'Just as heat is inherent in fire, so is our desire to become better.' Why are personal growth and life transformation so difficult? Does Creation wish that we fail? Of course not! The purpose behind the Universe's grand design is to make us succeed. Our own unawareness of the laws of the Universe creates the impediment. Just as physical phenomena are regulated by laws, there are spiritual principles governing the journey of life as well. Knowledge of them helps us understand why success comes so easily to some but remains a struggle for others; why some are still putting on their shoes, while others have finished the race. The beauty is that, like the physical laws of nature, the divine principles governing happiness and fulfilment in life are also eternally valid. In this book, Swami Mukundananda explains the 7 divine laws

in an easily graspable manner. With knowledge of the Vedic scriptures and witty anecdotes that everyone can relate to, this book will empower you to become the best version of yourself. *(Free Sample) 35 Years NTA NEET (UG) CHEMISTRY Chapterwise & Topicwise Solved Papers with Value Added Notes (2022 - 1988) 17th Edition* Pearson Education India
