Gatorade invented the sports drink 40 years ago, and it has been first in the marketplace (by a long shot) ever since. But itâ€”s more than just a thirst quencher and a dominant brand. First in Thirst is the story of a phenomenon that grew from the practice fields of college football into a true icon of the way we play, watch, and experience sportsâ€”from the Pee Wees to the pros. Published to coincide with the 40th anniversary of Gatoradeâ€”s invention, First in Thirst is equally a sports story, from its invention and testing with the University of Florida Gators to the â€”Sgatorade bathâ€” and its near-universal appeal to athletes, coaches and sports fans everywhere.

INSTANT #1 NEW YORK TIMES BESTSELLER WALL STREET JOURNAL BESTSELLER BARNES & NOBLE BESTSELLER AMAZON BESTSELLER "Paging through Serrano's Movies (and Other Things) is like taking a long drive at night with a friend; there's

that warmth and familiarity where the chat is more important than the fastest route from Point A to Point B...It's like a textbook gone right; your attention couldn't wander if it tried." -- Elisabeth Egan, New York Times Book Review Shea Serrano is back, and his new book, *Movies (And Other Things)*, combines the fury of a John Wick shootout, the sly brilliance of Regina George holding court at a cafeteria table, and the sheer power of a Denzel monologue, all into one. *Movies (And Other Things)* is a book about, quite frankly, movies (and other things). One of the chapters, for example, answers which race Kevin Costner was able to white savior the best, because did you know that he white saviors Mexicans in *McFarland, USA*, and white saviors Native Americans in *Dances with Wolves*, and white saviors Black people in *Black or White*, and white saviors the Cleveland Browns in *Draft Day*? Another of the chapters, for a second example, answers what other high school movie characters would be in Regina George's circle of friends if we opened up the Mean Girls universe to include other movies (Johnny Lawrence is temporarily in, Claire from *The Breakfast Club* is in, Ferris Bueller is out, Isis from *Bring It On* is out...). Another of the chapters, for a third example, creates a special version of the Academy Awards specifically for rom-coms, the most underrated movie genre of all. And another of the chapters, for a final example, is actually a triple chapter that serves as an NBA-style draft of the very best and most memorable moments in gangster movies. Many, many things happen in *Movies (And Other Things)*, some of which funny, others of which are sad, a few of which are insightful, and all of which are handled with the type of care and dedication to the smallest details and pockets of pop culture that only a book by Shea Serrano can provide.

Winner of a 2018 Catholic Press Association Award: Sacraments. (Second Place). In the first book to directly integrate the Twelve Steps with the practice of Catholicism, Scott Weeman, founder and director of Catholic in Recovery, pairs his personal story with compassionate straight talk to show Catholics how to bridge the commonly felt gap between the Higher Power of twelve-step programs and the merciful God that he rediscovered in the heart of the sacraments. Weeman entered sobriety from alcohol and drugs on October 10, 2011, and he's made it his full-time ministry to help others who struggle with various types of addiction to find spiritual wholeness through Catholic in Recovery, an organization he founded and directs. In *The Twelve Steps and the Sacraments*, Weeman candidly tackles the struggle he and other addicts have with getting to know intimately the unnamed Higher Power of recovery. He shares stories of his compulsion to find a personal relationship with God and how his tentative steps back to the Catholic Church opened new doors of healing and brought him surprising joy as he came to know Christ in the sacraments. Catholics in recovery and those moving toward it, as well as the people who love them will recognize Weeman's story and his spiritual struggle to personally encounter God. He tells us how: Baptism helps you admit powerlessness over an unmanageable problem, face your desperate need for God, and choose to believe in and submit to God's mercy. Reconciliation affirms and strengthens the hard work of examining your life, admitting wrongs, and making amends. The Eucharist provides ongoing sustenance and draws you to the healing power of Christ. The graces of Confirmation strengthen each person to keep moving forward and to share the good news of recovery and new life in Christ. Weeman's words are boldly challenging and brimming with compassion and through them you will discover inspiration, hope, sage advice, and refreshingly practical help.

Developers sniff out anything that seems like marketing. Typical tactics will fall flat. And you'll be staring at your analytics with questions they can't possibly answer. Most developers are too skeptical to fill out lead forms or provide their real email address. To reach a technical audience, you must acknowledge that developer marketing does not exist. Then you can authentically engage with developers. Adam DuVander has worked with dozens of developer-focused companies to attract thousands of the right developers. In *Developer Marketing Does Not Exist* he helps you uncover the mystery within your audience so you can reach more developers.

