letting go of the people we used to be, but no longer want to be. It's about renewal; where there was once regret there is now blank space—an opportunity for a fresh start.

A compelling investigation of how intense psychological suffering can lead to a dramatic shift into a new, expansive identity Why do some people who experience the worst that life has to offer respond not by breaking down but by shifting up, into a higher-functioning, awakened state, like phoenixes rising from the ashes? And perhaps more importantly, how can we emulate their transformations? Over many years of observing and studying the phenomenon of life-changing awakening through extreme suffering, Steve Taylor coined the term “transformation through turmoil.” He calls these people “shifters” and here shares dozens of their amazing stories. In addition, Taylor uncovers the psychological processes that explain these miraculous rebirths after years of struggle or devastating loss, addiction, or imprisonment. He highlights a number of lessons and guidelines that the shifters offer us. In *Extraordinary Awakenings*, readers will find not only riveting stories of transformation that show the amazing resilience of the human spirit, but also hope and guidance to call on during their own struggles, together with inspiration and profound food for thought.
