JAX DUDLEY

The Politics of the Lisbon Agenda Cambridge University Press
How successful was the EU's Lisbon Strategy? This volume provides the first comprehensive assessment of the Strategy and reflects on its key developments during its 10-year cycle. The volume contains both theoretical and empirical contributions by some of the leading scholars of EU studies across the social sciences.

Police Cooperation in the European Union under the Treaty of Lisbon Bloomsbury Publishing

The Lisbon Treaty, which came into force in December 2009, aims to make the European Union both more efficient and legitimate. Two new important posts were created; an elected President of the European Council and a High Representative (HR) of the Union for Foreign and Security Policy who will also be a Vice-President of the Commission. Leading international scholars have been gathered together to examine the institutional choices and innovations of the Lisbon Treaty and discuss the likely effects of these changes. Will the changes meet the declared goals of a more efficient and democratic Union which will allow the EU to act internationally with greater coherence and efficiency? If institutions matter, how much do they matter? How significant is the Lisbon Treaty? What kind of leadership will be available in the post-Lisbon EU?

Lobbying in the new Europe Springer Science & Business Media

The book sheds new light on the achievements, challenges and legal complexity of the EU as a global environmental actor. [Europe, Globalization and the Lisbon Agenda](#) Routledge
In June 2009 the Institute of European Public Law of the University of Hull assembled a range of experts in relevant fields to offer papers and reach some consensus on what has been achieved in the EU legal order and what the future holds for that order given local tensions and global uncertainty.

The Treaty of Lisbon Routledge

In this book, Chiara Nasti analyses the distribution of metaphor scenarios and patterns in the public discourse on the European Lisbon Treaty. Her study on a specialized corpus reveals differences and/or similarities in the argumentation and attitudes of the main UK broadsheet and tabloid newspapers. She summarizes the main theories and identification procedures for metaphor investigation, commenting on some developments in the field of metaphor studies. Following Charteris-Black's Critical Metaphor Analysis, she starts from the premise that metaphors need to be explored in the context where they occur. Her analysis in fact reveals that context investigation is useful to better understand the complexity of metaphors – their pragmatic and cognitive function – and their role in the political debate.

Moreover, the analysis reveals as well that metaphors are useful tools for identifying stereotyped roles of the participants in the ratification process; and they are also functional, used to explore both political and journalistic attitudes towards the debate on the Lisbon Treaty. Her book addresses readers from various academic backgrounds who are interested in linguistics, cognitive linguistics and, in particular, the application of corpus linguistics to metaphor investigation. It will also be of interest to academic students dealing with the debate over the Lisbon Treaty.

[The External Environmental Policy of the European Union](#) Routledge

Since the beginning of the process of European integration the EU Common Commercial Policy (CCP) has been one of the most dynamic political fields. The EU has achieved a leading role among the economic superpowers and is regarded as a single economic area in which the EU speaks also on behalf of its Member States for most aspects of external economic politics. This volume analyzes the implications of the Treaty of Lisbon for the Common Commercial Policy of the EU. The Lisbon Treaty has declared all matters concerning external commercial policy as exclusive competences of the EU. Which consequences does this have for the Member States of the EU? With regard to institutional modifications, the Lisbon Treaty has significantly strengthened the role of the European Parliament and has substantially changed the role of the 'High Representative of the Union for Foreign Affairs and Security Policy' (HR). Further topics of this volume are the new normative framework of the CCP, inter alia the linkage of the CCP to the general objectives for the EU's external actions and its dependence on secondary legislation, as well as investment policy now being part of the CCP.

Controlling the EU Executive? Nomos Verlag

A few years have passed since the Lisbon Treaty came into force

but the question still remains of what the Lisbon Treaty has actually brought about. Was it just 'relatively insignificant' as some scholars have claimed, or was it 'something' more? This book sets out to look at this question and it does so by applying a classical division: polity, politics and policy. One of the book's conclusions is that the Lisbon Treaty might have been 'plan b' compared to the aborted Constitutional Treaty, but it is certainly a substantial step forward on the European path of integration. The Lisbon Treaty strengthened the EU both as a polity (its stateness), and in its politics (the rules and procedures) and in spite of the fact that the treaty was not really a 'policy treaty', it has extended the Union's field by federalizing most of the policies within the area of Justice and Home Affairs. This anthology brings together scholars from four European countries each of them a specialist within the fields they are analyzing. Each scholar adds insights from their area of competence to the book, leaving it an important contribution to the study of today's European Union.

The European Union after Lisbon Springer Science & Business Media

This is a collection of works which considers the many different facets of the EU's increasingly important engagement with the world beyond its borders. The Treaty of Lisbon marked a change in the powers and competences endowed on the EU - the contributions to this collection consider both the direct and indirect impact of the Treaty on the contemporary state of EU external relations. The authors are drawn from legal, political science and international relations disciplines and consider innovations or changes brought about by the Treaty itself: the European External Action Service, the roles of the High Representative and President, the collapse of the 'pillar' structure and new competences such as those for foreign investment. Other chapters cover developments which reflect the latest incremental changes upon which the post-Lisbon Treaty arrangements have some bearing, including the COREU network, the transatlantic and neighbourhood relations and the external dimension of 'internal' security. Useful for academics working in the field of EU external relations law and foreign policy, as well as the EU law/politics/European studies market more generally.

