Raymond Queneau's Chêne Et Chien

Fairleigh Dickinson Univ Press

The author ranks as one of the foremost living traditional African storytellers - as recognised by the acclaim of his first book, *The Palmvine Drinkard*. This book includes seven folktales especially for young adults, but of universal appeal. Beautiful black and white ink drawings illustrate the tales whose cast of characters include humans, a goddess, an elephant woman, a boa constrictor and a shell-

man.

A Catalogue of Polyphonic Songs, 1415-1480 Penguin

[The Awakening of Japan](#) Oxford University Press, USA

This book is an in-depth analysis of three of the most crucial years in twentieth-century Italian history, the years 1943-46. After more than two decades of a Fascist regime and a disastrous war experience during which Italy changed sides, these years saw the laying of the political and cultural foundations for what

has since become known as Italy's First Republic. Drawing on texts from the literature, film, journalism, and political debate of the period, Antifascisms offers a thorough survey of the personalities and positions that informed the decisions taken in this crucial phase of modern Italian history.

A detailed inventory of polyphonic songs from

1415-1480 in any European language, with language subdivisions: English, French, German (including Flemish), Italian, Latin, Spanish, and textless (this last with musical incipits). Each entry includes full details of all sources, facsimiles, modern editions, paraphrases, citations, etc. The aim is to account for everything that survives or is confidently known to have existed. There are approximately 2,000 main entries, derived from some 200 central sources, with another 200 sources that contain only a few pieces, poetic texts, or otherwise related material. The volume also includes brief descriptions of all the main sources as well as biographical entries

for all the composers and poets (keyed to the main catalogue) and an extensive bibliography.

NEW YORK TIMES
BESTSELLER • “A fascinating look at how consumers perceive logos, ads, commercials, brands, and products.”—Time
How much do we know about why we buy? What truly influences our decisions in today’s message-cluttered world? In *Buyology*, Martin Lindstrom presents the astonishing findings from his groundbreaking three-year, seven-million-dollar neuromarketing study—a cutting-edge experiment that

peered inside the brains of 2,000 volunteers from all around the world as they encountered various ads, logos, commercials, brands, and products. His startling results shatter much of what we have long believed about what captures our interest—and drives us to buy. Among the questions he explores:

- Does sex actually sell?
- Does subliminal advertising still surround us?
- Can “cool” brands trigger our mating instincts?
- Can our other senses—smell, touch, and sound—be aroused when we see a product?

Buyology is a fascinating and shocking journey into the mind of today’s consumer that will captivate anyone who’s been seduced—or

turned off—by marketers' relentless attempts to win our loyalty, our money, and our minds.

This book shows how rhythm constitutes an untapped resource for understanding poetry. Intervening in recent debates over formalism, historicism, and poetics, the

authors show how rhythm is at once a defamiliarizing aesthetic force and an unstable concept. Distinct from the related terms to which it's often assimilated—scansion, prosody, meter—rhythm makes legible a range of ways poetry affects us that cannot be parsed through the traditional resources of poetic theory. Rhythm has rich but also problematic roots in still-lingering nineteenth-century notions of primitive, oral, communal, and sometimes racialized poetics. But there are reasons to understand and even embrace its seductions, including its resistance to lyrical voice and even identity. Through exploration of rhythm's

genealogies and present critical debates, the essays consistently warn against taking rhythm to be a given form offering ready-made resources for interpretation. Pressing beyond poetry handbooks' isolated descriptions of technique or inductive declarations of what rhythm "is," the essays ask what it means to think rhythm. Rhythm, the contributors show, happens relative to the body, on the one hand, and to language, on the other—two categories that are distinct from the literary, the mode through which poetics has tended to be analyzed. Beyond articulating what rhythm does to poetry, the contributors undertake a

genealogical and theoretical analysis of how rhythm as a human experience has come to be articulated through poetry and poetics. The resulting work helps us better understand poetry both on its own terms and in its continuities with other experiences and other arts.

The American Heritage Dictionary of Indo-European Roots Hassell Street Press
 The French writer

Raymond Queneau (1903-1976) is coming to be recognized as one of the major voices in 20th-century literature. Although twelve of his novels have been translated, *Chêne et Chien*, considered by specialists to be the keystone of his oeuvre, has not until now been available in English. Labeled a «novel in verse» by Queneau, this autobiographical poem recounts the poet's childhood, portions of that childhood revisited through psychoanalysis, and finally his joy at finding himself whole. The translator's introduction situates the work in Queneau's life and oeuvre, addresses the problem of poetry as autobiography,

examines the structure of the poem itself and discusses the difficulties of translating Queneu's many moods and rich wordplay into English verse. Explanatory notes complete the volume.

August, 1859

Macmillan

Publisher's description:

In this original book, B. Kumaravadivelu presents a macrostrategic framework designed to help both beginning and experienced teachers develop a systematic, coherent, and personal theory of practice. His book provides the tools a teacher needs in order to self-observe, self-analyze, and self-evaluate his or her own teaching acts. The

framework consists of ten macrostrategies based on current theoretical, empirical, and experiential knowledge of second language and foreign language teaching. These strategies enable teachers to evaluate classroom practices and to generate techniques and activities for realizing teaching goals. With checklists, surveys, projects, and reflective tasks to encourage critical thinking, the book is both practical and accessible. Teachers and future teachers, researchers, and teacher educators will find the volume indispensable.
