"The anthology Queer
in Aztlan: Chicano Male
Recollections of
Consciousness and
Coming Out gives
readers the

opportunity to experience deeply personal narratives from queer Chicanos/Mexicanos, and makes it possible for them to understand and sympathize with the stories' protagonists. It was also a finalist for a 2014 Lambda Award. The book explores issues of queer youth identity, sexuality, masculinity, homophobia, sexism, and violence in Mexican and American culture, presents a complex view of queer Chicanos/Mexicanos, and contests dominant sexual norms. It challenges current scholarship in Chicana/Chicano studies to expand beyond the traditional confines of male sexuality. The seven sections of the book

survey the queer experience from a variety of perspectives through reading selections that focus on presence, recollection, embodied self, men of heart, Coatlicue state, and Joteria studies. A unique transnational bibliography gives emphasis to themes on, or by, queer Chicano and Mexicano authors on male sexuality, homoerotic writing, literary criticism, and fiction. Adelaida R. Del Castillo is an associate professor in the Department of Chicana and Chicano Studies at San Diego State University, and from 2007 to 2010 Professor Del Castillo served as the first Chicana chair of the department. Her research interests include Chicana

feminisms, the economic survival strategies of working-class women in Mexico City, rights discourse, and postnational notions of citizenship. Gibran Gudo is a doctoral student in the Department of Literature at the University of California, San Diego. In 2010 he organized the 5th Annual Queer People of Color Conference at San Diego State University, and co-organized the National Association for Chicana and Chicano Studies 3rd Joteria Conference. He is a recipient of the Richard P. Geysler Ethics Memorial Scholarship."

 The premise of Dimensions of Learning an instructional framework founded on the best of what researchers and theorists know about

learning is that five types, or dimensions, of thinking are essential to successful learning. These are (1) positive attitudes and perceptions about learning, (2) thinking involved in acquiring and integrating knowledge, (3) thinking involved in extending and refining knowledge, (4) thinking involved in using knowledge meaningfully, and (5) productive habits of mind. Dimensions of Learning is a valuable tool for reorganizing curriculum, instruction, and assessment. The authors discuss each of the five dimensions in detail and describe hundreds of teaching strategies that support them for example, how to help students construct meaning for declarative knowledge,

internalize procedural knowledge, and see the relevance of what they are expected to learn. The authors provide many examples at the elementary and secondary classroom levels. Teachers of grades K-12 can use this information to improve teaching and learning in any content area.

Ridge Press

For thirty-one years, a monster terrorized the residents of Wichita, Kansas. A bloodthirsty serial killer, self-named "BTK"—for "bind them, torture them, kill them"—he slaughtered men, women, and children alike, eluding the police for decades while bragging of his

grisly exploits to the media. The nation was shocked when the fiend who was finally apprehended turned out to be Dennis Rader—a friendly neighbor . . . a devoted husband . . . a helpful Boy Scout dad . . . the respected president of his church. Written by four award-winning crime reporters who covered the story for more than twenty years, *Bind, Torture, Kill* is the most intimate and complete account of the BTK nightmare told by the people who were there from the beginning. With newly released documents, evidence, and information—and with the full cooperation, for the very first time, of the Wichita Police Department’s BTK Task Force—the authors have put all the pieces

of the grisly puzzle into place, thanks to their unparalleled access to the families of the killer and his victims.

I Will Survive is the story of Gloria Gaynor, America's "Queen of Disco." It is the story of riches and fame, despair, and finally salvation. Her meteoric rise to stardom in the mid-1970s was nothing

short of phenomenal, and hits poured forth that pushed her to the top of the charts, including "Honey Bee," "I Got You Under My Skin," "Never Can Say Goodbye," and the song that has immortalized her, "I Will Survive," which became a #1 international gold seller. With that song, Gloria heralded the international rise of disco that became synonymous with a way of life in the fast lane - the sweaty bodies at Studio 54, the lines of cocaine, the indescribable feeling that you could always be at the top of your game and never come down. But down she came after her early stardom, and problems followed in the wake, including the death of her mother,

whose love had anchored the young singer, as well as constant battles with weight, drugs, and alcohol. While her fans always imagined her to be rich, her personal finances collapsed due to poor management; and while many envied her, she felt completely empty inside. In the early 1980s, sustained by her marriage to music publisher Linwood Simon, Gloria took three years off and reflected upon her life. She visited churches and revisited her mother's old Bible. Discovering the world of gospel, she made a commitment to Christ that sustains her to this day.

Poetry History & Criticism. THE POLITICS OF POETIC FORM: POETRY AND PUBLIC POLICY is a series of essays from a discussion that occurred at the New School for Social Research in New York. The discussion mines the relationship between poetic composition and political expression. Poetry's relationship to public policy typically has a questionable margin of relation. Not only does this volume posit that poetry is a dynamic medium for the consideration of political ideas, it focuses on the ideological weight specific formal innovations bring to poetry. Some of the

writers include Jerome Rothenberg, Ron Silliman, Susan Howe, Nathaniel Mackey and Charles Bernstein.

This paper reviews economic developments in Suriname during 1994-96. In 1995, there was a major turnaround in Suriname's economic and financial situation following the expansionary fiscal and monetary policies pursued in the first half of the 1990s and the political and economic disruptions of the

1980s. The marked improvement was owing to the restoration of financial discipline, a strengthening of international bauxite prices, and the unification and subsequent stabilization of the exchange rate. The inflation fell further to less than 1 percent in 1996.
