In 1984, photographer and horticultural designer Elizabeth Murray fell in love with Monet's

gardens and became involved in their restoration. She returns to Giverny each year to record the daily and seasonal transformations. Her first-hand knowledge of the grounds illuminates her photographs and accompanying descriptions. Murray is the author of *Cultivating Sacred Space: Gardening for the Soul, Monet's Passion: Ideas, Inspiration and Insights from the*

Painter's Gardens, and Painterly Photography: Awakening the Artist Within, all published by Pomegranate. *Claude Monet's Gardens at Giverny* Pomegranate "In 1928, the former French Prime Minister Georges Clemenceau published *Claude Monet : les nymphéas* (The water-lilies), a memoir of his longtime friend. France, and links the world of Monet the artist with Monet the gardener. Monet's Passion Harry N. Abrams Part of the highly-successful Anholt's Artists series about great painters, which tells the stories of real meetings between world-famous artists and the children who knew them. When Julie's dog disappears into a mysterious garden, Julie follows him - and finds herself in a beautiful garden-within-a-garden where the roses grow like splashes of paint and a Japanese bridge bows over a silent pool. There she finds not only her dog, but also Claude Monet. The famous artist introduces her to his work and his garden, giving her encouragement that the young would-be artist will never forget. Set against the romantic, world-famous backdrop of Monet's garden at Giverny, the story is accompanied by reproductions of the artist's most celebrated paintings and a biographical note on Monet.

A Day with Claude Monet in Giverny Frances Lincoln Children's Books One of our finest writers on one of her greatest loves. Jamaica Kincaid's first garden in Vermont was a plot in the middle of her front lawn. There, to the consternation of more experienced

friends, she planted only seeds of the flowers she liked best. In My Garden (Book) she gathers all she loves about gardening and plants, and examines it generously, passionately, and with sharp, idiosyncratic discrimination. Kincaid's affections are matched in intensity only by her dislikes. She loves spring and summer but cannot bring herself to love winter, for it hides the garden. She adores the

Here is the kitchen with its blue- and-white Rouen tiles and copper pots, the fabled studio where Monet not only painted but entertained his family and friends, the blue drawing room where the family gathered for games, the bedrooms and dressing rooms with their simple and elegant appointments, the foyers, the

épicerie, even the cellar where wine and provisions were stored. Paint dabs showing the colors used in major rooms allow the reader to duplicate them in their own homes. Heide Michels opens a door onto Monet's private world, giving us a vivid impression of the family's day-to-day routine, including family activities and mealtime rituals. She describes Monet's love of the good

Monet's House reveals the artist as a master decorator as innovative in his choice of wall and furniture colors as he was in his canvases. It also captures a vivid picture of domestic life as it was lived by one of the world's

greatest Impressionist painters. Murray/Monet's Passion Crown A spectacular, atmospheric photographic tour of the gardens of Giverny, the subject of Monet's most famous works. Monet's Passion Bloomsbury Publishing USA Monet designed his garden as a painter's subject, using plants like brushstrokes. Premier garden writer and photographer Derek Fell helps the home gardener recreate some of Giverny's beauty through an illuminating examination of the painter's planting philosophies. With hundreds of full-color photographs, and reproductions, Fell sheds light on Monet's use of color, structure, favorite flowers; and more. *Monet's Garden in Art* Gibbs Smith Like heirloom seeds and grafts from

trees, advice from great gardeners handed down through the centuries has shaped the science and art of gardens across the globe. Spanning gardeners from fifteenth-century Japan to the contemporary United States, *Lessons from the Great Gardeners* profiles forty groundbreaking botanists, nurserymen, and tillers of earth, men and women whose passion, innovation, and green

thumbs endure in the formal landscapes and vegetable patches of today. Entries for each gardening great highlight their iconic plants and garden designs, revealing both the gardeners' own influences and the seeds—sometimes literal—that they sowed for gardens yet to sprout. From André Le Nôtre in seventeenth-century France, who drew on his training as an

architect and hydraulic engineer to bring the topiary form to Vaux-le-Vicomte and Versailles, to the work of High Line and Lurie Garden designer Piet Oudolf, and Thomas Jefferson's advice on creating protected garden microclimates for help growing early crops and tender fruit like figs (with peas, a Jefferson favorite), *Lessons from the Great Gardeners* is a resource as

A tremendous best seller in France, *The Gardener of Versailles* gives an unprecedentedly intimate view of one of the grandest places on earth. From the Hardcover edition. *Monet's Passion* Frances Lincoln This beautiful slipcased volume offers

an intimate tour inside Monet's home and through the idyllic Giverny garden that inspired his most iconic paintings. Monet first spotted the village of Giverny from the window of a train and then relocated to the rural haven outside Paris in 1883. Monet was an artist with a passion for painting landscapes and outdoor scenes, and the garden at Giverny soon became the Impressionist master's

greatest artistic accomplishment and a catalyst for his work. In 1890, Monet began renovating it, installing a picturesque water lily pond inspired by the Japanese prints he avidly collected. The setting of Monet's Water Lilies series—his most famous works—it is now the most visited garden of its size in the Western world. The beautifully vivid illustrations of Monet's paintings, his

home, and the grounds give readers unprecedented access into the flowery paradise to

which Monet dedicated the last forty years of his life. Lovers of garden design

and Impressionist art are invited on an intimate tour via this handsome volume.
