Improvise for Real is a step-by-step method that teaches you to improvise

your own music through progressive exercises that anyone can do. You'll learn to understand the sounds in the music all around you. And you'll learn to express your own musical ideas exactly as you hear them in your mind. The method starts with very simple creative exercises that you can begin right away. As you progress, the method leads you on a guided tour through the entire world of modern harmony. You will be improvising your own original melodies from the very

first day, and your knowledge will expand with each practice session as you explore and discover our musical system for yourself. *Improvise for Real* brings together creativity, ear training, music theory and physical technique into a single creative daily practice that will show you the entire path to improvisation mastery. You will learn to understand the sounds in the music all around you and to improvise with confidence over jazz standards, blues songs,

pop music or any other style you would like to play. And you'll be jamming, enjoying yourself and creating your own music every step of the way. The method is open to all instruments and ability levels. The exercises are easy to understand and fun to practice. There is no sight reading required, and you don't need to know anything about music theory to begin. Already being used by both students and teachers in more than 20 countries, *Improvise for Real* is now

considered by many people to be the definitive system for learning to improvise. If you have always dreamed of truly understanding music and being able to improvise with complete freedom on your instrument, this is the book for you

Complete Jazz Guitar Method: Beginning Jazz
Guitar Musicians Inst

Press

This book is designed to teach the guitarist the technique of chord soloing. This technique is extremely valuable to all guitarists because chords and melodies are played together; there is no need for an accompanying instrument. Each chapter focuses on a different aspect of chord soloing. I would recommend that novice guitarists start at the beginning and work through the book slowly. Intermediate players may want to find a chapter that looks challenging and

start at that point. By the end of this book, you will be able to take any lead sheet and turn it into a guitar arrangement. Enjoy the journey into the fascinating world of chord soloing.
