RICHARD PHOEBE

Energy and Water Development Appropriations for 1991 IGME

This bibliography is intended to provide scientists, resource managers, regulators and the concerned public with a comprehensive reference to materials pertinent to the environmental issues affecting Northwest Florida. This effort is strongly coastal and estuarine in its coverage and is limited geographically to the area between Cape San Blas, Florida and Baldwin County, Alabama.

Lower Mission Creek Interim Report, Santa Barbara County Streams, Feasibility Report Routledge

In the context of the evolution of education program evaluation and the current emphasis on scientific precision, this special issue presents several of the challenges to program evaluation that scholars are facing today. In addition, it shares recent insights and experiences that will contribute to continued improvement of program evaluation and responds to the call for more exactness without losing sight of the lessons learned from evaluation over the past several decades. The eight papers address five main areas: evaluation design, instrumentation, implementation, politics, and analysis. As a whole, this issue is designed shed light on the five issues, as well as provide information useful for those interested in increasing the rigor of education research to increase the ability to improve schools.

Biennial Progress Report Elsevier

Based on an international seminar, held Sept. 1986 in Cuzco, Peru, sponsored by Multiciencias (Peru) and Unesco.

Dictionary Catalog of the Water Resources Center Archives, University of California, Berkeley M.E. Sharpe

This volume, covering metals and minerals, contains chapters on approximately 90 commodities. In addition, this volume has chapters on mining and quarrying trends and on statistical surveying methods used by Minerals Information, plus a statistical summary.

Departments of State, Justice, and Commerce, the Judiciary, and Related Agencies Appropriations for 1964

Committee Serial No. 90-19. Reviews progress made by Federal departments in planning and implementing marine sciences programs in areas of food supply, energy, national security and marine safety.

Energy Research Abstracts

A research series covering oil, coal, gas and other energy.

Agency Budgets and Priorities for Fiscal Year 2005

Materials for Carbon Dioxide Mitigation Technology offers expert insight and experience from recognized authorities in advanced material development in carbon mitigation technology and constitutes a comprehensive guide to the selection and design of a wide range of solvent/sorbent/catalyst used by scientists globally. It appeals to chemical scientists, material scientists and engineers, energy researchers, and environmental scientists from academia, industry, and government in their research directed toward greener, more efficient carbon mitigation processes. Emphasizes material development for carbon mitigation technologies rather than regulations Provides a fundamental understanding of the underpinning science as well as technological approaches to implement carbon capture, utilization and storage technologies Introduces the driving force behind novel materials, their performance and applications for carbon dioxide mitigation Contains figures, tables and an abundance of examples clearly explaining the development, characterization and evaluation of novel carbon mitigation materials Includes hundreds of citations drawing on the most recent published works on the subject Provides a wealth of real-world examples, illustrating how to bridge nano-scale materials to bulk carbon mitigation properties

Energy and Water Development Appropriations for 2003

Revised and expanded for the fifth edition, this text provides an academic reference on the subject of land-lockedness as it relates to economic development, international law, transport economies, international organizations and political and economic geography.

Upper Guadalupe River Feasibility Study, Flood Control Protection, Construction, National Economic Development Plan

Minerals Yearbook

H.R. 155, Lower Brule and Crow Creek Tribal Compensation Act; H.R. 5511, Leadville Mine Drainage Tunnel Remediation Act of 2008; and H.R. 5710, Eastern New Mexico Rural Water System Authorization Act

Energy and Water Development Appropriations for 1998: Testimony of members of Congress and other interested individuals and organizations

Reevaluating Evaluation

An Assessment of the Potential for Using Alaskan Coal in California

Santa Barbara County Streams, Lower Mission Creek Flood Control Feasibility Study, California

Hearings, Reports and Prints of the House Committee on Merchant Marine and Fisheries

An Environmental Bibliography for Northwest Florida, 1900-1985

Stratabound Ore Deposits in the Andes

Bibliography on Land-locked States, Economic Development and International Law

Saline Water Conversion Report for