Common Commercial Policy after Lisbon Bloomsbury Publishing

The implementation of the Lisbon Treaty is profoundly changing many areas of EU law and policy. This volume gathers leading specialists in the field to analyse the implementation process and the directions of legal reform post-Lisbon, situating the Lisbon reforms in the broader context of on-going policy programmes.

[The European Union Legal Order After Lisbon](#) Routledge

The major Commentary on the Treaty on European Union (TEU) is a European project that aims to contribute to the development of ever closer conceptual and dogmatic standpoints with regard to the creation of a "Europeanised research on Union law". This publication in English contains detailed explanations, article by article, on all the provisions of the TEU as well as on several Protocols and Declarations, including the Protocols No 1, 2 and 30 and Declaration No 17, having steady regard to the application of Union law in the national legal orders and its interpretation by the Court of Justice of the EU. The authors of the Commentary are academics from ten European states and different legal fields, some from a constitutional law background, others experts in the field of international law and EU law professionals. This should lead to more unity in European law notwithstanding all the legitimate diversity. The different traditions of constitutional law are reflected and mentioned by name thus striving for a common framework for European constitutional law.

European Constitutional Law Routledge

This book examines the institutional innovations being introduced into the European Union as a result of 2009's Treaty of Lisbon. After examining the major changes taking place within the EU's major institutions--the European Council, European Parliament, and the European Commission--the authors look at the innovations brought by the treaty, such as the Presidency "triangle," the citizen's initiative, and the potentially enhanced role for national parliaments to play at the EU level. Two issues that were not particularly pressing at the time of the treaty's negotiation but which now exert a strong influence over the ability of the EU to realize its ambitions are carefully scrutinized: climate change and the global financial crisis. The book is a collective work of a team of researchers from Brussels-based research institutes CEPS, EGMONT (Belgium's Royal Institute of International Affairs), and the European Policy Centre (EPC). Contributors include Piotr Maciej Kaczynski and Peadar o Broin (CEPS); Franklin Dehousse, Philippe de Schoutheete, Tinne Heremans, Jacques Keller, Guy Milton, and Nick Witney (EGMONT); and Janis Emmanouilidis, Antonio Missiroli, and Corina

Stratulat (EPC)."

[Images of the Lisbon Treaty Debate in the British Press](#) Oxford University Press

The Lisbon Agenda aims to prepare Europe for globalization by updating European policies for research, innovation, competition, trade, employment, education, social protection, environment and energy at both the European and national levels. Designed to inspire the new cycle of the Lisbon Agenda until 2010 and beyond, this timely and significant volume explores the intellectual elaboration of the agenda for the coming years. With contributions from some of Europe's leading scholars, this book explores new developments in the European agenda for globalization, addressing four critical areas: European policies, their adaptation to national diversity in Europe, their implications for the external action of the European Union and, finally, their implications for EU governance. This book presents the outcome of an organized dialogue between the political and research communities. Europe, Globalization and the Lisbon Agenda will undoubtedly prove an outstanding addition to the current literature and will be an invaluable resource for European policy-makers, governments and academics from a wide range of disciplines who are concerned about the future competitiveness of Europe.

The Constitutional Dilemma of the European Union Peter Lang

Presenting the first analytical overview of the legal foundations of the EU's Common Security and Defence Policy (CSDP), this book provides a detailed examination of the law and practice of the EU's security policy. The European Union's security and defence policy has long been the focus of political scientists and international relations experts. However, it has more recently become of increasing relevance to lawyers too. Since the early 2000s, the EU has carried out more than two dozen security and defence missions in Europe, Africa, and Asia. The EU institutions are keen to stress the security dimension of other external policies also, such as development cooperation, and the Lisbon Treaty introduces a more detailed set of rules and procedures which govern the CSDP. This book provides a legal analysis of the Union's CSDP by examining the nexus of its substantive, institutional, and economic dimensions. Taking as its starting point the historical development of security and defence in the context of European integration, it outlines the legal framework created by the rules and procedures introduced by the Treaty of Lisbon. It examines the military operations and civilian missions undertaken by the Union, and looks at the policy context within which they are carried out. It analyses the international agreements concluded in this field and explores the links between the CSDP and other external policies of the Union.

