Sometimes all you need is a big heart and burning desire. Danny, a curious harp seal pup, has soft white fur and

black innocent eyes. Helen is an environmentalist and member of a young activist crew of the Rainbow Warriors. Their mission is to save animals. As winter turns into spring, a new generation of seal pups comes to life. A few weeks later, the killing begins. Against a spectacular backdrop of ice and snow, Helen prepares to look horrific

human cruelty in the face. I do not doubt I have a big heart and burning desire, but is that enough for a person to become a Rainbow Warrior, or is there something better? Something only some of us manage to turn into what we have long missed-humanity. In the race against time and clubs, will Helen save Danny before the hunt begins and the ice turns red? Though written for younger readers, *Look for Me Under the Rainbow* will appeal to anyone who cherishes our beautiful planet and wishes to protect its treasures. Buy this book by Bernard Jan, the author of *A World Without Color*, and experience another emotional journey.

This book is the first comprehensive

survey of mood in the languages of Europe. It gives readers access to a collection of data on mood. Each article presents the mood system of a specific European language in a way that readers not familiar with this language are able to understand and to interpret the data. The articles contain information on the morphology and semantics of the mood system, the possible combinations of tense and mood morphology, and the possible uses of the non-indicative mood(s). The papers address the explanation of mood from an empirical and descriptive perspective. This book is of interest to scholars of mood and modality, language contact, and areal linguistics and typology.

a couple of beers and a non verbal thumbs up for the traditional German Sauerbraten (Roast Beef Stew) or their Schnitzel. Besides your social life, mastering German can also be an occupational advancement and get you closer to your career goals. Keep in mind, Germany is the #1 export nation in the world. How great would it be to combine travel and work? The Japanese already discovered the business opportunity years ago. 68% of their students study German at school. "THE CODE OF LEKE DUKAGJINI is a great cultural treasure, comparable to the chapters of The Old Testament." "It provides deep insights into the ancient society of the Albanians, their somber dignity & their magnificent sense of honor."--David Binder, The New York Times. "This legal system was established & passed on to future generations as a common law by Leke Dukagjini, a co-fighter of the legendary Skenderbeg." "The 'Besa' or the 'word of honor' as stated in THE CODE OF LEKE DUKAGJINI which means peace & protection to those whom it is given, has

become today an important fighting tool in the political struggle of Kosovo's Albanians against Serb oppression."--Victor Meier, The Frankfurter Allgemeine Zeitung. "The legal Code of the Albanians known by them for a thousand years, is one of the most original in the history of mankind. Among the basic pillars of this code are the equality of men before the code & the non-abuse of justice." "The entire essence of the legal code of the Albanians is an unparalleled rigorous respect for this basic principle: non-violation of the dignity of a man- his honor, home, & life."--Ismail Kadare, Albanian writer.

First published in 1988, this book is concerned with the definite and indefinite articles in English. It provides an integrated pragmatic-semantic theory of definite and indefinite reference, on the basis of which, many co-occurrence restrictions between articles and non-modifiers are explained. At the general theoretical level, this book looks at the role of semantics in the prediction of all and only the grammatical sentences of a language. A generalisation is proposed uniting semantic oppositions underlying

ungrammaticality with syntactic oppositions between conditions of application on transformational generative rules. A procedure is suggested for distinguishing semantic from syntactic causes of ungrammaticality. At a more particular level, the book explores the nature of reference. It examines an important selection of subjects such as the contrast between definiteness and indefiniteness, the relationship between definite and demonstrative reference, and the relationship between pragmatic and logical aspects of determining meaning.

Two destinies intersect in this novel -- that of Gjorg, a young mountaineer who has just killed a man in order to avenge

the death of his older brother, and who expects to be killed himself in keeping with the code of the highlands; and that of a young couple who have come to study the age-old customs, including the blood feud.

Research on language universals and research on linguistic typology are not antagonistic, but rather complementary approaches to the same fundamental problem: the relationship between the amazing diversity of languages and the profound unity of language. Only if the true extent of typological divergence is recognized can universal laws be formulated. In recent years it has become more and more evident that a

broad range of languages of radically different types must be carefully analyzed before general theories are possible. Typological comparison of this kind is now at the centre of linguistic research. The series empirical approaches to language typology presents a platform for contributions of all kinds to this rapidly developing field. The distinctive feature of the series is its markedly empirical orientation. All conclusions to be reached are the result of a deepened study of empirical data. General problems are focused on from the perspective of individual languages, language families, language groups, or language samples. Special emphasis is given to the analysis of phenomena from little known languages, which shed new light on long-standing problems in

general linguistics. The series is open to contributions from different theoretical persuasions. It thus reflects the methodological pluralism that characterizes the present situation. Care is taken that all volumes be accessible to every linguist and, moreover, to every reader specializing in some domain related to human language. A deeper understanding of human language in general, based on a detailed analysis of typological diversity among individual languages, is fundamental for many sciences, not only for linguists. Therefore, this series has proven to be indispensable in every research library, be it public or private, which has a specialization in language and the language sciences. E folmja e Kelmendit për herë të parë po bëhet objekt i një studimi dialektologjik. Brenda Malësisë së Madhe, Kelmendi është shquar gjithnjë si gurrë e pashtershme e folklorit, veçanërisht e këngëve të kreshnikëve, të vajtimeve, të këngëve të buta etj. Materialin për këtë punim e kemi mbledhur verën e vitit 1969 në një ekspeditë prej 20 ditësh. Si pika qendrore kemi vështruar: Vermoshin, Lëpushën, Selcën, Brojën. Me subjektet është punuar kryesisht me metodën e bisëdes së lirë, po për ndonjë fenomen të veçantë, kemi përdorur edhe pyetje të tërthorta.

 Masterful in its simplicity, *Chronicle in Stone* is a touching coming-of-age story and a testament to the perseverance of the human spirit. Surrounded by the magic of beautiful women and literature, a boy must endure the deprivations of war as he suffers the hardships of growing up. His sleepy country has just thrown off centuries of tyranny, but new waves of domination inundate his city. Through the boy's eyes, we see the terrors of World War II as he witnesses fascist invasions, allied bombings, partisan infighting, and the many faces of human cruelty—as well as the simple pleasures of life. Evacuating to the countryside, he expects to find an ideal world full of extraordinary things, but discovers instead an archaic backwater

where a severed arm becomes a talisman and deflowered girls mysteriously vanish. Woven between the chapters of the boy's story are tantalizing fragments of the city's history. As the devastation mounts, the fragments lose coherence, and we perceive firsthand how the violence of war destroys more than just buildings and bridges.