"With this charming, sardonic debut, stand up comedian and actor Todd Barry makes readers laugh as hard as the audiences at his shows" (Publishers Weekly) in this hilarious book of travel essays from his time on tour in the US, Canada, and Israel. Hello. It's Todd Barry. Yes, the massively famous comedian. I have billions of fans all over the world, so I do my fair share of touring. While I love doing shows in the big cities (New York, Philadelphia), I also enjoy a good secondary market (Ithaca, Bethlehem). Performing in these smaller places can be great because not all entertainers stop there on tour; they don't expect to see you. They're appreciative. They say things like "Thank you for coming

to Hattiesburg" as much as they say "Nice show." And almost every town has their version of a hipster coffee shop, so I can get in my comfort zone. My original plan was to book one secondary market show in all fifty states, in about a year, but that idea was funnier than anything in my act. So, instead of all fifty states in a year, my agent booked multiple shows in a lot of states, plus Israel and Canada. Thank You for Coming to Hattiesburg is part tour diary, part travel guide, and part memoir (Yes, memoir. Just like the thing presidents and former child stars get to write). Follow me on my journey of small clubs, and the occasional big amphitheater. Watch me make a promoter clean the dressing room toilet in Connecticut, see me stare at beached turtles in Maui, and see how I react when Lars from Metallica shows up to see me at a rec center in Northern California. I'd love to tell you more, but I need to go book a flight to Evansville, Indiana.

From the bestselling author of *Jurassic Park*, *Timeline*, and *Sphere* comes a gripping thriller about the shocking demise of eight American geologists in the darkest region of the Congo. Deep in the African rain forest, near the ruins of the Lost City of Zinj, a field expedition is brutally killed. At the Houston-based Earth Resources Technology Services, Inc., a horrified supervisor watches a gruesome video transmission of that ill-fated group and sees a haunting, grainy, man-like blur moving amongst the bodies. In San Francisco, an extraordinary gorilla named Amy, who has a 620-sign vocabulary, may hold the secret to that fierce carnage. Immediately, a new expedition is sent to the Congo with Amy in tow, descending into a secret, forbidden world where the only escape may be through the grisliest death.

In *Terrible Old Games You've Probably Never Heard Of*, Stuart Ashen has created a collection of hilarious and damning reviews

of some of the most bizarre, frustrating, pointless and downright terrible video games ever made. And he would know. . . he's played them all. Dripping with wry humour and featuring the best, worst graphics from the games themselves, this book encapsulates the atrocities produced in the days of tight budgets and low quality controls. These are the most appalling games that ever leaked from the industry's tear ducts and have long since been (rightly) relegated to the dusty shelves of history. Welcome to a world of games you never knew existed. You will probably wish you still didn't.

Never has the World Bank's relief work been more important than in the last nine years, when crises as huge as AIDS and the emergence of terrorist sanctuaries have threatened the prosperity of billions. This journalistic masterpiece by Washington Post columnist Sebastian Mallaby charts those controversial years at the Bank under the leadership of James Wolfensohn—the unstoppable power broker whose daring efforts to enlarge the planet's wealth in an age of globalization and terror were matched only by the force of his polarizing personality. Based on unprecedented access to its subject, this captivating tour through the messy reality of global development is that rare triumph—an emblematic story through which a gifted author has channeled the spirit of the age. This edition features a new afterword by the author that analyzes the appointment of Paul Wolfowitz as Wolfensohn's successor at the World bank

Terrible Old Games You've Probably Never Heard Of
Harvard Business Press

Tired of swimming with the sharks? Fed up with that big ape down the hall? Real animals can teach us better ways to thrive in the workplace jungle. You're ambitious and want to get ahead,

but what's the best way to do it? Become the biggest, baddest predator? The proverbial 800-pound gorilla? Or does nature teach you to be more subtle and sophisticated? Richard Conniff, the acclaimed author of *The Natural History of the Rich*, has survived savage beasts in the workplace jungle, where he hooted and preened in the corner office as a publishing executive. He's also spent time studying how animals operate in the real jungles of the Amazon and the African bush. What he shows in *The Ape in the Corner Office* is that nature built you to be nice. Doing favors, grooming coworkers with kind words, building coalitions—these tools for getting ahead come straight from the jungle. The stereotypical Darwinian hard-charger supposedly thinks only about accumulating resources. But highly effective apes know it's often smarter to give them away. That doesn't mean it's a peaceable kingdom out there, however. Conniff shows that you can become more effective by understanding how other species negotiate the tricky balance between conflict and cooperation. Conniff quotes one biologist on a chimpanzee's obsession with rank: "His attempts to maintain and achieve alpha status are cunning, persistent, energetic, and time-consuming. They affect whom he travels with, whom he grooms, where he glances, how often he scratches, where he goes, what times he gets up in the morning." Sound familiar? It's the same behavior you can find written up in any issue of *BusinessWeek* or *The Wall Street Journal*. *The Ape in the Corner Office* connects with the day-to-day of the workplace because it helps explain what people are really concerned about: How come he got the wing chair with the gold trim? How can I survive as that big ape's subordinate without becoming a spineless yes-man? Why does being a lone wolf mean being a loser? And, yes, why is it that jerks seem to prosper—at least in the short run? Also available as a Random House AudioBook and an eBook