The Treaty on European Union (TEU) Springer

This book discusses the domestic politics of treaty reform in the European Union, from the failed referendums on the Constitutional Treaty held in France and the Netherlands in May-June 2005 to the entry into force of the Treaty of Lisbon in December 2009. The chapters, written by some of the finest scholars in the field of EU/European politics, show how European integration has increasingly become a contested issue in a majority of Member States. Going beyond the view that national governments are the main, if not the sole, driving force in the process of European integration, this book shows that other actors and factors have played a central role in preference formation and inter-state bargaining. These include: political parties, public opinion, the media, presidents, constitutional courts and, more broadly, political systems, ratification hurdles and the general negotiation context. National Politics and European Integration combines empirical analysis and theoretical explanations for one of the most controversial periods in the history of the European Union. This important book will be of great interest for advanced students in EU studies, comparative politics and public policy.

[The EU's Lisbon Treaty](#) Oxford University Press

The European Union (EU) is making strong inroads into areas of security traditionally reserved to states, especially into internal security, or Justice and Home Affairs. The Area of Freedom, Security and Justice (AFSJ), as it has been renamed in the Amsterdam Treaty, has seen significant policy developments since the late 1990s. In fact, there has been no other example of a policy-making area making its way so quickly and comprehensively to the centre of the treaties and to the top of the EU's policy-making agenda. After major treaty revisions in Maastricht, Amsterdam, Nice, and, finally the Lisbon Treaty, which entered into force on 1 December 2009, as well as an increased political impetus through the European Council Summits in

Tampere (1999), the Hague (2004), and Stockholm (2009), the area appears as one of the most promising policy fields for integration in the EU in the foreseeable future. This process has deepened even more significantly after the terrorist attacks on 11 September 2001 in the United States, on 11 March 2004 in Madrid, and on 7 July 2005 in London. This book is the first to analyse these hugely topical developments in European internal security at both the treaty and policy levels, as well as its implementation at the national level, from various disciplinary perspectives (political science, law, criminology, etc). This book was published as a special edition of *European Security*.

Dividing Lines between the European Union and Its Member States Springer Science & Business Media

In the European Union the balance of power between Brussels and the Member State governments is an ongoing matter of contention. With each treaty amendment during the Union's first 50 years, EU competences have grown, and each time critics have questioned whether the national governments are being weakened. The Treaty of Lisbon is now being considered as a replacement for the ill-fated European Constitution, and the atmosphere is one of heightened sensitivity. This timely book examines the Lisbon Treaty to determine whether the current 'dividing lines' between Member State and Union authority will be affected. Taking a broad view of what the EU is and what its members are trying to accomplish collectively, the author contrasts these aspirations for Europe with the insistence of each Member State that it must never lose its national sovereignty.

[The Protection of Fundamental Rights in the EU After Lisbon](#) Routledge

Recoge: Europe in the global economy: the state of play - 2. The short term (2008-2010) - 3. Euroworld 2015: a european strategy for globalisation.

The EU Common Security and Defence Policy Edward Elgar Publishing

Fully updated to include the new Treaty of Lisbon, this is the best short and accessible introduction to the politics of the European Union, written by one of the world's most well-known authorities in the area. Ideal starting reading for students and the general reader, it explains in clear jargon-free language: the EU's development to date how the EU works, and why it works this way the EU's major policies the EU's biggest problems and controversies the EU's likely evolution in the coming years. The new edition builds on the strengths of the previous edition and now includes extra material on: the Treaty of Lisbon the EU's development since 2003, including its enlargements in 2004 and 2007 recent EU policies and rule changes the EU's role in the world. Key features to help learning and understanding are: boxed descriptions of key issues and events a guide to further reading at the end of each chapter a glossary of key terms, concepts and people helpful appendices about the EU's member states and good internet sources.

The EU's Lisbon Strategy Psychology Press

Detailed and comprehensive analysis of how the Treaty of Lisbon emerged in 2007 this book explores the role played by the

German Council Presidency and the EU's institutional actors in securing agreement among the leaders of member states on an intergovernmental conference as well as a new treaty text to replace the rejected Constitutional Treaty.

[Decision making in the EU before and after the Lisbon Treaty](#) Oxford University Press

The changes made by the Lisbon Treaty suggest that its entry into force in December 2009 marks a new stage in the shaping of the EU's commitment to the protection of fundamental rights. This book's concern is to provide an examination of the several (and interlocking) challenges which the Lisbon reforms present. The book will not only address the fresh and intriguing challenges for the EU as an entity committed to the protection and promotion of fundamental rights presented by developments 'post-Lisbon', but also a number of conundrums about the scope and method of protection of fundamental rights in the EU which existed 'pre-Lisbon' and which endure. The book consists of three parts. The first part is concerned with the safeguarding of fundamental rights in Europe's internal market. The second part of the book is entitled 'The Scope of Fundamental Rights in EU Law' and the chapters discuss the reach of fundamental rights and their horizontal dimension. The last part of this book deals with 'The Constitutional Dimension of Fundamental Rights' analysing the special relationship between the ECJ and the ECtHR and the issue of rights competition between the EU Charter on Fundamental Rights, the European Convention on Human Rights and national rights catalogues.
