Beast Hunters Simon and Schuster #5 in multiple New York Times bestseller Larry Correia's Monster Hunter series. Agent Franks of the U.S. Monster Control Bureau is a man of many parts—parts from other people, that is. Franks is nearly seven feet tall and all muscle. He's nearly indestructible. Plus he's animated by a powerful alchemical substance and inhabited by a super-intelligent spirit more ancient than humanity itself. Good thing he's on our side. More or less. Sworn to serve and protect the United States of America from all monsters by one of the country's founding fathers, Franks has only one condition to the agreement: no matter what the government learns of him, no matter what is discovered concerning his odd physiology or the alchemy behind the elixir that made him, the government is never, ever allowed to try and make more like him. Such is absolutely forbidden and should the powers-that-be do so, then the agreement is null and void. Project Nemesis: in a secret location, using sophisticated technology and advanced genetic engineering, the director of the very agency Franks works for is making more like him. And the director is not content with making one. Nope, he's making thirteen. Now all bets are off, and Hell hath no fury like a monster betrayed. Particularly if that monster happens to be an undying killing machine capable of taking out vampires and werewolves with one hand tied behind his back. Billy is a monster hunter. That's because his home is infested with slimy, hairy, creeping, slithering, garbage-eating monsters! One week, Billy does battle with the monsters—in his bedroom, in the bathroom, even in the kitchen. But the problem is that monster hunting is a messy operation, and Billy's mom isn't so thrilled about all the messes she continues to find, whether it is water covering the floor, clothes thrown on the furniture, or food strewn about in the kitchen. So, when the hunting goes too far for Mom, Billy learns that monster hunting can—and must—be done with the proper tools. A vacuum or a rag with soapy water does wonders in defeating and cleaning up after a particularly troublesome Mud-Grass monster. With Billy's new monster-hunting techniques, he and Mom come to an agreement, and Halloween (and the house) is never the same again! Author and illustrator Justin LaRocca Hansen has created a fun and clever story that teaches children the importance of cleaning up after their messes. The whimsical illustrations of Billy happily fighting off his imaginative monsters will capture the attention of young readers, while reminding them to be responsible at

home. A must-read for any special monster hunter you may know!
