"Young singers through the centuries have occupied a central position in a variety of religious institutional settings: urban cathedrals, collegiate churches, monasteries, guilds, and confraternities." "The training of singers for performance in religious services shaped the very structures of ecclesiastical institutions, which developed to meet the need for educating their youngest members. The development of musical repertoires and styles also directly reflected the ubiquitous participation of children's voices in both chant and polyphony. There was even, frequently, a future for choristers after their voices broke."-- BOOK JACKET.

This book aims to contribute to the knowledge of the cultural and linguistic relations between Italy and the Crown of Aragon in the 15th century. In particular, it studies some relevant aspects of the chivalric romance entitled *Curial e Guelfa*, written in Italy around 1443-1448 in Catalan, but mainly Italian in spirit, sources and onomastics. It is probably the very first work of a genre known as "humanistic chivalry", the epitome of which will be Ariosto's *Orlando furioso*. The literary context of Milan and Naples (The Three Crowns, Troubadour Lyrics, Humanism) is analyzed in the first part of the volume. It is this context that made possible the

gestation of the Curial, an extraordinary anonymous romance, which was most likely written by the knight Enyego d'Àvalos (Inico d'Avalos), born in Toledo but raised in Valencia. The second part of the volume is devoted to the study of some lexical, stylistic and syntactic aspects of the Curial, which show the author's excellent knowledge of Catalan and the constant influence of Italian in the romance. Questo libro si propone di contribuire alla conoscenza delle relazioni culturali tra l'Italia e la Corona d'Aragona nel XV secolo. In particolare, studia il romanzo dal titolo Curial e Güelfa, scritto in Italia intorno al 1443-1448, dotato di italianità, fonti e onomastica, ma scritto in catalano. È probabilmente la primissima opera di un genere noto come "cavalleria

umanistica| , la cui epitome sarebbe l'Orlando Furioso dell'Ariosto. Questo volume analizza il contesto letterario di Milano e Napoli che ha reso possibile questo straordinario romanzo anonimo, di cui conosciamo ormai con quasi assoluta certezza che il suo autore era Enyego o Inico d'Avalos. I contributi in questo volume approfondiscono alcuni degli aspetti lessicali, stilistici e sintattici di Curial e Güelfa, e mettono in evidenza l'eccellente conoscenza del catalano da parte del suo autore, nonché la presenza onnipresente della lingua italiana. El libro pretende contribuir al conocimiento de las relaciones culturales entre Italia y la Corona de Aragón en el siglo XV. En concreto se ocupa de la novela Curial e Güelfa , gestada en Italia hacia 1443-1448, de espíritu, fuentes y

onomástica principalmente italianos, pero redactada en lengua catalana. Es probablemente la manifestación más primeriza del género literario conocido como “caballería humanística”, que tendrá su punto culminante con el Orlando furioso, d’Ariosto. Este volumen analiza el contexto literario de Milán y Nápoles que hizo posible esta extraordinaria novela anónima, de la que ahora sabemos con casi absoluta certeza que su autor fue Enyego o Inico d’Avalos. Las contribuciones de este volumen profundizan en algunos de los aspectos léxicos, estilísticos y sintácticos de Curial e Güelfa, y destacan el excelente conocimiento del catalán de su autor, así como la presencia omnipresente de la lengua italiana.

This collection of essays explores laughter, humor, and the comic from a psychoanalytic perspective. Edited by two leading practicing psychoanalysts and with original contributions from Lacanian practitioners and scholars, this cutting-edge volume proposes a paradigm swerve, a Freudian slip on a banana peel. Psychoanalysis has long been associated with tragedy and there is a strong warrant to take up comedy as a more productive model for psychoanalytic practice and critique. Jokes and the comic have not received nearly as much consideration as they deserve given the fundamental role they play in our psychic lives and the way they unite the fields of aesthetics,

literature, and psychoanalysis. Lacan, *Psychoanalysis and Comedy* addresses this lack and opens up the discussion. *Catalog of Copyright Entries* John Benjamins Publishing Company Winner of the 2022 Roland H. Bainton Book Prize from the Sixteenth Century Society & Conference In 1578, a fourteen-foot linen sheet bearing the faint bloodstained imprint of a human corpse was presented to tens of thousands of worshippers in Turin, Italy, as one of the original shrouds used to prepare Jesus Christ's body for entombment. From that year into the next century, the Shroud of Turin emerged as Christianity's preeminent religious artifact. In an unprecedented new look, Andrew R. Casper sheds new light on one of the world's most famous

and controversial religious objects. Since the early twentieth century, scores of scientists and forensic investigators have attributed the Shroud's mysterious images to painterly, natural, or even supernatural forces. Casper, however, shows that this modern opposition of artifice and authenticity does not align with the cloth's historical conception as an object of religious devotion. Examining the period of the Shroud's most enthusiastic following, from the late 1500s through the 1600s, he reveals how it came to be considered an artful relic—a divine painting attributed to God's artistry that contains traces of Christ's body. Through probing analyses of materials created to perpetuate the Shroud's cult following—including devotional, historical, and theological

treatises as well as printed and painted reproductions—Casper uncovers historicized connections to late Renaissance and Baroque artistic cultures that frame an understanding of the Shroud's bloodied corporeal impressions as an alloy of material authenticity and divine artifice. This groundbreaking book introduces rich, new material about the Shroud's emergence as a sacred artifact. It will appeal to art historians specializing in religious and material studies, historians of religion, and to general readers interested in the Shroud of Turin.

Modern structural engineering surprises us with the mastery and certainty with which it plans and carries out daring

projects, such as the most recent metal or concrete bridges, whether they be suspension or arch bridges. On the other hand, little is yet known about the state of knowledge of construction science and techniques which, well before the arrival of modern methods based on the mechanics of deformable continua, made it possible in the past to erect the vaulted masonry structures that we have inherited. The fact that these have lasted through many centuries to our time, and are still in a fairly good state of conservation, makes them competitive, as far as stability and durability are concerned, with those constructed in other materials. Although it is known that the equilibrium of the arch is guaranteed by any funicular whatsoever of the loads, contained inside the profile

of an arch, finding the unique solution is not such a certainty. In other words, the problem of the equilibrium of vaulted structures is 'Poleni's problem', the one for which the Venetian scientist was able to give an exemplary solution on the occasion of the assessment of the dome of St. Peter's. Arch Bridges focuses on the main aspects of the debate about the masonry arch bridge: History of structural mechanics and construction, theoretical models, analysis for assessment, numerical methods, experimental and non-destructive testing, maintenance and repair are the topics of the Conference. The breadth and variety of the contributions presented and discussed by leading experts from many countries make this volume an authoritative source of up-to-

date information.

This book explores the issue of ecclesiastical authority in Romanesque sculpture on the portals and other sculpted "gateways" of churches in the north Italian region of Lombardy. Gillian B. Elliott examines the liturgical connection between the ciborium over the altar (the most sacred threshold inside the church), and the sculpted portals that appeared on church exteriors in medieval Lombardy. In cities such as Milan, Civate, Como, and Pavia, the liturgy of Saint Ambrose was practiced as an alternative to the Roman liturgy and the churches were constructed to respond to the needs of Ambrosian liturgy. Not only do the

Romanesque churches in these places correspond stylistically and iconographically, but they were also linked politically in an era of intense struggle for ultimate regional authority. The book considers liturgical and artistic links between interior church furnishings and exterior church sculptural programs, and also applies new spatial methodologies to the interior and exterior of churches in Lombardy. The book will be of interest to scholars working in art history, medieval studies, architectural history, and religious studies.
