This book, first published in 1987, examines the elements that constitute the French identity through the experience of the Second World War – a constant point of reference, a landmark to which the collective consciousness returns again and again. The Occupation period and the national humiliation of the French military and political collapse has been perceived as more than a series of traumatic events, and in fact as a reality of mythical proportions that became a symbol of something grander, French identity itself.

Winner of the Louis Gottschalk Prize Winner of the Thomas J. Wilson Memorial Prize “Witty and full of fascinating details.” —Los Angeles Times Why

are there restaurants? Why would anybody consider eating alongside perfect strangers in a loud and crowded room to be an enjoyable pastime? To find the answer, Rebecca Spang takes us back to France in the eighteenth century, when a restaurant was not a place to eat but a quasi-medicinal bouillon not unlike the bone broths of today. This is a book about the French revolution in taste—about how Parisians invented the modern culture of food, changing the social life of the world in the process. We see how over the course of the Revolution, restaurants that had begun as purveyors of health food became symbols of aristocratic greed. In the early nineteenth century, the new genre of gastronomic literature worked within the strictures of the Napoleonic state to transform restaurants yet again, this time conferring star status upon oysters and champagne. “An ambitious, thought-changing book...Rich in weird data, unsung heroes, and bizarre true stories.” —Adam Gopnik, *New Yorker* “[A] pleasingly spiced history of the restaurant.” —*New York Times* “A lively, engrossing, authoritative account of how the restaurant as we know it developed...Spang is...as generous in her helpings of historical detail as any glutton could wish.” —*The Times*
